INSPIRATION IN EDUCATION

## Dear customers,

2020 was a challenging year for all of us. We hope that you have come through this difficult phase well. We are happy to remain your reliable partner who is taking care of your needs and belongings also in the future.

In order to ensure and intensify this support we worked on 2 important projects in 2020. We were able to finalise our new warehouse system in January 2021. The highly modern system helps us to arrange faster deliveries. The restructuring has caused some delays in autumn 2020, for which we would like to apologize. Due to the new challenge "Homeschooling" in schools and kindergartens, digitalization got even more important during the past months and probably will also be in the future.

Betzold has taken the chance to establish a comfortable B2B-Shop in addition to our current product catalogue. Profit from the following advantages by visiting our website **[www.betzold-educational.com](http://www.betzold-educational.com)**:

- › Access to the complete retail range of about 9.000 products of Betzold
- › Simple function for searching products in the complete range
- › Advertising of novelties, sales promotion or interesting product information
- › View of availability of products and estimated delivery time (if not in stock)
- › Notification of YOUR purchasing price plus the RRP of the manufacturer
- › Information where to download pictures, manuals and documents.
- › All relevant product information at a glance
- › Simply use your excel orders for direct import into B2B-Shop and get direct availability information
- › Own customer account with order history (beginning from the start of the B2B-Shop)

Betzold is ready to continue to be **YOUR** reliable partner in the future and we look forward to working with you. Should you have any questions, please do not hesitate to contact us.

Yours sincerely

*Ulrich Betzold*

## DEVELOPMENT:

- SELF-CONFIDENCE AND SELF-AWARENESS
- MOTION EXERCISE AND HANDLING
- NUMBERS AND SHAPES
- RHYTHM AND HAND-EYE COORDINATION

## Wall Panels – Set of 6

The set of six wall panels – each with different manipulative activities – encourages hand-eye coordination and fine motor skills. The set includes: percussion instruments, a number game, a stacking puzzle, a sliding puzzle, rotational pieces and a line-following maze. The different games offer a wide range of hands-on problem solving and learning opportunities to develop fine motor skills.

Each piece comes with fixing holes and mounting screws for easy wall mounting.

Dimensions (L x H x W): 35 x 33 x 1.5 cm

Material: wood

Age: 24 M+

756307V90

### Wooden Seat Group, 4 pieces

The seat group is made of stable rubber plant wood. Two stools and a bench can accommodate up to 4 children. The seat group is the ultimate, space-saving solution for all common rooms: the 4 pieces of furniture can easily be pushed together until the next use. The plain surfaces can be wiped off with a damp cloth to clean the furniture. Due to the rounded corners there is no risk of injury for the children.

#### Content:

- › 2 stools (26 x 30 x 30 cm)
- › 1 bench (32 x 70 x 30 cm)
- › 1 table (48 x 80 x 40 cm)
- › assembly instructions

**757940V90**

MADE OF SOLID  
RUBBER WOOD

**Fancy Dresses – Set of 12 pcs. for Toddlers and Babies**

Kings, lions or flowers ... even the littlest ones love to dress up. You can roar like a lion, jump like a rabbit, and so much more! From early childhood on roleplaying increases the social competence and encourages creativity. Having unlimited fantasies is fun and absorbing for children. These comfortable capes and slip-on costumes make dressing up your group very easy – handy Velcro® fasteners enable the children to keep moving around freely. Simply slip into the dress and have fun!

In this set of 12 costumes there is one for everyone in varying sizes and themes: sheep, king, ladybird, flower, crocodile, mushroom, dinosaur, squid, rabbit, leopard, lion and monkey.

Material: 100% polyester, machine washable at 30 °C.

Age: 9 M+ 55988V90 Set of 12 costumes

WITH MANY POCKET ORGANISERS

LARGE STORAGE BASKET

**Mobile Costume Rack**

Ideal storage of dress-up costumes for little kings, fairies and princes ... The pocket organisers at both ends and a convenient wire shelf on the bottom provide plenty of space for stowing small articles. By putting away their costumes themselves, children simultaneously train their motor skills.

The Costume Rack is at children's height. Dimensions (H x W x D): 86 x 96.5 x 45.2 cm

**Fancy Dress Unicorn**

Material: 100% polyester. Machine washable at 30 °C  
 Warning Notice: 1 (page 271)

**100275V90**

### Discovery Sets – Small Children

All first experiences are sensory. During their early childhood, children obtain a variety of fine motor skills. By trying and repeating, they understand how things work and experience a first feeling of success.

This set stands out through its 'one focus' principle. There is no distraction by colour, imprints, sounds ... By performing one activity, concentration is stimulated and will be more intense.

Children educate themselves. By matching the shapes they see if they make a mistake, understand and are in control of error. This way, first experiences regarding object permanence and form constancy can be achieved. Shape, size, height and quantity are recognised and positioned.

Age: 12 M+

Warning Notice: 35 (page 271)

**56144V90** Set of 12 beech wood puzzles

Tray: 22.5 cm

Tray: 19.5 cm

Tray: 22.2 cm

Tray: Ø 22.3 cm

Tray: 30.3 x 6.8 cm

Tray: 33.5 x 6.8 cm

Tray: 30.3 x 6.8 cm

Tray: 30.3 x 6.8 cm

Tray: 36.7 x 31.5 cm

Height: 23 cm

## SET OF 12 BEECH WOOD PUZZLES

Height: 22.3 cm

Height: 21.8 cm

**Flexible Worm**

Flexible worm with 10 colourful wood parts. Movable thanks to an elastic string. Length: 16 cm  
Age: 18 M+  
**100788V90**

**Attention: Cheese with Holes!**

While playing this fun game, children practise the coordination of hands and eyes and improve their fine motor skills.  
**Content:** 2 balls and playing board 27 x 35 cm  
Material: wood  
Warning Notices: 4, 5 (page 271)  
**50795V90**

**Jigsaw-Threading-Shoes**

Wooden jigsaw puzzle with threading laces.  
Size board: 40 x 21 cm  
3 shoes (Size: ca. 19 x 8 cm)  
3 laces (Length: 130 cm)  
Warning Notices: 4, 5 (page 271)  
**70693V90**

**Lacing Shoe**

Sometimes it is hard for children to practise on their own shoe. This sturdy plastic sneaker is the perfect sized toy for kids to learn how to lace and tie over and over again!  
Dimensions: length: approx. 22 cm, height: 9.5 cm  
Comes with 1 lace, 120 cm  
Warning Notice: 4 (page 271)  
**86226V90**

Minimum order: € 400,-

### Farfallas – Floor Puzzle

125 floor tiles for the development of fantasy, creativity and language skills. Made out of textile with anti-slip underside.

Dimensions: largest tile: 16.2 x 22 cm  
smallest tile: Ø 5 cm

Material: textile

Warning Notice: 2 (page 271)

**760020V90**

### Wooden Blocks

One side of the cube is blank and the other five sides have the same blue pattern. The children can create different shapes and geometrical forms. They discover the features of geometrical figures.

#### Content:

1 wooden tray (21.5 x 21.5 cm)  
16 large wooden cubes (4.5 cm)

**9880V90**

### Pattern Cards

Wooden Blocks

10 plastic cards, printed on both sides (18 x 18 cm)

**9881V90**

### Wooden Threading Shapes

This set consists of colourful threading shapes and laces delivered in a wooden box. Including 7 different shapes and 7 laces (approx. 130 cm each).

Dimensions Box: 16 x 20 x 4.5 cm

Warning Notice: 4 (page 271)

**85494V90** In wooden box with lid

### Big Beads

Threading beads is even more fun with this set of brightly coloured beads in a variety of shapes. Promotes a vast range of skills: fine motor, cognitive & visual perception.

8 laces approx. 90 cm, 80 beads

Age: 18 M+

Warning Notice: 29 (page 271)

**41251V90** 90 pieces in a transparent box

### Small Beads

Children learn to differentiate shapes and colours. The beads can be threaded randomly, encouraging children to improve their eye-hand coordination.

Different shapes approx. 1.7 cm, 8 laces, 90 cm

Age: 3+

Warning Notice: 49 (page 271)

**41341V90** 360 pieces in a transparent box

### Lacing Animals

9 lacing animals (3 bears, 3 ducks and 3 dogs) and laces in 3 different colours.

Great for training colour recognition and sorting skills and for the development of fine motor skills. Can also be used as templates.

Size: up to 15 x 19 cm

Warning Notice: 4 (page 271)

**35681V90**

### Lacing Shapes

81 large plastic shapes (square, triangle and circle) and 27 laces in 3 different colours. Suitable for threading, counting, sorting, classifying and sequencing. Every shape has 4 holes allowing different threading patterns. Size square: 49 cm

Warning Notices: 1, 4 (page 271)

**85052V90** In plastic storage tub

### Giant Lacing Beads

Set of 48 beads in 4 shapes (ball, cube, cylinder, olive) and in 6 colours.

Size of a cube is 4.5 x 4.5 x 4.5 cm

6 laces (65 cm each), in different colours are enclosed.

To develop fine motor skills and logical thinking.

Warning Notice: 4 (page 271)

**900331V90** In plastic storage box

25 PIECES

### Giant Beads

Highly polished. 250 giant beads in 6 shapes and in 5 colours. 8 laces enclosed.

Also suitable for small children. To develop sorting, sequencing, counting and visual memory skills. For ages 3 years and up.

Dimensions: up to 2.4 cm

Warning Notice: 49 (page 271)

**761791V90** In plastic storage box

### Threading Skewer

One ball can be removed. Length: 30 cm, Ø 6 mm

Warning Notice: 49 (page 271)

**8766V90** Set of 25 pieces

### Pattern Bead Set

The set contains 120 beads (see 85053V90), 2 wooden stands, 4 laces, 2 mirrors, 24 work cards.

Work cards are printed both sides – recto is colour and verso is black-white. 4 children can play at the same time with the beads provided.

Warning Notices: 1, 4, 5 (page 271)

**86613V90** In plastic storage box

### Work Cards Pattern Beads

Can be bought separately

24 work cards printed both sides

**900335V90**

### Stand for Workcards

**900027V90**

### Thread Beads

900 thread beads made from plastic, washable.

Ø 1.8 cm. Comes with 16 laces.

Warning Notices: 4, 5 (page 271)

**50549V90** In plastic storage box

### Mixed Colourful Set of Beads

650 beads, mixed in colour and form (1.5 cm), and 6 strings

Warning Notices: 1, 4, 5 (page 271)

**50550V90** In plastic storage tub

### Threading Shapes

Enhance eye-hand coordination with this huge set of threading animals. Children learn to focus on the task at hand and will improve their fine motor skills at the same time.

32 lacing shapes, 16 laces, 90 cm

Warning Notice: 49 (page 271)

**41249V90** 48 pieces, in a transparent box

### Tubes Lock Sets

Children create and construct the most amazing cars, tanks, animals, buildings, instruments etc. They have hours and hours of fun.

Great for building up fine motor skills.

All Warning Notice: 1 (page 271)

### Tubes with Wheels

**41308V90** 64 pieces

### Tubes

**41310V90** 80 pieces

ENDLESS  
FUN AND  
POSSIBILITIES

### Fun Building Blocks

Set of 60 pieces in 4 colors: 6 different shapes, 7 figures and 5 wheels

Size of a wheel: 5 cm - thickness 3 cm.

Material: 100% polyethylene

Age: 18 M+

**900330V90** In plastic box

Minimum order: € 400,-

### Medium Grapes

These large brightly coloured plastic grapes can be put together from all directions. 5 colours  
Diameter: 6 cm. Age: 24 M+

**41319V90** 58 pieces per sturdy box

### Snowflakes

Snowflake shaped plastic building blocks – All children aged 3 or up will enjoy the colourful world they can create with this set.

The pieces are durable and safe so they can be used again and again to spark children's imagination.

#### Double-sided snowflakes, small

Diameter: 3.3 cm

Warning Notice: 1 (page 271)

**41318V90** 1000 pieces per sturdy box

#### Double-sided snowflakes, large

Diameter: 5.6 cm

Age: 24 M+

**41317V90** 100 pieces per sturdy box

### Work Cards for Pairing Screws

Set of 33 plastic cards (32 exercise cards and one colour code) printed on both sides.

One side for making a pattern, reverse for making a pattern with help of the colour code. Self-correcting.

Dimension: 11 x 8.5 cm

**85586V90** Set of 33

### Screw Game

These self-correcting, oversized, geometrically shaped nuts and bolts give little ones practice in manipulative skills as well as shape and colour matching skills. Made of colourful, durable plastic. Bolts are 6 cm high

Age: 24 M+

**41250V90**

### Groovy Animals

Let your children have fun with this cute and colourful set of assorted rubberised animals, which have been designed with tongue and groove connectors. Great for developing fine motor skills, colour recognition, sorting and creativity. Height: 6.5 cm  
Warning Notice: 1 (page 271)

**41316V90** 72 pieces per sturdy box

### Construction Rabbits

These funny faced rabbits in 5 bright colours can be slotted together to create amazing constructions. Also young children can start building right away. Set of 50 pieces in a plastic storage box. Size of a rabbit: 8.3 cm  
Material: 100% polyethylene (PE)  
Age: 24 M+

**88406V90** In plastic storage box

### Small Plum Blossoms

Create flowers, trees, animals, space rockets, robots, figurines and other geometric designs. Use the instructions or create with your own imagination! The colourful blossoms help the children build fine motor skills, hand and eye coordination and generate ideas and creativity. Diameter: 4 cm

Warning Notice: 1 (page 271)

**41315V90** 190 pieces per sturdy box

**NEW**

**Building Blocks with Bristles**

136 building blocks with bristles. Made from stable plastic. Suitable for children from 3 years up. Size biggest part (W x H): 11 x 4 cm  
Warning Notice: 1 (page 271)

**759558V90**

**3-D Connect**

Various shapes and sticks can be combined to create 3-D shapes. This colourful set promotes the ability to distinguish different colours and shapes. It also sparks an interest in design and engineering. Dimensions: cube: 3.3 x 3.3 cm  
Warning Notices: 1, 5 (page 271)

**41325V90** 140 pieces in a box

**Suckers**

Quality plastic construction blocks that fit together easily with suction cups for little hands. Dimensions: cube: 5.4 x 5.4 cm  
Age: 18 M+

**41312V90** 42 pieces in a sturdy box

### Gear Set

Interlocking building blocks and gear wheels encourage problem-solving skills and fine motor skills. Playing with this set of building blocks children will be eager to learn more about mechanics and engineering.

Dimensions: large gear: Ø 11.8 cm

Warning Notice: 1 (page 271)

**41301V90** 340 pieces in a box

### Large Constructors

Sturdy bricks for unlimited hours of fun and learning. Building vehicles, shapes or other creative designs is easy and everyone can join in. Students can work together to create something new every day.

Dimensions: wheel: Ø 7.7 cm

Warning Notice: 1 (page 271)

**41306V90** 56 pieces in a sturdy box

### Small Constructors

Improve fine motor skills and dexterity while having fun is possible with this set of constructors. The set contains different shapes and colours which can be combined in many different ways. Challenge your student's thinking and manipulative skills.

Dimensions: wheel: Ø 3.8 cm

Warning Notice: 1 (page 271)

**41305V90** 200 pieces in a transparent box

### Geometric Tangram

Invented in ancient China the puzzle combines learning and fun. Basic geometric shapes help children to classify shapes and to grasp the concept of spatial relationships. Put the pieces together and form given shapes or create your own.

Dimensions: large square: 4.9 x 4.9 cm

Warning Notice: 1 (page 271)

**41320V90** 288 pieces in a sturdy box

### Counting Links

Set with 500 pieces in 4 colours

To develop math skills as sorting, counting, pattern-making, sequencing, symmetry, manipulation, measurement and estimation. For ages 3 years and up.

Dimensions (W x H): 1.7 x 4 cm

Warning Notice: 1 (page 271)

**761790V90** In plastic storage box

### Giant Counting Links

Set with 200 pieces in 4 colours

Easy to manipulate and durable. To promote eye-hand coordination, sorting, counting and colour differentiation. For ages 3 years and up.

Dimensions (W x H): 5 x 7 cm

**85050V90** In plastic storage box

### Geo Links

This set consists of:

**120 links**

3 different shapes (square, triangle and circle) in 4 different colours.

**16 work cards**

(20 x 5 cm) – printed recto-verso

Recto – printed in colour

Verso – printed in black and white with colours represented by symbols (recto is the self-correction of the verso)

**1 card**

indicating which colour is which symbol

Make the patterns of the links shown on the workcards. There are 4 different series of work cards – each with its own symbol. If you use them together, you will always have enough links! Children should start with the coloured side. Afterwards they can continue with the more difficult side. Ideal material to develop fine motor skills and think logically.

Warning Notice: 1 (page 271)

**900378V90** In plastic storage box

**Smart Pieces**

Tiles in different shapes are assembled with black connectors. An endless amount of structures and shapes can be created. This large set of tiles teaches patterning, shape & colour recognition, building and motor skills. Inspire your student's imagination and spark their interest for science, engineering and design.  
 Dimensions: square: 6.4 x 6.4 cm  
 Warning Notice: 1 (page 271)  
**41311V90** 300 pieces in a sturdy box

**Magnetic Blocks**

Encourage creativity and imagination with this challenging set of magnetic blocks. By following the designs provided, children can build simple to complex 3-dimensional designs. 24 magnetic pieces in four colours.  
**91776V90**

**Simple Puzzle**

100 pieces  
 Warning Notice: 1 (page 271)  
**41321V90**

**Tricky Fingers**

A tricky game for fingers and brain! Moving the 16 balls to get the pattern of the instruction card is fun and develops both dexterity and concentration.  
**Content:**  
 2 black game boxes, 16 balls, 14 instruction cards.  
 Warning Notices: 1, 5 (page 271)  
**85576V90**

**Triangle Puzzle**

This pyramid can be pulled apart into 4 progressively smaller pyramids and then into 15 separate shapes (from 2 x 2 cm up to 12 x 12 cm). Many different shapes can be formed by using multiple triangle puzzles – possibilities are endless. Balance, stack and build with 3-dimensional pieces.  
 Different examples enclosed.  
 Warning Notice: 1 (page 271)  
**85056V90**

# MAGNETIC TILES FOR INFINITE CREATIONS

## Mix and Match

### Magnetic Puzzle Games

Combine the magnetic tiles to beautiful butterflies, funny creatures or colourful patterns  
All Warning Notice: 1 (page 271)

**757410V90** Mix & Match Farfallas, 174 pieces plus two mini whiteboards

**757856V90** Mix & Match Mini Bots and Friends plus two mini whiteboards

**757687V90** Mix & Match Mosaico

**MAGNETIC**

## Mag-Boards

Large magnetic activity stands. Both sides are magnetic. The boards are portable and foldable for easy storage. Dimensions (W x H): 46 x 37.5 cm

**757052V90** Mag-Board with lines, backside blank

**757050V90** Mag-Board with grid, backside blank

### 100 Mosaics

(3.5 mm thick)

Warning Notice: 1 (page 271)

95150V90

### Pattern Cards Hammer and Nails

One side coloured and the other black and white.

To reproduce the patterns.

4 are real sized designs – 16 designs which are smaller and more difficult to reproduce.

2 cards (24.5 x 15.5 cm)

8 cards (12.5 x 7.5 cm)

86614V90

### Hammer

(Length: 19 cm)

Warning Notice: 10 (page 271)

35826V90

### Cork Board

Dimensions (H x W x D): 15 x 25 x 1 cm

35827V90

### Plastic Box with ca. 250 Nails

Warning Notices: 10, 43 (page 271)

35828V90

## CREATE BRIGHTLY COLOURED DESIGNS!

**BEST  
SELLER**

### Tap a Shape – Hammer and Nails

A well loved activity which allows children to develop eye-hand coordination. This set offers quantity and quality. Small handworkers create their own designs or reproduce the patterns provided.

#### Content:

- › 200 mosaics in 9 shapes and 4 colours – beech wood 3 mm thick
- › 4 wooden hammers, size 19 cm
- › 4 cork boards, size: 250 x 155 x 10 mm
- › 1 plastic box with ca. 250 nails
- › 4 pattern cards

Warning Notices: 1, 10, 43 (page 271)

35824V90 Complete set

Minimum order: € 400,-

### Sorting & Counting Pebbles

6 colours available  
 Children will be fascinated by these brightly coloured pebbles which are also smooth to the touch. The pebbles will inspire various mathematical activities: sorting, counting, patterning or sequencing.  
 Bag with 250 pieces  
 All Warning Notice: 1 (page 271)

- 850092V90** blue
- 850093V90** green
- 850094V90** red
- 850095V90** orange
- 850096V90** pink
- 850097V90** yellow
- 850287V90** purple
- 940V90** Set: all 7 colours

### Foam Blocks

Geometric forms. Create your own buildings.  
 Comes in a plastic storage bag.  
 All Warning Notice: 1 (page 271)

- 900341V90** Set of 52
- 57939V90** Set of 68

### Attribute Blocks

Ideal material to develop sorting and classification skills.  
 Provides an introduction to logic activities.  
 (Dimensions: large square: 7.5 x 7.5 cm)

**Content:**  
 60 pcs. – 5 shapes (circle, square, hexagon, rectangle, triangle) in 3 colours (blue, red, yellow), 2 sizes and 2 different thicknesses.

Warning Notice: 1 (page 271)

**50599V90**

### Extra Material

For activities with the Attribute Blocks.

**Set of 2 Playing Boards**  
 printed on both sides, size 48 x 34.5 cm  
**81945V90**

**Set of 4 Dice**  
 shape/colour/size/thickness  
 Warning Notice: 1 (page 271)  
**81944V90**

### Square Mosaic

Lay patterns and ornaments, make reflections of geometrical shapes or create pictures. 350 squares in 12 colours animate the user to work again and again with mosaic.

Set 1: 350 plastic squares (2.3 x 2.3 cm) in 12 colours  
Warning Notice: 1 (page 271)

**81959V90** 1 plastic patch panel

### Pattern Cards Square Mosaic

There are 3 kinds of exercises:

- 4 exercises with the mirror
- 4 exercises to be reproduced
- 4 exercises to be completed

**Content:** 6 cards – printed on both sides (16 x 16 cm)

**87240V90**

### Large Mosaic

This large grid mosaic puzzle board will help the children to develop their creativity while offering hours and hours of fun. They can use their own imagination or the sample images included with the game.

Exciting and educational, this game is a neat occupation for any child from the age of 3.

Dimensions (H x W x D): 7 x 25 x 25 cm

Warning Notice: 1 (page 271)

**41303V90** 100 pieces per sturdy box

### Colourful Wooden Cubes

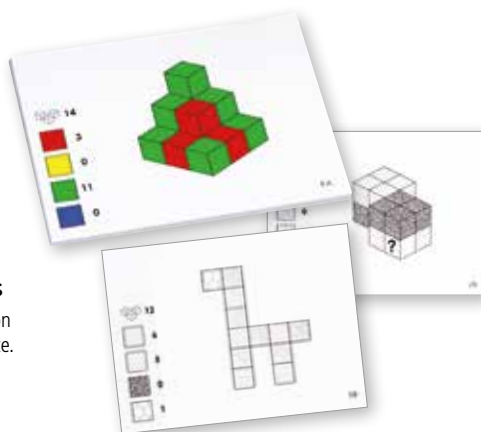

To build towers or other constructions.

Stimulates spatial awareness.

100 wooden cubes 2 cm in 6 different colours.

Warning Notice: 1 (page 271)

**85188V90** In storage box

### Work Cards for Colourful Wooden Cubes

Set of 16 cards – dimension 16 x 12 cm – printed on both sides. Recto – colour and verso black and white.

The black and white side works with a colour code.

**81941V90**

Minimum order: € 400,-

**NEW**

### Translucent Plug-in Building Blocks

Made from durable plastic. Compatible with conventional plastic building blocks. Suitable for light tables.

Size biggest part (H x W x D): 1.2 x 1.6 x 3.2 cm

Warning Notice: 1 (page 271)

**759557V90** 1000 pieces in stacking box

### Translucent Pattern Blocks

6 shapes and 6 colours, for using in pattern and sequencing activities, for counting and sorting, or for colour and shape recognition

Box size (H x W x D): 17 x 17 x 30 cm

Warning Notice: 1 (page 271)

**759541V90** 360 pieces in stacking box

### Translucent Counters, pluggable

6 different colours. Can be used for counting, sorting, pattern-making and sequencing.

Box size (H x W x D): 17 x 17 x 30 cm

Warning Notice: 1 (page 271)

**759543V90** 1000 pieces in stacking box

### Translucent Octagonal Discs

Encourages to construct abstract or symmetrical structures and to develop fine motor skills. 6 different colours.

Box size (H x W x D): 17 x 17 x 30 cm

Warning Notice: 1 (page 271)

**759539V90** 900 pieces in stacking box

### Colour Cubes

Create buildings and patterns with these brightly coloured translucent cubes. Introduce children into the creative world of building and cultivate their phantasy and perceptual skills. Children learn and improve sequencing, patterning, fine motor skills and mathematical skills.

Each set consists of 36 blocks (9 green, 9 yellow, 9 red and 9 blue) and is packed in a storage container.

Dimensions: 4 x 4 cm. Age: 24 M+

**41313V90** 36 pieces in a storage container

### Round Light Table

- › Extremely light and stable
- › The higher edge prevents sand, grains and other fine materials used to create images etc. from falling out.
- › Remote control with light change function is included. Multiple children can play at the same time.

Can be used as a nightlight

Dimensions: diameter: 50 cm, height: 12.5 cm

Warning Notice: 2 (page 271)

**760424V90**

### Farm Animals

72 pieces and 6 species. Size of a hen: 3.3 cm, in bucket  
Warning Notice: 1 (page 271)

87258V90

### Water Animals

84 pieces and 14 species. Size of a whale: 5.8 cm, in bucket

Warning Notice: 1 (page 271)

87263V90

### Vegetables

144 pieces in bucket. Size of a carrot: 6 cm  
Warning Notice: 1 (page 271)

87257V90

## COUNT, SORT & CLASSIFY

### Fruit

108 pieces in bucket. Size of a banana: 5 cm  
Warning Notices: 1, 5 (page 271)

86668V90

### Vehicles

72 pieces in bucket. 6 shapes (plane, boat, train, car, bus, helicopter) in 6 colours. Size of a train: 4 cm

Warning Notice: 1 (page 271)

900379V90 In plastic storage tub

### Large tweezers, set of 6

Ideal size for children to manipulate. Use for picking up small counters in sorting or patterning activities, to improve finger and hand strength and to develop coordination skills.

759551V90

## CONVINCING FEATURES OF BETZOLD SNAP-X

- > MADE IN GERMANY
- > WONDERFUL, SIMPLE CLICK SYSTEM
- > SUITABLE FOR INDOORS AND OUTDOORS
- > ROBUST AND DURABLE
- > SUPPORTS PHANTASY, CREATIVITY AND ESPECIALLY MOTOR SKILLS
- > USE THE PARTS TO ENLARGE AND CONVERT BUILDINGS
- > YOU CAN PLUG THE PARTS TOGETHER AND PULL THEM APART AGAIN WITHOUT MUCH EFFORT
- > MOTIVATING GAME WITH PROMPT SUCCESS

## VERSATILE, INTELLIGENT AND 100% MADE IN GERMANY

The Betzold SNAP-X construction games are amazingly versatile. Due to their simple click system, the kids will have a feeling of success in almost no time! The intelligent construction game with solid, durable parts will create a lot of fun and furthermore train motor skills and fantasy in a playful way. You can click together and enlarge all parts versatily due to the connectors. The colourful parts motivate every child to create new, imaginative buildings again and again!

## CREATE AN OWN ADVENTURE WORLD

No matter, if a knight's or a princess's castle, a church, a mall or an own house – there are no limits to the imagination of girls and boys with Betzold SNAP-X! In connection with their favourite toy figures, cars and other dolls they create their own world day after day within inspiring role plays.

## AMAZING CONSTRUCTIONS CLICK BY CLICK

You are able to build three-dimensional structures, giant constructions and also a variety of geometrical figures. Panels and connectors are put together, similar to the modern panel construction. This simple click system and the bright colours of the parts enable to create any building in no time. Furthermore the multifaceted construction toys are very interesting for your institution.

### SNAP-X

#### Starter Pack, 100 parts

The starter set for impressing results and a great gaming experience. Build castles, houses, towers, stables, garages and fantastic structures.

# MONTESSORI

## Tower

This set contains ten wooden cubes graded in size from  $1 \text{ cm}^3$  to  $10 \text{ cm}^3$ .

These cubes develop visual distinction of size in three dimensions.

Working with this material prepares the child to understand mathematical concepts in the decimal system, geometry, and volume.

Made of rubber wood.

All Warning Notice: 1 (page 271)

**50508V90** Pink tower

**50133V90** Natural colour tower

## Brown Stair

These are ten hardwood cuboids that are painted in brown lacquer. They are graded in width while the length remains constant. These cubes develop visual and muscle perception of dimension. The child will be able to understand different mathematical concepts by using this material. Dimensions: Largest block:  $10 \times 20 \times 10 \text{ cm}$

Made of rubber wood.

**50485V90**

## Mystery Bags – Geometric Shapes

A set of two cloth bags, each containing a set of small geometric solids for matching.

**Content:** 10 pairs of geometric solids

Size of bag:  $25 \times 17.5 \text{ cm}$

Size of cube:  $2.5 \text{ cm}$

Warning Notices: 1, 5 (page 271)

**85761V90**

## Geometric Solids

The geometric solids prepare a child for geometry, allows the child to compare different three-dimensional shapes, and improve concentration, coordination, independence, and problem solving skills.

The set contains a cylinder, cube, ellipsoid, cone, sphere, square-based pyramid, triangular-based pyramid, ovoid, rectangular prism and triangular prism finished in blue colour.

Height: 10 cm

Warning Notice: 7 (page 271)

85162V90

## Flat Geometric Figures with Box

The flat geometric figures allow a child to explore the geometric solids further, and learn their bases.

A box containing 12 pieces of wooden flat figures and three stands for geometric solids.

Warning Notice: 7 (page 271)

85163V90

## Colourful Cylinders

The boxes made of wood with different colourful lids contain different sets of cylinders. Each set of the cylinders disposes of a special colour: blue means: same diameter, different height; red means: same height, different diameter; yellow means: height and diameter synchronically declining; green means: height and diameter running in the opposite direction.

### Content:

The article consists of 4 boxes with different coloured lids containing 40 cylinders.

Dimensions of the box (H x W x D): 7 x 15.5 x 13 cm

Warning Notice: 1 (page 271)

85263V90

height and diameter increases

diameter increases, height remains constant

diameter remains constant, height increases

## Knobbed Cylinder Blocks (Set of 4)

This is a set of four wooden, lacquered cylinder blocks. Each block contains ten knobbed cylinders of varying dimensions.

The cylinder blocks help develop the concept of visual distinction of size.

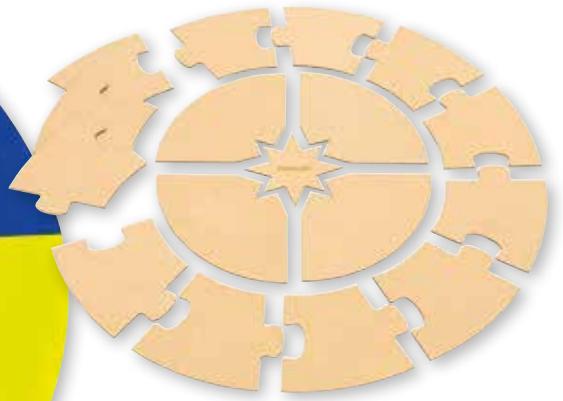

Length of each block: 42 cm

Warning Notice: 1 (page 271)

85669V90

Minimum order: € 400,-

**Annual Circle to Design Yourself**

17-part annual circle according to Montessori methods made of MDF

The quadrants around the sun represent the seasons. In the Montessori annual circle the assignment of colours is set as follows: winter (blue), spring (green), summer (yellow), autumn (red).

The 12 outer circle segments represent the months. We recommend to paint the MDF boards with acrylic.

**70812V90**

**Globe**

Montessori geography material-globe of world parts.

Comes with a wood stand.

Size: Globe diameter: 18 cm, Material: wood and metal

**85774V90** Coloured Continents

**Plain Wooden Cubes**

Dimensions box: 20 x 20 x 5 cm

Cube: 4.5 x 4.5 x 4.5 cm

**87335V90**

### Colour Tablets

The direct aim of this product is the development of the chromatic sense.

Children learn to differentiate between various colour shades with exercises based on organising and sorting the tablets (for example from "lighter" to "darker"). Wooden box contains: 63 tablets, divided into nine compartments, each containing seven gradations of pink, yellow, blue, green, orange, brown, red, purple and black

Dimensions tablets (W x H): 6.3 x 3.2 cm

Dimensions box (W x H): 32.5 x 32.5 cm

Material: plastic

**85788V90**

### Sound Boxes

This set of 6 pairs of sealed wooden cylinders in two matching boxes refines a child's auditory sense and memory, and aids the vital skill of listening concentration. Each pair of cylinders (one red and one blue) makes a different sound in a range from loud to quiet when shaken. The child has to find the matching pairs by carefully listening to the different sounds made. They can help to identify a child with hearing difficulties. A set of cylinders can also be graded from loud to quiet.

#### Content:

12 cylinders, 8.5 cm high, 2 wooden boxes (11 x 10 x 8 cm)

Warning Notice: 1 (page 271)

**50131V90**

### Tasting Bottles

This set of 4 pairs of bottles with dropper lids on a wooden stand refines a child's gustatory sense. Each pair of bottles (one with a white top and one with a black top) can be filled with the basic tastes of sweet, sour, salt and bitter. The child has to find the matching pairs by carefully tasting the different contents.

#### Content:

8 bottle s à 20 ml, 1 wooden tablett, 20 x 10 cm

**85760V90**

### Coloured Pencil Holders

11 pencil holders in 11 colours: red, blue, yellow, green, brown, black, white, pink, purple, orange and grey.

Dimensions: diameter: 4.5 cm, height: 6.5 cm

Delivery without pencils.

**51577V90**

### Blindfolds

Funny blindfolds for children.  
Material: 100% polyester

#### Blindfold Professor

Dimensions (W x H): 16 x 7.5 cm

**755867V90**

#### Blindfold Clever Fox

Dimensions (W x H): 16 x 8 cm

**755875V90**

**NEW**

**NEW**

### Small Number Rods

Two sets of ten small wooden rods divided into units by alternating colours of red and blue. The rods are constant in height and width (1 cm) while graduated in length from 2.5 cm to 25 cm. The rods are presented in a wooden box that includes one set of wooden number tiles 1-10.

Dimensions box (H x W x D): 3 x 34 x 14.5 cm

Warning Notice: 1 (page 271)

**89396V90**

### Addition Strip Board

The students practice addition exercises in number range up to 18, with the transition from tens to numbers being illustrated particularly clearly.

The geometric representation of the arithmetic problem makes it easier to solve the tasks.

#### Content:

1 calculating board (58 x 42 cm)

9 pieces red stripes: number 1 to 9

9 pieces blue stripes: number 1 to 9

Warning Notice: 1 (page 271)

**86541V90**

### Subtraction Strip Board

The striped board for subtraction offers a vivid way to practice the basic tasks in number range up to 18. In particular, the transition from one to the next is trained.

#### Content:

1 calculating board (48.3 x 35 cm)

9 pieces red stripes: number 1 to 9

9 pieces blue stripes: number 1 to 9

Warning Notice: 1 (page 271)

**86542V90**

### Spindle Box

This single tray spindle box comes with 45 spindles in a box. An excellent material used to help the child understand how numbers can be represented as separate objects. It also helps the child understand the meaning of 'zero'.

Dimensions (H x W x D): 7 x 52 x 22 cm

**50624V90**

### Red and Blue Rods

Ten rods, which vary in length from 10 cm to 1 metre by 10 cm increments. The rods are coloured blue and red, alternation of colour occurring every 10 cm.

Dimensions: 10–100 cm

**89393V90**

### Wooden Number Tablets

Showing the numbers from 1 to 10.

Dimensions (W x H): 10 x 7 cm

Made of lacquered wood

**86744V90**

**Plastic Number Cards with Box**

Wooden tray with laminated cards for the place values of 1, 10, 100 and 1000. Cards differ in length depending on their number value. Children learn to construct 4-digit numbers and understand the decimal system with ease.  
**85792V90**

**Felt Mat**

As they place the beads along the mat, children can separate, count, compare and bring beads into ranking order. Dimensions (W x H): 100 x 21,5 cm  
 Material: 100% polyester felt  
**85782V90**

**Multiple Bead Chains**

Box with compartments and lid. 60 of each coloured bead chain, 1 thru 9 and 110 bead chains of 10. Children are able to explore and visualise the multiplication tables.  
**85786V90**

**Individual Beads for Decimal System**

Wooden box with four compartments to hold a bead cube of 1000, nine bead squares of 100, nine bead bars of 10 and nine golden bead units in a wooden tray with dimples. This bead material offers an introduction to the decimal hierarchy. Children can practice the formation and place value from one to thousand.  
 Warning Notice: 42 (page 271)  
**85769V90**

**Coloured Bead Stair**

Children place the segments in numeral order and learn to associate the quantities 1 through 9. For simple addition and subtraction activities. The bead stair consists of 9 segments of wire strung with one to nine beads as well as 9 bead bars of 10 and comes in a compartmentalised wooden box.  
**85787V90**

# MONTESSORI MATERIAL

## Pythagoras Board

Wooden frame, Dimensions (W x H): 34 x 34 cm  
Framed wooden board with one hundred squares labeled 1–10 across and 1–10 down, and a wooden box containing printed wooden answer chips.

The child chooses a wooden answer chip, thinks of a multiplication equation that produces this product, and then places the chip in the correct position on the ruled board. This activity is used to reinforce concept of multiplication.

**85779V90** Pythagoras Board

Warning Notice: 1 (page 271)

**85780V90** Pythagoras Board Control Chart

## Hundred Board

Wooden frame, Dimensions (W x H): 34 x 34 cm  
Framed wooden board with 100 squares and a wooden box containing small wooden tiles labeled 1 to 100. The wooden chips are to be placed in sequence on the board.

The control chart allows for independent work and immediate corrections using the hundred board.

**85777V90** Hundred Board

Warning Notice: 1 (page 271)

**85778V90** Hundred Board Control Chart

## Multiplication Board

Dimensions (W x H): 25 x 25 cm

The multiplication bead board is used for practice with the multiplication tables 1 x 1 through 10 x 10. The box consists of the multiplication working board, a box with small plastic cards numbering 1–10, which represent the multiplicand, a red disc which marks the multiplier and a box of 100 red acrylic beads.

Warning Notice: 5 (page 271)

**85784V90**

## Division Board

Dimensions (W x H): 25 x 25 cm

The division board helps the child to learn and practice the table of division with dividends 1–81 and divisors 1–9. This set includes a wooden division board and a box containing 9 checker pins and 100 green beads.

Warning Notices: 1, 5 (page 271)

**85785V90**

# LANGUAGE

## PRE-WRITING WALL GRAPHICS

### Set of Sandpaper Numerals

Cut-outs of the numerals from 0 to 9. They teach the numerical symbol of the quantities. This is the beginning of number writing.

Sandpaper makes the process of tracing the number more interesting and more effective in absorbing the mental image of the number.

Set of 10 boards of sandpaper numerals on a strong background (16 x 13 cm)

**85762V90**

### Set of Sandpaper Shapes

Close your eyes and feel geometrical shapes. What is the difference between a rhombus and a square, between a circle and an oval?

Set of 13 boards with sandpaper shapes on a sturdy background. (16 x 13 cm), 3 triangles, 6 quadrangles, pentagon, hexagon, circle and oval

**86749V90**

### Set of Sandpaper Letters

The teaching of the sounds and letters through a multisensory approach. Children hear the sound, see its representation and feel the way how it is written with their fingers. Sandpaper letters help to develop a good pattern for handwriting.

Set of boards of sandpaper letters on a strong background (16 x 13 cm)

**85764V90** Upper Case, 29 boards

**85765V90** Lower Case, 30 boards

### Set of Sandpaper Dots

Let the children feel and count the number of dots. This way they learn to associate numbers and quantities. Use these boards together with the sandpaper numerals (85762V90). Which board of sandpaper dots corresponds to which sandpaper numeral?

Set of 10 boards of sandpaper dots on a sturdy background (16 x 13 cm)

**86739V90**

### Box for Sandpaper Letters

Comes without boards

**89394V90** Dimensions: 12 x 18.5 x 15.5 cm

### Box for Sandpaper Shapes, Dots and Numerals

Comes without boards

**89395V90** Dimensions: 6 x 18.5 x 11.5 cm

**Pre-Writing Wall Graphics**

You can place the large-format foils on all smooth surfaces, e.g. walls or cabinet doors. The rough surface awakens the children's sense of touch and invites them to feel and trace. The different patterns support those fine motor skills that are necessary for learning how to write. Made from removable film, guarantees no residues on the wall.

**In Line**

**Content:** 8 pieces  
Dimensions: 60 x 6.5 cm

**760279V90**

**In Square**

**Content:** 7 pieces  
Dimensions: 20 x 20 cm, 20 x 40 cm

**760280V90**

**MAGNETIC**

**Magnetic Grammar Symbols**

Teachers can write sentences or phrases to illustrate grammar functions and then easily symbolise them using this magnetic colour symbols first level parts of speech. The symbols have a strong magnetic backing that allows you to hold up a magnet board as you teach your lesson yet still move them easily. Students can also use the symbols for individual practice using a classroom magnet board. There are many possible uses for this set of symbols.

**ILLUSTRATE THE LAWS OF LANGUAGE**

**Basic Set**

**Content:** 20 x verb, 10 x noun, 10 x article, 10 x adjective  
Dimensions: diameter verb: 10 cm

**86984V90**

**Content:** 5 x verb, 5 x noun, 5x article, 5 x adjective, 5 x adverb, 5 x pronoun, 5 x numeral, 5 x preposition, 5 x conjunction, 5 x interjection

**88419V90**

## Kamishibai Theatre

Every great story needs a stage  
Kamishibai also known as "paper theater" is an old form of storytelling which is originated in Japan.  
With Kamishibai Story Telling you can combine oral, visual, and print communications. Kamishibai is an ideal story telling method in the classroom.

Image by image is inserted into the theater. With the Kamishibai the children learn to speak freely and to let their imagination run free.

Dimensions (H x W x D): 32 x 46 x 6.2 cm

Material: plywood

Warning Notice: 2 (page 271)

**56594V90**

## Kamishibai Bag

This bag is made especially for the Betzold Kamishibai storytelling theatre and also offers space for a selection of your favorite picture cards.

The extra compartment for the picture cards can be quickly closed with Velcro®. The bag itself has a secure zipper. The bag also offers storage space for your notes.

Dimensions (H x W x D): 34.5 x 48 x 13 cm

Material: 100% polyester

**758457V90**

**Stories with Moa**

Various scenes show picture for picture different sequences of daily life of a kindergarten or school child. They are easy to understand and can be easily recognised. The pictures can be rearranged again and again and thus resulting in new storylines. It is possible for Moa to be in kindergarten as well as in school.

A fun way to develop a child's fantasy and motivate story telling. The lovingly illustrated cards encourage exact viewing and offer numerous opportunity for language skills.

The popular cards are a valuable asset for telling a chronological story, grammar lessons or learning a foreign language.

**Content:** 92 cards (9 x 9 cm), 1 manual

Material: cardboard

**54521V90**

**Scenarios**

- › Waking up and going to bed
- › Taking a bath/shower
- › Getting dressed/undressed
- › Breakfast
- › Tooth brushing
- › Going to the bathroom
- › Play and leisure time
- › Going to school/kindergarten
- › In kindergarten
- › In school
- › Lunch
- › Household chores

**Application examples**

- › Finding the correct order
- › Storyline
- › Continue the story
- › Questions and answers
- › Grammar lessons
- › Essay practice (title, beginning, main part, end)

**Card Holder**

The full story at a glance.

This holder enables more children to look at the same cards.

Wooden card holder, ca. 35 cm

**42390V90**

**A Child's Day**

Magnetic Picture Cards

Set of 26 colourful, magnetic cards featuring children actively participating in everyday routines, activities and events. The pictures are an effective tool to help children increase their expressive language skills and vocabulary by allowing them to "talk about" experiences with which they are familiar.

Dimensions: 8 x 8 cm, whiteboard not included

**87253V90**

**Story Bar**

The teacher can use the story bar to introduce or tell a story. Alternatively, children can present their story in front of the group. After a story has been told, the characters and sets can remain on the wooden stand as a reminder. A Kamishibai fits perfectly as a background. Figures are not included

Dimensions: 1.5 x 40 x 15 cm

Material: birch multiplex board

**759658V90**

**NEW**

**Combi Card Holder, set of 5**

Made from stable plastic, two-rowed, for cards, photos, notes, etc.

Stackable, optionally combinable, easy to assemble.

**Content:** 5 card holders in chosen colour  
Measurements (H x W x D): 3.5 x 8.5 x 7.5 cm

**759921V90** blue

**759922V90** green

**759923V90** red

**759924V90** orange

**759925V90** yellow

## DEVELOP SPEAKING AND LISTENING SKILLS

**Microphone Recorder**

A perfect learning aid in classroom! This allows children to use on daily basis in classrooms. Unit provides simple operating buttons enabling recording lectures and playback directly through the built-in mike or downloads to your PC using the USB connector.

- › 128 MB Memory
- › Download via USB
- › Up to 2 hours recording time
- › Batteries are rechargeable through USB
- › USB cable
- › 3.5 mm headphone socket

Warning Notice: 1 (page 271)

**84907V90**

### Writing Boards

#### Set 1: Beginners Set

- › 6 big sheets, each 36 x 30 cm, printed on both sides
- › To stimulate eye-hand coordination
- › To develop fine motor skills
- › To develop concentration
- › For right- and left-handed children

12 beautiful designs – start by following broad lines and progress to more difficult broken lines

Age: 4+

**85555V90**

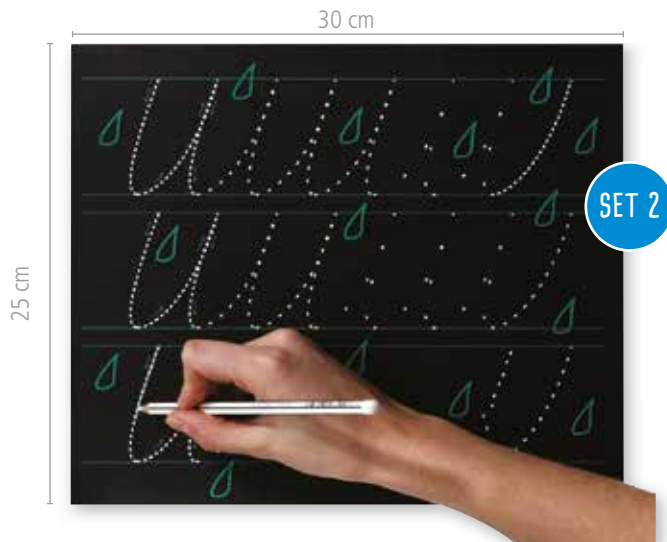

#### Set 2: Advanced Set

- › 6 sheets, each 30 x 25 cm, printed on both sides
- › To stimulate eye-hand coordination
- › To develop fine motor skills
- › To practise the movements for correct letter formation
- › To develop concentration
- › For right- and left-handed children

12 exercises with different patterns which lead to correct letter formation. Start by following the lines – progress to more difficult broken lines – finish the pathways and designs.

Age: 5+

**85556V90**

### Magnetic Drawing Board

Write with stylus, and erase with your finger.

Fine motor skills and eye-hand coordination are trained playfully and the correct posture of the pen is practiced.

Dimensions (H x W x D): 25.5 x 28 x 1.2 cm

Warning Notice: 1 (page 271)

**758161V90**

Vowels are printed in red, consonants in black.

Material: bean bags: 100% cotton, storage bag: 100% polyester

Warning Notice: 1 (page 271)

36041V90

#### Wood Letter Beads

Box with 130 wooden alphabet beads. Ideal for threading. Encourages hand-eye coordination, concentration and assists with spelling.

**Content:** 130 wooden cubes (1.5 cm) printed with

uppercases, 4 laces, 1 m

Wooden box, 21.5 x 11.5 x 4.5 cm

Warning Notices: 1, 4 (page 271)

50794V90

#### Big Cloth Letters

Exploring the ABC in a fun, multisensory way. Shape size and material invite the children to touch the letters and to hold them in their hands. The form of the letters is memorised perfectly, while dealing with this ABC. This activates optical perception and tactile area.

- › Let the children follow and trace the letters
- › Lay an alphabet-street
- › Find things in the classroom, which start for example with "M"
- › Lay short words
- › Create letters with different materials

**Content:** 26 letters, height: 25 cm

Material: 100% polyester, machine washable at 30 °C

Warning Notice: 1 (page 271)

52426V90 In storage bag

**MAGNETIC**

**Remarkable Letters**

An effective exercise in getting to know letters and how to write them. The plastic letters are writeable with dry-erase markers. Without magnets.

**Content:** 26 letters with a coated surface for convenient writing

Height: ca. 11.5 cm

Warning Notice: 1 (page 271)

**86435V90**

**Magnetic Letters with Transparent Bags**

Like our plastic letters (86435V90) but with fixed magnets on the back. This way you can attach them to the board. Arrange them and demonstrate the right way of writing. The transparent bags can be connected to the letters. Fill them with all kinds of little things or pictures corresponding to the initial.

**Content:** 26 coloured magnetic letters

Height: ca. 11.5 cm, 10 transparent bags, 14 x 14 cm

Warning Notice: 1 (page 271)

**86437V90**

**First Words**

37 magnetic pictures for the letter box

Dimensions: 2 x 2 cm

**87252V90**

**Magnetic Letter Box with Small and Capital Letters**

An appealing way to practise basic reading and writing skills. Using this box will promote the learning process. Children will love to build words, sentences and short texts.

Dimensions:

Box: 31.5 x 22.5 cm (closed)

Letter tiles: height: 2 cm

**Content:**

- › Steel box with imprinted sorting field and 8 line systems.
- › 213 yellow magnetic tiles (height 2 cm) with small and capital letters and some blank spaces

**86937V90**

**MAGNETIC LETTER BOX**

## Mental Maths – Magic Cards

Children will become a math sorcerer's apprentice using these magic cards. They solve problems and write down their results. Testing each other is fun and motivates little "math magicians". The cards are printed with tasks in black and results in red ink. Covered with the red filter card the results magically disappear. Self-correction is possible by simply removing the red filter card.

24 cards (double-sided)  
2 red filter cards  
in a transparent box

### Plastic with that 'Certain Something'

Our Betzold treeNside material trays are filled with nature – you can see and even smell it! Test it out! They are produced in our own manufacture. We use organic plastic granulate made from wood fibres for their production. The materials are biobased. The robust treeNside material trays can be used in

schools, kindergartens, in the office or at home. They are made for organising, storing and sorting or as a container for liquids, such as flourishing water or paste. We recommend the cleaning by hand with water and detergent.

All Warning Notice: 5 (page 271)

**86700V90**

**85917V90** 50 Replacement Beads

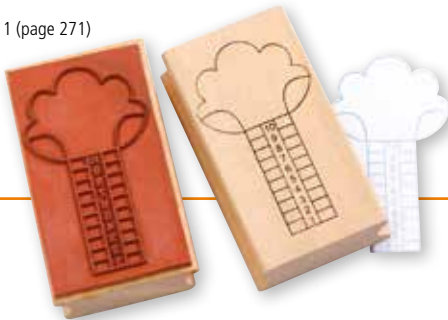

## Shake the Tree – Stamp

A great complementation to the trees: stamp in your exercise book, shake the tree and draw the visible beads in one column. How many beads are missing? Draw them in the other column.

Size: 6.8 cm

Warning Notice: 1 (page 271)

**40384V90**

## Peg Number Boards with Blue and Red Sticks

By fitting the pegs into the board kids learn to associate a figure with an adequate number. First adding, subtractions and explements can be visualised.

Set with 10 boards, 55 red and 55 blue pegs

Warning Notices: 1, 2 (page 271)

**85524V90**

Minimum order: € 400,-

**Math's Balance Demo**

Dimensions (W x H): 65.5 x 22 cm  
 You can hang 20 weights on the pegs along the balance.

- The balance can be adjusted.
- Includes 20 x 10 g weights.
- > To study simple additions, subtractions, missing numbers ...
- > To study multiplications and divisions.
- > To learn the concept of balance and levels.

When the balance scale is in balance, the answer is correct!

Warning Notice: 1 (page 271)

**2467V90**

**Student Math's Balance**

33 cm wide, 11 cm high  
 You have the possibility to provide a balance scale for every child in your group.

Warning Notice: 1 (page 271)

**2280V90**

**Monkey Math**

Monkey Math makes addition fun! Just hang an equal number of bananas on each of the monkey's hands. If you have done your addition correctly, the monkey will look straight ahead and his arms will be balanced perfectly. If the numbers are not equal, his eyes will be crossed and his arms will be up and down.

Height: 18 cm

Warning Notice: 1 (page 271)

**50698V90**

# GREATER-LESS-MONSTER

**MAGNETIC**

**Greater-Less-Monster**

Math can be fun. This little monster is really hungry and likes to eat numbers. If it has the choice it prefers the greater one. If the numbers are equal it can't decide. The greater, less and equal signs in red are already included in the monster.

So it is easy for the children to understand the symbols.

The set consists of 4 greater-less-monsters, printed on both sides, ca. 14.5 x 16 cm  
 2 equal-monsters, printed on one side, ca. 15 x 16 cm  
 2 big cakes, ca. 7 x 8 cm  
 2 small cakes, ca. 4 x 4.5 cm  
 Made out of magnetic foil

**88462V90**

**Set of 20 trays  
incl. 200 reversible counter tiles**

Durable tray with raised edges keeps each counter in place. Double-sided 2-colour counters support visual learning of number bonds.  
Tray size (W x H) 6.6 x 16.5 cm, diameter tiles: 2.5 cm  
Warning Notice: 42 (page 271)

**759554V90**

**1, 2, 3 ... Whee! Magnetic Counting Box**

with numbers, arithmetic operators and bicoloured counters.  
An appealing way to practise basic calculating skills.  
Using counters and numbers children will gain more and more sureness while doing number work.

**Content:**

1 steel box with sorting field, 2 counter fields for exercises in the number range of twenty, 1 calculating field.  
39 magnetic counters, Ø 2 cm  
92 yellow magnetic tiles with numbers and operators (4x numbers from 0 to 9, 2x numbers from 10 to 20, always 6 operators +, -, =, <, >)  
16 blank magnetic tiles

**86936V90**

1, 2, 3 ...  
WHEE!

SET 1

SET 2

SELLER**

**Work Cards for the Counting Box**

To learn and practice counting to 20. 2 different sets with each 6 cards (31 x 8 cm) printed on both sides

**Set 1:**  
12 exercises per card (72 exercises in total)  
2 cards + (addition)  
2 cards - (subtraction)  
2 cards <, > (more or less)

**87231V90**

**Set 2:**  
18 exercises per card (108 exercises in total)  
3 cards + (addition)  
3 cards - (subtraction)

**87232V90**

$$14 + 3 =$$

### Arithmetic Train – Magnetic Board Material

With 20 reversible tiles in blue/red that represent the passengers. Each wagon offers space for 10 tiles.

**Content:**  
1 locomotive, 2 wagons, 20 reversible tiles, 1 handout  
**760718V90**

### Wooden Arithmetic Train 20

2 wagons with space for 10 passengers each. Gives children a clear impression of the number range up to 20.

**Content:**  
locomotive, 2 wagons, 10 red passengers, 10 blue passengers  
Size (H x W x D): 7.5 x 35.5 x 5.5 cm  
Warning Notice: 1 (page 271)

**759883V90**

### Wooden Arithmetic Train 100

**Content:**  
locomotive, 10 wagons, 50 red passengers, 50 blue passengers

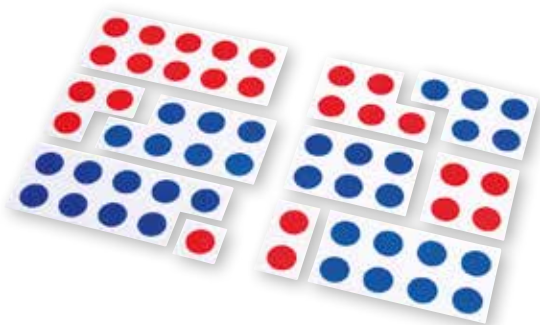

Size (H x W x D): 7.5 x 141 x 5.5 cm  
Warning Notice: 1 (page 271)

**759884V90**

**NEW**

### Dot Cards

These dot cards illustrate numbers from 1 to 10, and are therefore useful devices for developing number sense within the context of 10. They enable children to automatically think of numbers less than 10 in terms of their relationship to 10 and to build a well-grounded knowledge of the basic addition/subtraction facts for 10 which are an important part of calculation. The dot cards are printed on both sides – one side with blue dots, the other side with red dots.

#### Dot Cards Demo, magnetic for demonstration

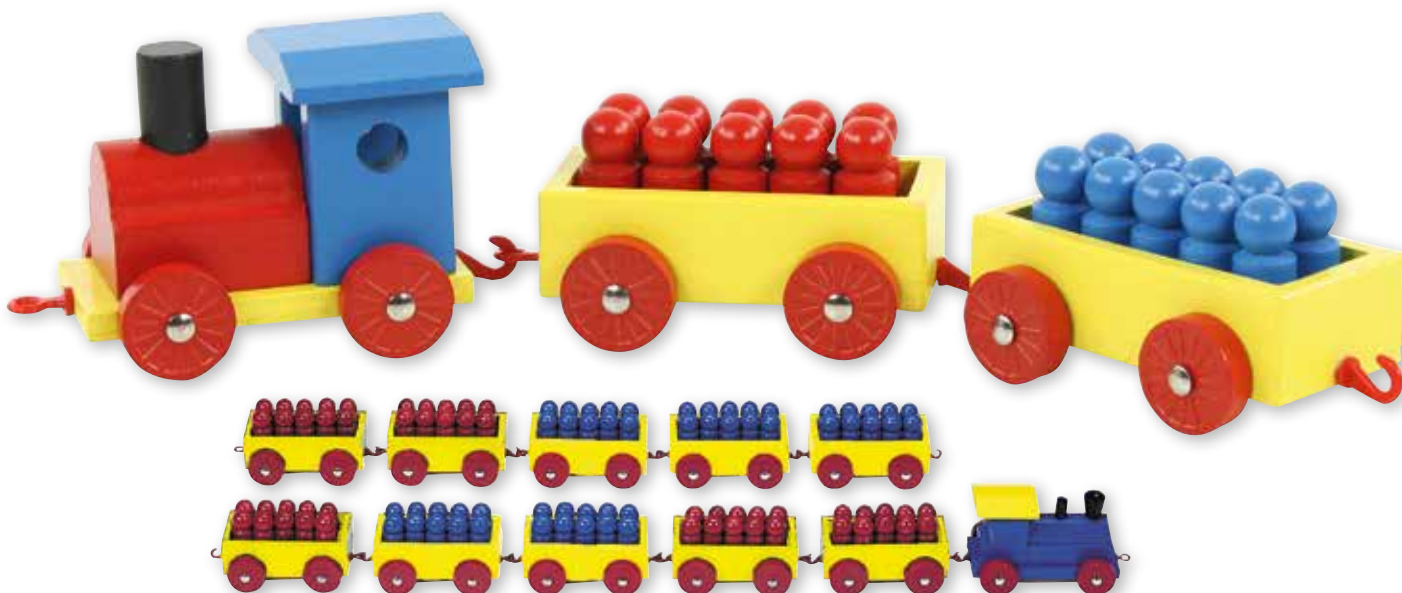

Size: max. 27 cm

**85958V90** Set of 12 pieces

#### Student Dot Cards, made of sturdy plastic

Size: max. 14.5 cm

**85957V90** Set of 12 pieces

### Counting Trains

In each carriage (12 cm) you find 10 passengers (4.5 cm high). The passengers from both carriages have a different colour.

The children learn counting operations by practising (e.g.: getting in and out of the train).

Suitable for each method!

### Counting Train to 20

**Content:** 1 locomotive, 2 carriages, 20 men (10 red, 10 blue) red/blue

Warning Notice: 1 (page 271)

**1363V90**

### Counting Train to 100

For all counting operations to 100

**Content:** 1 locomotive, 10 carriages, 100 men (50 red, 50 blue) red/blue

Warning Notice: 1 (page 271)

**1364V90**

### Train Stamper

To stamp 1 or more carriages. Children colour the circles and count that way.

Dimensions (H x W x D): 2.2 x 6.5 x 3.5 cm

Warning Notice: 1 (page 271)

**88260V90**

### Worksheets for the Counting Train

These funny exercises go together with the counting train.

For counting to 10 and to 20 – different exercises:

- > sorting, addition & subtraction
- > colour exercises to develop fine motor skills.

Children can use the train while trying to find the solutions – i.e. from concrete to abstract.

32 copy work sheets

**85378V90** French version

**MAGNETIC**

### Partitioning Numbers – Magnetic Materials

Illustrate the relation between and partitioning of numbers in a different way. Simply change the amount of double-sided magnetic counters used in each circle. Use the blue circle to demonstrate whole numbers and show their components inside the red circles. Magnetic material can be arranged in various directions, giving you the freedom to clearly display the concepts of subtraction and addition.

- › 3 magnetic circles (2 red, 1 blue)
- › 6 connecting lines (black)
- › 33 magnetic counters (double-sided)

**70851V90**

## BRING HANDS-ON-LEARNING INTO THE CLASSROOM

### Numeracy Board for Counters

Use the counters together with our boards. Always having the number space (up to 20) visible, the children will gain basic calculating skills easily.

The boards are made of solid plastics, 1 mm strong and 30 cm long. On the one side are circles with numbers, on the other side are blank circles. The diameter of the circles is the same as the size of the counters.

Examples of use:

- › Passing 10
- › Addition
- › Subtraction
- › Even and odd numbers
- › Cover numbers and search for them
- › Number series

**85969V90** Set of 10

### Class Pack with 400 Counters

Ø 25 mm, red/blue

Warning Notice: 1 (page 271)

**1669V90** In plastic box

### Peg Number Panel, to 20

10 red and 10 blue pegs for calculations up to 20.

Panel: 1.2 x 25 x 6 cm, 20 pegs (height: 2.5 cm)

Warning Notices: 1, 2 (page 271)

**760650V90**

### Peg Board up to 100

50 red and 50 blue for counting and calculating up to 100.

Panel 25 x 25 cm, 100 pegs (height: 2.5 cm)

Warning Notices: 1, 2 (page 271)

**760651V90**

### Magnetic Demo Board for Counters

This set consists of:  
 4 boards with 5 blank circles (each 30 x 8 cm)  
 1 board with circles 1–10 (60 x 8 cm)  
 1 board with circles 11–20 (60 x 8 cm)

Made of plastic foil  
 While the blank boards have 5 circles, they can be used as demo for the 'Counting Train'. (See page 81)

85738V90

### Magnetic Demo Set

**Content:**  
 Magnetic Demo Board (85738V90)  
 20 magnetic counters (81930V90)  
 20 magnetic rings (86234V90)  
 87031V90

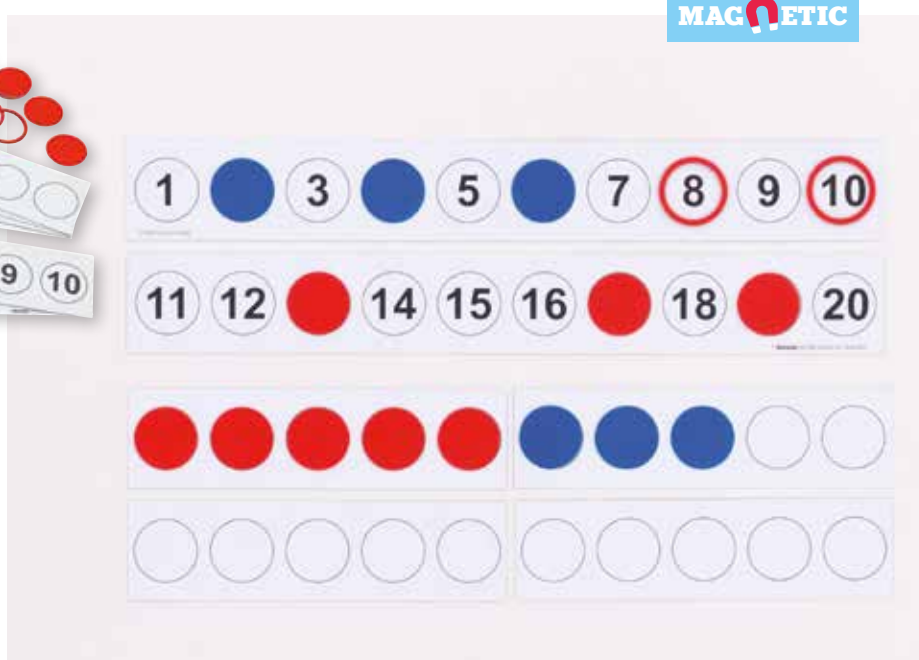

### Magnetic Demo Set

Stripes and counters are both made of magnetic foil. So it is very easy to fix the stripes on the board.

**Content:**  
 4 boards with 5 blank circles (each 30 x 8 cm)  
 1 board with circles 1–10 (60 x 8 cm)  
 1 board with circles 11–20 (60 x 8 cm)  
 As the blank boards have 5 circles, they can be used as demo for the 'Counting Train'. (See page 81)

41049V90

### Sorting Tray with 100 Counters

85062V90 Ø 5 cm, red/blue

### Sorting Tray with 100 Counters & Signs

1756V90 Ø 5 cm, red/blue with 20 counting signs

Set of 20 Bicoloured Magnetic Rings, 5.5 cm Ø, red/blue  
 81930V90

Set of 20 Bicoloured Magnetic Counters, 5 cm Ø, red/blue  
 86234V90

Minimum order: € 400,-

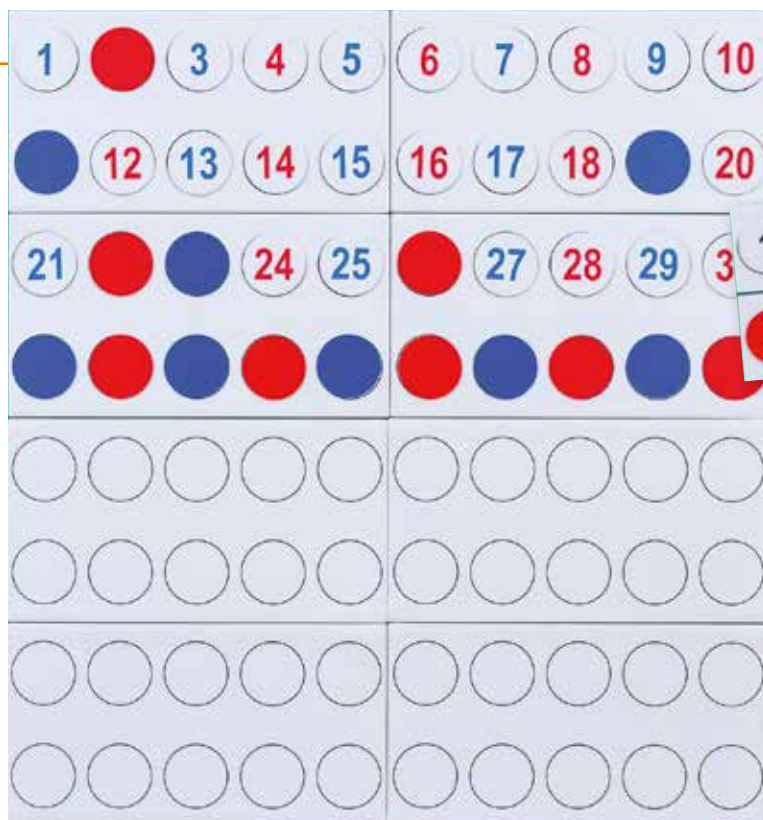

**Basics Board with Colourful Tags**

A new way to experience the times table. Each series has its own colour, related series are similarly coloured (5 and 10 – green; 2, 4 and 8 – red; 3, 6 and 9 – yellow). To show problems of one series and to set them in relation to other series.

Board (71 x 71 cm), aluminium frame with rounded angles. Multipliers and a grid are printed on the board.

Assortment box with 100 colourful double-printed tags showing problems and solutions.

**86940V90**

**Number Range 100 – magnetic material for the blackboard**

The magnetic stripes with 5 or 10 empty fields allow the composition of a field up to 100 in different manners. The stripes can be fixed in 4 field sections with 25 circles each (Oehl) or in 10 sections with 10 circles each (Kuehnel) on the blackboard. For working with smaller number ranges it is possible to use only a part of the magnetic stripes. Computing operations in the non-numerical area can be shown with the blue and red magnetic circles.

Some magnetic circles are printed with blue and red numbers, multiplication table numbers and arithmetic operators for the computation with numbers. By means of this set it is possible to learn and to practice computing operations in the number range 0–100.

**Content:**

- › 8 magnetic stripes with 10 circles each
- › 4 magnetic stripes with 5 circles each
- › 100 turning pads with black numbers 0–100
- › 100 red turning pads with white numbers 1–100
- › 50 red turning pads
- › 50 blue turning pads
- › 100 red numbers 1–100
- › 100 blue numbers 1–100
- › 28 arithmetic operators (+ - \* : = <)

**755804V90**

**MAGNETIC**

**Magnetic Number Line 0–20**

With magnetic symbols, counters, rings and counter boards

Attach some funny symbols. What numbers are missing? The bicoloured counters, counter boards and rings are very useful for covering and marking numbers. Turn them over and change red dots or rings into blue ones. They assist you to make calculations visible and to find solutions.

**Content:**

- 1 magnetic number line, 165 cm long
- 22 magnetic turn-over counters (Ø 5 cm)
- 22 magnetic turn-over rings (Ø 5.5 cm)
- 4 magnetic turn-over counter boards
- 10 magnetic symbols.

Comes with screws and dowels.

**87348V90**

**Bead Strings**

Up to 20, every 5 beads a colour change

**20 Beads – Individual Bead, Ø 1.1 cm**

**85117V90** red/white

**85118V90** red/blue

**20 Beads – Demo Bead, Ø 2.3 cm**

**85119V90** red/white

**85120V90** red/blue

**Bead Strings**

Up to 100, every 10 beads a colour change

**100 Beads – Individual Bead, Ø 1.1 cm**

**85121V90** red/white

**85122V90** red/blue

**100 Beads – Demo Bead, Ø 2.3 cm**

**2014V90** red/white

**2015V90** red/blue

**BEST SELLER**

**Number Line to 20**

- › Wipeable surface suitable for water based markers
- › Magnetic – can be fixed securely onto any metallic surface
- › Overall length 100 x 11 cm wide
- › Made of thin rigid plastic
- › 20 sections – alternate 5 red & 5 white
- › To introduce numbers for demonstrating operations to 20
- › Marker enclosed

**85010V90**

**BEST SELLER**

**Small Counting Frame up to 20**

Dimensions (H x W x D): 6 x 23.3 x 2.9 cm, plastic beads, diameter: 11 mm, wooden frame.

**85034V90** 2 rows, red/blue

**85035V90** 2 rows, red/white

**Individual Counting Frame up to 20**

Wooden frame, triangular sides, very stable  
Length: 24 cm, plastic beads Ø 1.1 cm, wooden frame

**85036V90** 2 rows red/blue

**85037V90** 2 rows red/white

APPLICATION EXAMPLE:

< NEUTRAL POSITIONING

COMPARE AMOUNTS >

< NUMBER RANGE CROSSING

**Duplix 20**

A calculating device for numbers up to 20 that is not confined to colour groups of fives or tens. Children change the colours from blue to red or vice versa by spinning the elements or positioning them into neutral. Colour, amount and positioning of the calculating elements are defined only by didactic and methodical intentions. All elements can be shifted to the right or left. The rods are long enough, that the space in the middle is sufficient.

Dimensions (H x W x D): 6 x 27 x 2 cm

Made of stable plastic

**78102V90**

### Magnetic Hundred Board

Large 10 x 10 grid board on which 100 magnetic number tiles can be placed. The tiles are reversible; each has the same number front and back, in different colours, so that patterns can be easily displayed. Very versatile piece of equipment for class calculations.

#### Content:

board with grid (60 x 60 cm), aluminium frame with rounded angles, 100 bicoloured magnetic number tiles, 5 x 5 cm, in a sturdy box

85160V90

### Tray with 100 Magnetic Number Tiles

5 x 5 cm

89378V90

### Symbol Stamps

Children use the stamps for showing amounts or creating calculating riddles.

The stamps have the same illustrations as the magnetic counting symbols.

Set of 9 stamps, stamp size: 1.5 cm

Warning Notice: 1 (page 271)

88475V90 Set of 9

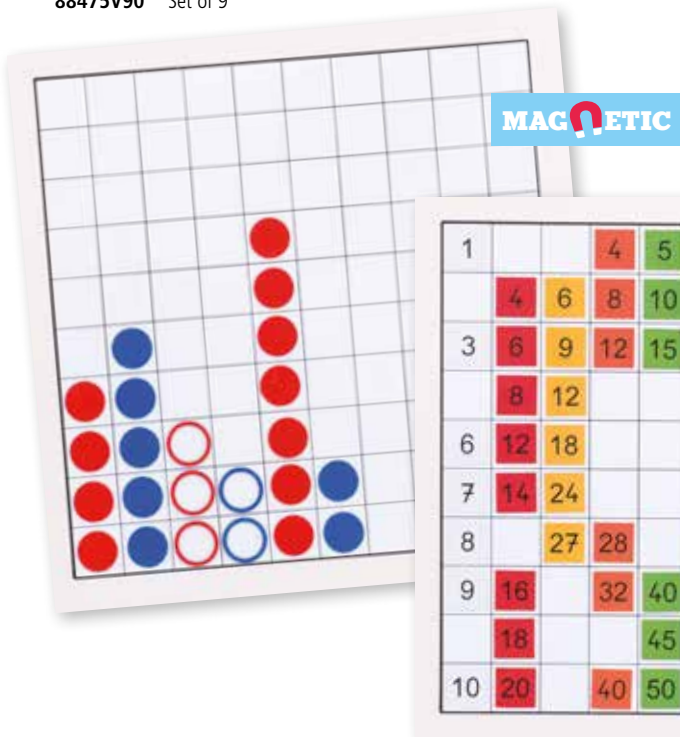

MAGNETIC

### Storage Box for 100 Units

This box can contain 100 units in cubes or in rods. Makes it easier to go from units to tens and from tens to hundred.

747V90 Empty box

MAGNETIC

### Hundred Grid

Magnetic for white and blackboards. Can be used in many different ways.

Dimensions: 60 x 60 cm

Material: magnet foil

Comes without counters and number plates.

38 MAGNETS

# MAGNETIC NUMBER LINE 0-100

With arithmetic arrows and magnets for marking, 3 m long  
 Make calculations visible and show the way how to find solutions. The arithmetic arrows are printed on both sides of magnetic bands. One side with red arrows for subtractions, the other side with black arrows for additions.  
 Use whiteboard markers to write directly on the number line.

- Content:**
- 1 magnetic number line
  - 3 metres long
  - 39 magnetic arrows printed on both sides
  - 38 magnets for marking (30 with Ø 2 cm, 8 with Ø 3 cm)

Screws and dowels included  
**86889V90**

39 MAGNETIC ARROWS

**MAGNETIC**

## Magnetic Number Line 0-1000

With arithmetic arrows, magnets and writeable tags for marking and orientation  
 Discover the number range up to thousand and make calculations and ways of solutions visible. The arithmetic arrows are printed on both sides of magnetic boards: One side with red arrows for subtractions, the other side with black arrows for additions. Use whiteboard marker to write on the tags or directly on the number line.  
 1 magnetic number line, 3 metres long, 30 magnetic arrows printed on both sides, 38 magnets for marking (30 with Ø 2 cm, 8 with Ø 3 cm), 8 magnetic tags for marking.  
 Comes with screws and dowels.  
**87370V90**

### Individual Counting Frame to 100

- › dimensions: 26 x 17 cm
- › plastic beads Ø 1.1 cm
- › beech-wooden frame
- › 10 bars from stainless steel
- › when the beads are moved from left to right, there is a free space in the middle

- 85144V90** 5 rows red/blue & 5 rows blue/red
- 85145V90** 5 rows red/white & 5 rows white/red
- 85105V90** 10 rows red/white

### "Count and See" – Counting Frame with 100 Cubes

Slide rule with number cubes up to 100. Cubes can be turned and shifted to rearrange the number sequence, the wooden rods are removable. Each cube has two red and two blue surfaces, a number is printed on one side, the other side is blank. Ideal for demonstrating number patterns, partitioning numbers, addition and subtraction tasks and practicing different mathematical concepts. The frame is wide enough, that plenty of space is left in the middle when the cubes are shifted to the left or right. The counting frame can be stationed on a table or fixed to a blackboard (cant hooks included). Dimensions (W x H): 87 x 77 cm, solid wooden frame

**5449V90**

### Flip Book

With these flip books children can show the result of their calculations. The register helps the children to find the numbers more quickly. The cards are sturdy and laminated.

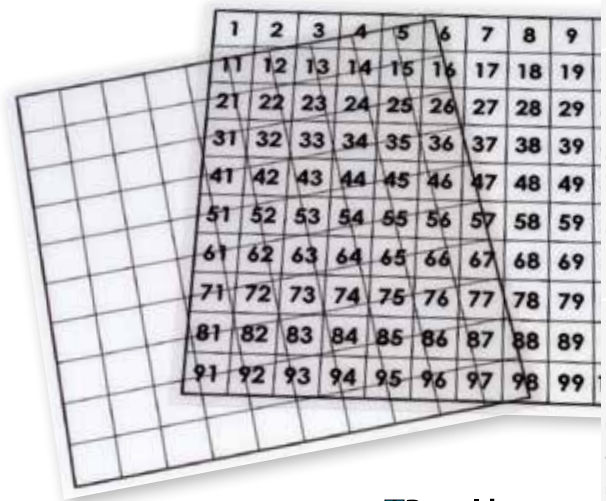

Dimensions (W x H): 22 x 13 cm

**9876V90**

### Hundred Board with Hundred Grids

Set of 5 boards  
1 x with numbers  
4 x grid only

**760461V90**

Minimum order: € 400,-

**MAGNETIC**

**Number Board up to 100, with marking signs**

This board shows the space up to 100 at a glance. Mark several numbers with magnetic rings, or cover them with magnetic dots to show various mathematic principles in structures, orders and relations. Discover geometric patterns, find previous and following numbers or conduct calculations in an amusing way.

**Content:**  
board with numbers (60 x 60 cm), aluminium frame with rounded angles, 20 bicoloured magnetic rings, 20 bicoloured magnetic counters

- 86145V90**
- 81930V90** Set of 20 Bicoloured Magnetic Rings
- 86234V90** Set of 20 Bicoloured Magnetic Counters

**Hundred Board**

Dimensions: 31 x 33 cm, printed on both sides.  
On one side: 1–100 square  
On the other side: blank grid  
Wipeable surface suitable for water based markers. Can be used with transparent counters or with bicoloured counters (see above).

**8424V90**

**Rod Track**

100 cm ruler with 1-cm-channels for 1 cm cubes or cuisenaire rods. It is very useful in number recognition, counting and math activities. The ruler has one channel on one side and two on the other. Cubes are not included

**756606V90**

**Cuisenaire Rods**

Colourful wooden blocks ranging from 1 cm to 10 cm lengths. They're great for creating patterns, counting, sorting, measuring, adding, multiplying, and all sorts of other fun explorations. Also very useful in combination with the Rod Track (see above)

**Cuisenaire Rods, small set**

**Content:** 74 pieces  
Warning Notice: 1 (page 271)  
**85823V90** In polybag

**Cuisenaire Rods, large set**

**Content:** 300 pieces  
Warning Notice: 1 (page 271)  
**756641V90** In wooden box with transparent lid

# WALL NUMBER LINES

These large wall number lines are printed in one piece and are made of thin rigid plastic. Pegs and hooks are included.  
10 red and 10 blue pegs to indicate numbers included.

## Number Line 0–20

2 metres long  
7783V90

## Number Line 0–100

3 metres long  
7784V90

## Number Line 0–1000

5 metres long  
7861V90

## Number Line 0–10 000

10 metres long  
7862V90

## Number Line 0–100 000

5 metres long  
7882V90

## Student Number Lines

Made of thin rigid plastic. Same printing as the wall number lines. 10 red and 10 blue pegs included.

### Number Line 0–100, 1 metre long

81902V90 In storage tub

### Number Line 0–1000, 1 metre long

81903V90 In storage tub

## Number Line to 100

- › Wipeable surface suitable for water based markers
- › Magnetic – can be fixed securely onto any metallic surface
- › Overall length 200 cm x 11 cm wide
- › Made of thin rigid plastic – 2 pieces
- › 100 sections – alternate 10 red & 10 white
- › Marker enclosed

85019V90

MACNETIC

**Magnetic Number Cards 1–9000**

Large cards in 4 colours with the numbers 1 to 9000. The numbers 1 to 9 are written in red, the numbers 10 to 90 in yellow, 100 to 900 in green and 1000 to 9000 in blue. You can use these cards to “build” any number ranging from 1 to 9999. (The colours of this set are the same as the colours of 85381V90, 86528V90, 85150V90, 81940V90)

- 86997V90** Without tray
- 87937V90** In tray

**Plastic Base, Set of 10**

Teach numerical value, place value, equivalent value, and rounding.

The set includes: 100 cubes, 10 rods, 10 flats, 1 cube

The colours of the set are the same as the colours of the magnetic base, Set of 10  
Warning Notice: 1 (page 271)

**81940V90**

**Pupil's Place Value Cards**

40 plastic cards, width max. 15 cm  
**82328V90**

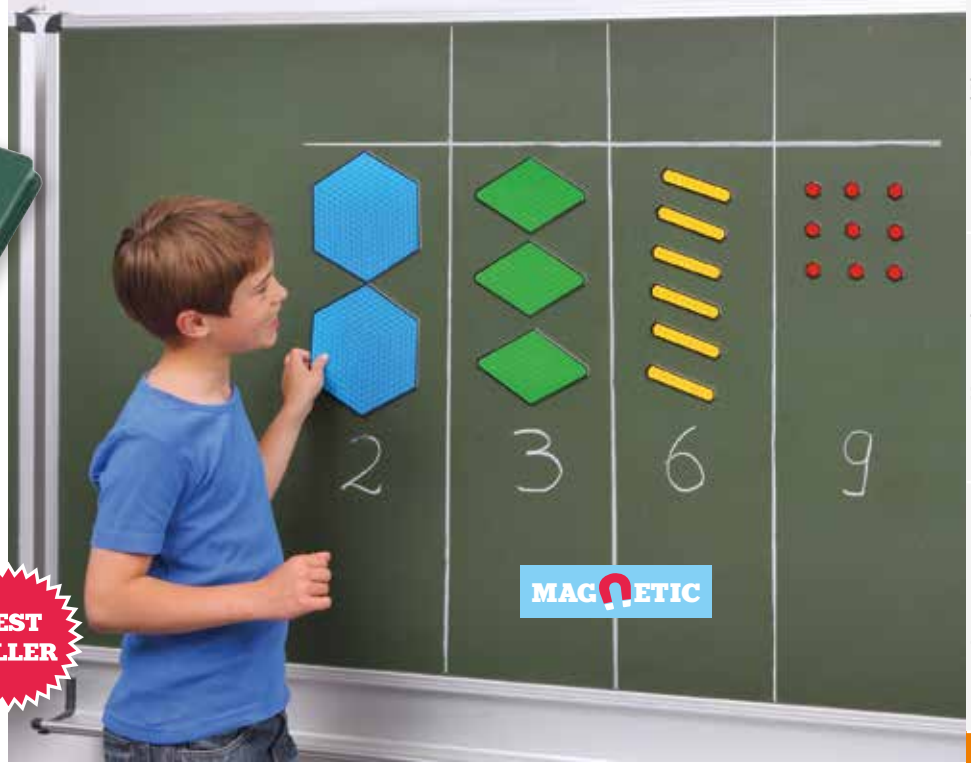

### Magnetic 3D Base 10 Set

To easily understand the decimal system. This demonstration set offers the possibility to work with the whole class. Produced in a 3-dimensional way and in different colours.

**Content:**

- 25 units
- 12 tens (10 + 2 extra)
- 12 hundreds (10 + 2 extra)
- 5 thousands

- 85381V90** Without tray
- 87992V90** In tray

### Base 10 Class Set

To obtain a greater understanding of our number system while adding and subtracting. The relation between units, tens, hundreds and thousands will be easily understood. The colours of this set are the same as the colours of the magnetic 3-D base 10 set (see above). This way the children go from very concrete material to more abstract.

**Content:**

- 100 red units, 50 yellow tens, 30 green hundreds, 4 blue thousands

Warning Notice: 1 (page 271)

**86528V90**

### Pupil's Place Value Cards

40 cards, made of sturdy carton, width up to 9 cm  
**87646V90**

### Magnetic Place Value Sheet

An understandable way to see how the decade system works. Place the marking frames and give a sight of numbers and their digits. The colours of the 4 rows are in line with our range of Base 10 materials.

**Content:**

- 1 magnetic place value sheet (63 x 28 cm)
- 8 marking frames

**87293V90**

# DECIMAL FLIPS

## Place Value Dice

2 sets of 4 ten-sided jumbo dice for place value activities and games. The red dice indicates units, the yellow is for tens, the green is for hundreds and the blue is for the thousands. Same colour-coding as the sets above.

Warning Notice: 1 (page 271)

**85150V90** Set of 8 dice

## Place Value Dice up to 9 Million

Set of 6 ten-sided jumbo dice: 2 for 10,000, 2 for 100,000 and 2 for 1,000,000  
Warning Notice: 1 (page 271)

**87732V90**

## Decimal Flips

Students get an insight in the decadic system and the correct diction of numbers in the value system with the Betzold Decimal-Flip. The field of application is huge: the children can solve exercises of addition, subtraction or multiplication, control their written exercises or present their computing result.

The flip cards are printed with the numbers 0–9 for each value. Therefore, each value has an own colour. There are multiple possibilities of exercises and playing using the coloured value dice and the flip. The flip is made from stable carton and can be interfolded and packed into the schoolbag.

### Decimal Flip Student

Dimensions (W x H): 18 x 9 cm

**756589V90**

### Decimal Flip Teacher

Dimensions (W x H): 35 x 19.5 cm

**756590V90**

## Interlocking Base 10

- › These separate elements show very clearly how they relate to each other and how the relation is between a unit and a ten ...
- › Each element has a decimal mark.
- › Interlocking elements enable children to make tens using units, hundreds using tens ...

### Content:

- 100 cubes (1 cm<sup>3</sup>) (units)
  - 10 rods (tens)
  - 10 flats (hundreds)
  - 1 cube (1 dm<sup>3</sup>) (thousand)
- All Warning Notice: 1 (page 271)

**1424V90** In plastic bag

**2977V90** Set in a plastic box with lid

## Base 10 Stamps

Content: 4 stamps  
Dimensions: 3.5 x 3.8 x 2 cm (cube-stamp)  
Warning Notice: 1 (page 271)

**86919V90**

## Demonstration Board

To demonstrate different counting operations very clearly.

Principles of the decimal system are visualised. Surface can be written on with dry-erase markers. Printed on plastic.

### Version 1: Black and White with Symbols

Dimensions (W x H): 58 x 40 cm

**85066V90**

### Version 2: Four Colours with Numbers

Dimensions (W x H): 48 x 33 cm

**Counting Cards**

A number is presented in 5 different ways. Try to find the 5 representations. If you have found them, turn around the 5 cards and check if all the cards display the same sign. Each set consists of 28 exercises (140 cards), stored in a 'Learn-Box'.

**86616V90** Counting Cards to 100**86621V90** Counting Cards to 1,000

MAGNETIC

### Magnetic Fraction Bars

Colourful strips for demonstrations on the board. Each fraction has its own colour and can be used to make a whole.

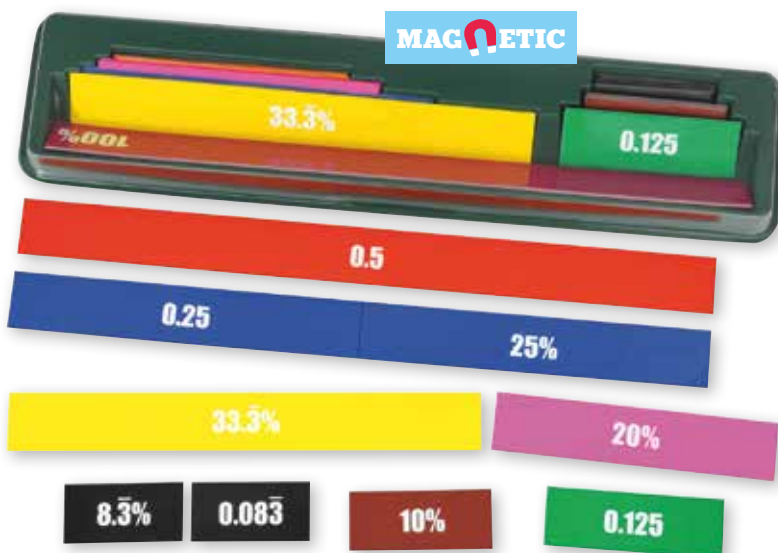

**Content:** 1/1, 1/2, 1/3, 1/4, 1/5, 1/6, 1/8, 1/10, 1/12  
**Specifications:**  
 1/1 = 100 x 10 cm, the one metre strip can be folded  
 overall view: 100 cm width, 9 cm height  
**86478V90**

### Magnetic Fraction Strips

Half width version. Same set as shown above but 4.25 cm width.

**87167V90** In tray  
**86938V90** In carton box

### Magnetic Decimal and Percentage Strips

The strips are printed on both sides. They show decimals on one side and percentage equivalents on the other. Size: 1/1 = 100 x 4.25 cm

**87510V90** In tray  
**87300V90** In carton box

**BEST  
SELLER**

**MAGNETIC**

**Magnetic Fraction Circles**

The set includes 9 circles divided into 1/2, 1/3, 1/4, 1/5, 1/6, 1/8, 1/10, 1/12 and 1/1 in a sturdy sorting tray. diameter 1/1: 20 cm

**86897V90** In sorting tray

**86623V90** Sorting tray (empty)

**Round Fraction Set**

51 pieces

A practical way of understanding fractions. Ideal material to work independently. Easy to manipulate.

A set contains 1/1, 1/2, 1/3, 1/4, 1/5, 1/6, 1/8, 1/10, 1/12.

Pieces are 3 mm thick. The fraction is impressed in the plastic. Each circle measures 10 cm.

**85522V90** In plastic box with lid

**FRACTIONS, PERCENTAGES  
AND DECIMALS**

**MAGNETIC**

**Magnetic Decimal and Percentage Circles**

The circles are printed on both sides. They show decimals on the one side and percentage equivalents on the other. Size: 1/1 = 20 cm

**87511V90** In tray

**87301V90** In carton box

Minimum order: € 400,-

### Demonstration Set – One Million

This demonstration set “One Million” visualises the number with the 6 zeros. The students will easily comprehend the quantity as the one million single cubes are structured and divided into thousands, ten thousands, hundred thousands and one million. These steps of structuring can be made visible due to the new magnetic black board material.

#### Content:

1 cube of one, 1 bar of ten, 1 cube of hundred, 1 cube of one thousand, 1 bar of ten thousand, 1 bar of one hundred thousand, 1 cube of one million

**757610V90**

### Decimal Flip Millions

Students are able to represent numbers in the sector one million with the Betzold Decimal-Flip One Million. Cards are printed with the number of 0–9 for each value – each position has a different colour. The flip offers many exercise- and playing possibilities in connection with the coloured value dice.

Dimensions (W x H): 32.5 x 9 cm

**756588V90**

### Decimal Flip

Displays hundred thousands, ten thousands, thousands, hundreds, tens and units. Handy colour coding.

Dimensions (H x W x D): 9 x 26.5 x 6.5 cm

**755530V90**

### Pupil's Fraction Strips

Colours, fractions and quantity of the strips are the same as the magnetic demonstration version (86478V90). Pupils can work effectively with this material. Due to the frame a shifting of the single parts is impossible.

#### Content:

1/1, 1/2, 1/3, 1/4, 1/5, 1/6, 1/8, 1/10, 1/12  
Frame size: 24 x 24 cm

86438V90

### Fractions and Geometry Set

#### Content:

- › 1 board (20.5 x 20.5 cm)
- › fraction segments (1, 1/2, 1/3, 1/4, 1/5, 1/6, 1/8, 1/10, 1/12, 1/24)
- › 2 packs of rubber bands

One side of the base board has a circular recess (Ø 10 cm) to put in the fraction segments and pins for the rubber bands. The fractions and the degrees are printed on the board. The reverse of the board has 121 pins (11 x 11) for geometrical use.

Warning Notice: 1 (page 271)

85530V90 Set

### Fractions-Flip

The Betzold Fractions-Flip is the perfect demonstration material for fundamental terms and functions of fractions. The exercises can be varied and adapted to the level of performance.

Dimensions (H x W x D): 9 x 26.5 x 6.5

756741V90

### Round Fraction Stamps

Stamp them, paint them and learn how fractions are related to the unit. An appealing way of understanding fractions.

Warning Notice: 1 (page 271)

87595V90 Set of 9 stamps, Ø 2.5 cm

# MAGNETIC COORDINATE SYSTEM

## Magnetic Coordinate System, definable

This magnetic coordinate system offers enough space for individual designing. The pattern measures 65 x 65 cm. Steps of 5 cm and 10 cm are marked by thicker lines. However, there is no x- and y-axis given. Instead, the set includes magnetic cards with numbers which can be fixed on the imagined axis.

The magnetic mat can be inscribed with whiteboard-markers due to its surface-covering.

The best advantage: a ruler is no longer needed to mark the dots, because the pattern is generated in steps of 1 cm.

Dimensions: 70 x 70 cm

### Content:

- > 1 magnetic coordinate system
- > cards with numbers from 0 to 9
- > "-" presentation cards

**757812V90**

**757635V90** Magnetic Coordination System, marked

**757637V90** Magnetic Coordination System, blank

## Whiteboard Marker

The Whiteboard Marker is available in a set with 4 colours: Red, blue, black, green.

- > round tip, Ø 1.5 cm
- > dry wipeable
- > suitable for all whiteboards and flipcharts

**754794V90**

2 METRES LONG WITH NEGATIVE AND POSITIVE FIGURES.

**Number Line from -10 to +10**

Visualises the negative number range from -10 up to the positive range of +10.

88365V90

**Roman Numbers**

Getting to know the Roman symbols for numbers. The front shows a number written in Roman symbols. The back side shows the number in Arabic.

There are 3 sets. Each set consists of 20 cards – printed recto verso. Each set comes in a box.

87964V90 Set 1: Numbers from 1 to 20

87965V90 Set 2: Numbers from 21 to 100

87966V90 Set 3: Numbers from 100 to 2100

**Decimal Number Line with Decimal Expander**

Demonstrates the decimal numeration and makes it easy to understand how it works. Between the whole numbers there are decimal marks. They divide the distance between 2 whole numbers in ten parts. You can name each decimal mark exactly. For example: The 6th mark after the integer 2 is called 2.6.

But what about the space between decimal marks? Use the first decimal expander and show plausibly that the

space between 2 decimal marks can also be divided in 10 parts. For example: The 6th mark between 2.6 and 2.7 is called 2.66 (as shown in the picture).

If you want to go one step further, you can explain with the help of the 2nd decimal expander that the space between 2.66 and 2.67 can also be divided in the parts: to show this simply put the 2nd extender above the first one. Length: 1.3 m

88371V90

# MULTIFUNCTIONAL BALANCE

## With 2 Transparent Buckets

A balance especially developed for primary schools to give a wide and varied experience in weighing. Very stable and very fine balancing.

2 transparent buckets with lids. Each bucket will hold up to 1 litre. The children can read the volume of liquids and small parts on the scales of the bucket. Each bucket has a lid. These lids can become pans to use with small objects or to hold the weights.

In the balance 2 selections of weights are stored. (1 in the front side and 1 in the back side).

11 metal weights:  
2x 1 g, 2x 2 g, 2x 5 g, 2x 10 g, 2x 20 g, 1x 50 g

14 plastic weights:  
8x 5 g, 4x 10 g, 2x 20 g

Children can weigh a lot of objects up to 1 gram in the classroom, (e. g. pens, scissors ...)  
A good comparison can be made between volume and weight.

Warning Notice: 1 (page 271)

**2205V90**

## Extra Set Weights with White Printings

So children can weigh bigger objects and liquids. They can weigh up to 2 kg. Following weights are included:  
1x 500 g, 2x 200 g, 1x 100 g

**2206V90**

## Metal Weights

Set of 11 weights with imprinting  
2x 1 g, 2x 2 g, 2x 5 g, 2x 10 g, 2x 20 g, 1x 50 g  
**86717V90**

## Plastic Weights

Set of 76 stackable weights in plastic box with lid.  
**Content:** 20x 1 g, 20x 5 g, 20x 10 g, 16x 20 g  
Warning Notice: 1 (page 271)

**86716V90**

# IDEAL FOR CLASSROOM USE!

## School Balance, metal

Very sturdy metal balance. Ideal for classroom use. To introduce pupils to the concepts of balancing. To compare masses of many interesting materials. Children find out exactly what happens when a weight is taken away. Comes without weights

**85269V90** Capacity 2 kg (17 x 40 x 14 cm)

**85270V90** Capacity 5 kg (20 x 49 x 16 cm)

# WEIGHT SETS

in wooden boxes

Weight Sets	Brass weights						Iron weights with white printings				
	1 g	2 g	5 g	10 g	20 g	50 g	100 g	200 g	500 g	1 kg	2 kg
<b>A</b> without lid 1056V90	1	2	1	2	1	1	2	1	1	1	-
<b>C</b> with lid 1058V90	1	2	1	2	1	1	2	1	1	1	-
<b>D</b> with lid 1059V90	1	2	1	2	1	1	2	1	1	2	1

### Pan Balance

Measuring and comparing weights can be fun. Little chefs can use this colourful balance in the play kitchen to weigh ingredients. They playfully learn to compare the mass of a liquid with a specific volume to other objects. Grasping the concept of measurement has never been easier.

Dimensions: Balance (W x H): 36 x 28 cm  
 Pans: Height: ca. 7 cm, diameter: 18 cm  
 Warning Notice: 1 (page 271)

**57238V90**

### Weight Set Brass, 10 Pieces

**Content:**  
 2x 1 g, 2x 2 g, 2x 5 g, 2x 10 g, 1x 20 g, 1x 50 g  
 Total combined weight is 106 g.

**85752V90** In storage box with lid

### Suspension Balance

With metal body  
 Diameter: 15 cm  
 Capacity: 25 kg  
 Comes with suspension ring and load hook

**86070V90**

### Digital Kitchen Scale

This all purpose scale has a 5000 g capacity.  
 Accuracy of 1 g.  
 Dimensions: Platform: diameter: ca. 13 cm  
 Bowl: diameter: ca. 20 cm

**86111V90**

### School Balance

This school balance is the ideal teaching tool to introduce students to precision mass measurement. With a capacity of 2000 g a variety of readily available objects such as paper clips, coins, books and more can be measured. The interchangeable pans are easily removable for pouring, cleaning and storing.

Dimensions (H x W x D): 13.5 x 29 x 10.5 cm

**85751V90**

### Spring Scales

Spring scales can be used for force and mass measurements. Each scale is calibrated in Newtons and grams.

**764V90** 0–250 g

**765V90** 0–500 g

**766V90** 0–1000 g

**767V90** 0–2000 g

**768V90** 0–3000 g

**769V90** 0–5000 g

### Litre Cube

This cubic decimetre box contains exactly one litre. It demonstrates the relationship between linear, volume and mass. Calibrated in 100 ml intervals. Lid is included.

**87567V90**

### Measuring Beakers

5 beakers: 1000 ml, 500 ml, 300 ml, 200 ml, 100 ml. Calibrated with a clearly marked scale. Made of plastic.

**85044V90**

### Measuring Cylinders

7 cylinders: 1000 ml, 500 ml, 250 ml, 200 ml, 100 ml, 50 ml, 25 ml. Calibrated with a marked scale. Made of plastic.

**85439V90**

### Cubic Metre

To demonstrate 1 cubic metre. Consists of 12 rods of 100 cm and 8 connectors.

**85511V90**

### Windup Metre Tapes

Durable, high quality fiberglass tapes in ABS plastic windup cases. Calibrated on one side in cm, on the other in inches. Useful for outdoor activities, track and field, rough terrain and water. Will not tear, break, rust or stretch.

**665V90** 10 metres / 33 feet

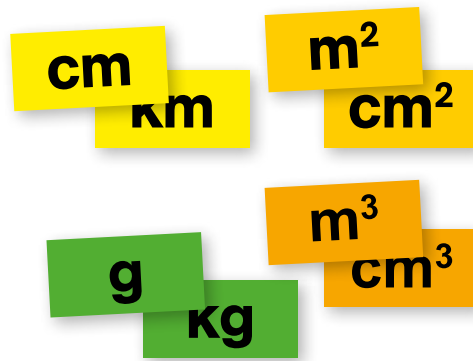

**666V90** 30 metres / 100 feet

**667V90** 50 metres / 165 feet

Minimum order: € 400,-

**Conversion Chart**

Show your children how to convert length, area and volume from one unit to another.

**Content:**

- 1 magnetic chart (105 x 33 cm)
  - 40 unit cards (8 x 4 cm) e.g. cm, cm<sup>2</sup>, cm<sup>3</sup>, g
  - 46 number cards (8 x 4 cm)
  - 1 comma
  - 1 question mark to spot the unit
- 87566V90**

# LENGTH, AREA AND VOLUME

**Unit Ruler**

Specifying accurate measurement units  
 With this three-sided ruler different measurement units can easily be defined. To convert between units, just flip the ruler to the next side and then decide which measurement unit is logical and the most exact. Students can develop a sense for measurement units and their relation to one another.

**88225V90**

**Measuring Tape**

Made of tear-proof fibre glass. 1.5 metres

**668V90**

**School-Tachometer with Counting Mechanism**

Improve children's sense of distances! Let them walk, roll the tachometer and measure different distances. After each metre they hear a click. Counting mechanism up to 99,999 metres.

Tachometer with rubber tyre and adjustable grip.  
 Diameter: 31.8 cm

**82008V90**

**Theodolite**

Surveying in schools with this lightweight and sturdy theodolite for outdoor use. The sturdy adaptable legs are telescopic for storage. The level indicator ensures precise set up. The scales move and measure with an accuracy of 1°. Comes with instructions.

Dimensions:  
Base protractor: Ø ca. 30 cm  
Height: max. 125 cm

**86421V90**

Minimum order: € 400,-

MAGNETIC

### Euro Coins and Notes

These large Euro coins and notes are full coloured and have a complete magnetic backside. The huge size notes and coins are ideal for demonstrating money sized to students.

#### Features

- › Realistic notes and coins
- › Suitable for all magnetic boards
- › Good value for money

All sets consist of:

Euro-Notes: 5x 5 €, 10x 10 €, 5x 20 €, 5x 50 €, 10x 100 €, 5x 200 €

Euro-Coins: 10x 1 €, 5x 2 €

Euro-Cents: 10x 1 Ct, 5x 2 Ct, 5x 5 Ct, 10x 10 Ct, 5x 20 Ct, 5x 50 Ct

Signs: 4x +, 4x -, 6x =, 2x x, 2x :, 2x ·

### 1» Euro Organiser with Magnetic Notes and Coins

Dimensions: organiser: 80 x 32 cm

### Euro Shopping – Demo, magnetic

A demonstration tool about buying and selling.

There are 6 objects with a certain price.

There are 10 different lists with a combination of items and an amount of money they have to pay with.

The children have to find out how much the combination of items would cost.

And how much money they would have left in their wallet. For every list there is a correction sheet enclosed.

There are 2 sets – one without decimals and one with decimals.

#### Content:

6 objects with a certain price

10 lists

10 correction sheets

Dimensions (W x H): 17 x 24 cm

**87577V90** Set 1: without decimal

**87593V90** Set 2: with decimal

SELLER**

### Euro Organiser

Dimensions (H x W x D): 2.5 x 45 x 20 cm

- › Children can organise the storing of the euro money.
  - › The organiser is made of plastic with a transparent lid.
  - › Especially developed for the euro money: 7 compartments for the notes and 8 compartments for the coins.
- All Warning Notice: 1 (page 271)

- 2463V90** Sorting tray with 130 notes and 160 coins
- 2832V90** Sorting tray with 65 notes and 110 coins

### Euro Coins

Realistic looking coins, made of sturdy plastic  
Diameter 2 €: 2.6 cm  
All Warning Notice: 1 (page 271)

- 2512V90** 300 coins in a plastic bag
- 1991V90** 80 coins in a plastic bag

### Euro-Notes

Printed on both sides, made of non tearable paper,  
9 to 12 cm long.

Set contains 10 of each and 15 of 10 €

**900043V90**

# CALCULATING WITH MONEY

### Shopping Time

The children get a shopping list and an amount of money.  
They have to buy the objects on the list and have to pay.  
The exercise is to add the prices and to get the right amount of money back! On the back side of the shopping list they find the solution!  
2 different sets each with 36 object cards and 72 shopping lists.  
Each set is packed in a 'learn'-box.

- 86698V90** Set 1: Easy Set (without decimal)
- 86688V90** Set 2: Advanced Set (with decimal)

Minimum order: € 400,-

### Counting with the Piggy Bank

How can you get 92.00 € if you have to use 3 coins and 3 notes?

This set includes a piggy bank, 10 work cards (5 with decimal and 5 without decimal) and 4 blank cards to make your own exercises.

Dimensions of the piggy bank: 27 x 29 cm

Dimensions of the cards: 11 x 16 cm

**88086V90**

### Euro Divider

Try to find how to compose a certain amount. The number of notes and coins is indicated.

On the verso side you can find the solution. To be used with the euro-organisers.

There are 2 sets – one without decimal and one with decimal.

**Content:** 25 exercises in a plastic box  
Dimensions (W x H): 9 x 7 cm

**87576V90** Set 1: without decimal

**87592V90** Set 2: with decimal

### Calculating Money Swiss Franc, incl. Cash

Plastic coins and calculating notes, helps children to get an understanding of money management.

Notes:

10 x 1000 CHF, 20 x 200 CHF, 20 x 100 CHF, 20 x 50 CHF, 20 x 20 CHF, 20 x 10 CHF

Coins: 20 x 5 centimes, 20 x 10 centimes, 20 x 1/2 CHF, 20 x 1 CHF, 20 x 2 CHF, 20 x 5 CHF

Cash box size (H x W x D): 3.5 x 19 x 45 cm

Warning Notice: 1 (page 271)

**759605V90**

### Swiss Francs

All Warning Notice: 1 (page 271)

**757463V90** Set of 55 notes

**760432V90** Set of 70 coins

**760439V90** Set of 325 notes

### Clock: In the Course of a Day

Children see and understand that their activities are linked to different times of a day. This way they develop a sense of time and learn how to calculate with periods of time. "When do you have breakfast? When does school begin? And how big is the time gap between these events?" 26 appealing magnetic pictures show familiar activities of children's daily routine. Place them on the board and create the course of a day.

**Content:**

- 1 magnetic board (71 x 71 cm)
  - 1 set of magnetic hands
  - 26 magnetic pictures (8 x 8 cm)
- 87289V90**

### A Child's Day

Magnetic Picture Cards

Set of 26 colourful, magnetic cards feature children actively participating in everyday routines, activities, and events.

The pictures are an effective tool for helping children increase their expressive language skills and vocabulary by allowing them to "talk about" experiences with which they are familiar. Dimensions: 8 x 8 cm

**87253V90**

# WHAT'S THE TIME?

### Teaching Clock "What's the time?"

Get to know different time expressions! The 2 hands and 6 time expression tags are removable. This allows an easy start of the subject "time". First only set in the hands to get used to full hours. Then add one tag after another. Your pupils understand step by step "half", "quarter", "past" and "to".

**Content:**

- 1 magnetic teaching clock printed on sturdy foil (dimensions: 63 x 48 cm) with 2 hands and 6 time expression tags.
- 87568V90**

Minimum order: € 400,-

**BEST  
SELLER**

**MAGNETIC**

**Magnetic Demo Clock**

This 41 cm large clearly-defined clock is perfect for classroom demonstrations.

The hands are synchronised.  
On the backside of the clock are 4 strong magnets, so this clock can be hung on any magnetic board.

**2619V90**

**Student Clock**

Student version of the big clock, diameter: ca. 13 cm  
Small clock with a stand.  
Hands move synchronically.  
Warning Notice: 1 (page 271)

**85444V90**

# TEACHING CLOCKS - SIMPLE TO USE AND EASY TO READ

**Sand Timers**

How long is a break of 5 minutes? How long are 30 seconds if you are standing on one leg? 10 minutes of reading ... Make time visible and let children experience time.

All Warning Notice: 1 (page 271)

**Sturdy case with 3 sand timers**  
(1, 15 and 30 min)

**758698V90**

### Pair of Magnetic Clock Faces

Shows analogue and digital time. Perfect for calculating periods of time.

Includes 2 large clock faces, 2 sets of magnetic hands and a set of magnetic numbers (57 pieces) for the digital clock.

Dimensions: 30 x 36 cm

87242V90

### Pupil Clock Set of 10

Make teaching time in the classroom easier with this set of sturdy plastic clock faces. Movable hands show hours and minutes. Set of 10 pupil clocks.

Dimensions: 11 x 11 cm

87333V90

### Student Clock

Ø ca. 11 cm

Hands are protected by a transparent cover. They are moved synchronically by a button on the top.

5453V90

### Individual Clocks

Dimensions (W x H): 9 x 12 cm

- › Made from sturdy plastics
- › Moveable hands have a different colour
- › Surface can be written on
- › A space to write the digital time

369V90

Set of 10

Minimum order: € 400,-

### Double-sided Isometric Geoboard

#### stackable

One side has 11 x 11 pins on 2 cm raised grid, other side pins are in an isometric array to allow work with isosceles triangles.  
 Dimensions: 20 x 20 cm, made of durable polypropylene.  
 All Warning Notice: 1 (page 271)

**86246V90** piece

**89733V90** Set of 8 boards

### Rubber Bands

In polybag

**40264V90** 265 pieces in 5 colours and 4 sizes

## GEOBOARDS IN VARIOUS SIZES

### Geoboard, 22.5 cm

Transparent, with 121 pins in a square grid  
 Can be used on the OHP.  
 Warning Notice: 1 (page 271)

**881V90**

### Double-sided Geoboard, 17.5 cm

On one side 25 pins are arranged on a square grid. Children can make all basic shapes with the rubber bands.  
 To compare surface, corners and discover symmetry.

The reverse side shows a circular pin arrangement.  
 To discover the properties of circles.

Ideal resources for an introduction in fractions.  
 Warning Notice: 1 (page 271)

**912V90**

### Double-sided Geoboards

On one side the pins are arranged in a square grid, on the other side they are arranged isometrically.  
 Dimensions: 23 x 23 cm

Warning Notice: 1 (page 271)

**759555V90** Set of 6 in 6 bright colours

### Geoboard, 15 cm, Square

Transparent, with 25 pins in a square grid.

Can be used on the OHP.

Warning Notice: 1 (page 271)

895V90

### Geo-Me

Students can build and explore geometric shapes. Each shape is placed inside a two-piece frame. As the pieces are transparent you could use them on a light table.

108 parts

760356V90

### Work Cards Geoboard Square

12 cards printed recto verso

3 sets of 12 cards – increasing in difficulty

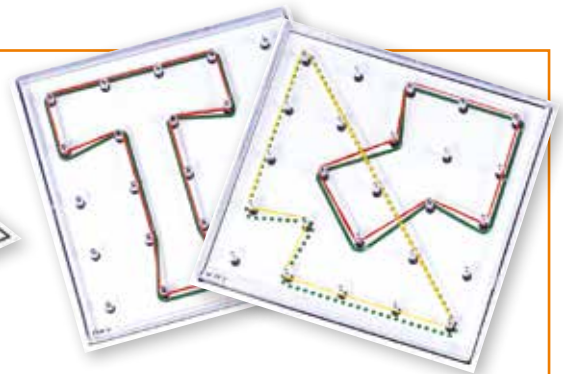

Dimensions: 16 x 16 cm

Geo mirror not included.

81942V90 Set 1 – Only 1 Rubber Band

81946V90 Set 2 – More Rubber Bands

81947V90 Set 3 – Work with a Geo Mirror

SET 1

SET 2

SET 3

### Work Cards Geoboard Circle

12 cards printed recto verso – increasing in difficulty

Dimensions: 16 x 16 cm

87967V90

### Domino Triangles & Angles

A challenging domino game! The students will develop basic geometry skills, such as: understanding of the sum angle of a triangle, complementary angles and vertical angles.

2–4 players

Content: 40 domino tiles

760361V90

# GEOMETRY

## Stick and Ball Geometry Kit

Use to make geometric shapes or create models. Each stick colour is a different length, making it possible to design various polygons of differing sizes.

### Content:

250 Sticks (40 orange, 45 purple, 45 green, 40 yellow, 40 blue, 40 red)

80 balls (14 orange, 14 purple, 13 green, 13 yellow, 13 blue, 13 red)

Warning Notices: 1, 5 (page 271)

**87071V90**

## Unbreakable Handmirror

Class pack

All Warning Notice: 2 (page 271)

**5534V90** Dimensions (W x H): 10 x 7 cm, Set of 25

**88429V90** Dimensions (W x H): 15 x 10 cm, Set of 10

## Unbreakable Mirror

Can be used two ways.

Dimensions (W x H): 10 x 16 cm

Warning Notice: 2 (page 271)

**86359V90**

## Double Mirror

With two flexible parts.

Dimensions (W x H): 20 x 7 cm

Warning Notice: 2 (page 271)

**349V90**

## Pattern Blocks

1 cm thick.

Wooden pattern blocks – set with 250 pcs.

Warning Notice: 1 (page 271)

**900346V90** In plastic storage tub

## Pattern Blocks

0,5 cm thick.

Plastic pattern blocks – set with 250 pcs.

All Warning Notice: 1 (page 271)

**85047V90** In plastic storage tub

**1000V90** In plastic bag

### 1) Double Mirror

This flexible mirror (15 x 15 cm) introduces children to symmetry and other concepts. Can be used with colour cubes, pattern blocks and other manipulatives. The plastic mirrors are mounted on wood. Warning Notice: 2 (page 271)

41345V90

### 2) Corner Mirror

Students can use these mirrors with pattern blocks, cubes etc. to visualise and understand symmetry, reflections and patterns.

Warning Notice: 2 (page 271)

**Content:** 2 mirrors (10 x 15 cm), 1 wooden base (16 x 16 cm)

85851V90

### 3) Reflecting Patterns

The child has to put the needed pattern blocks in such a way that the requested pattern on the card appears. To familiarise the children with symmetry and reflections.

**Content:**

8 cards (15 x 10 cm) – printed recto verso  
16 exercises – showing the result of putting the shapes before the mirror. Indicated is also how many blocks of which kind you need. In the right corner you find the solution of the exercise from the other side.

87578V90

### Geo Mirror

Surface reflects like a mirror, but you can see through it. Place this mirror in front of a shape or a design. Put your pen on the other side of the mirror on a piece of paper (see picture). Look through the mirror. You can see the shapes and -through the mirror- your pen. Now you can start drawing. To discover geometric shapes and their symmetry, similarity ...

Made from acrylic glass. A rounded side makes drawing easier. Dimensions (W x H): 15 cm x 9.5 cm

863V90

**BEST SELLER**

**Magnetic Tangram**

This magnetic tangram can be used on steel based whiteboards, blackboards, desk tops ... From seven basic geometrical shapes children are able to create various images, from simple to challenging. Great for demonstrating on the board while students work at their desks. Set of 3 tangrams in 3 different colours (coloured on both sides)

**86250V90** Set of 3

# Tangram - SEVEN PIECES OF CLEVERNESS

**Tangram**

Made from colourful and very sturdy plastic. Each set contains 28 pieces (= 4 tangrams – each 7 forms) in the colours red, yellow, blue and green (dimensions: 10 cm) To create basic shapes and colourful illustrations.

Warning Notice: 1 (page 271)  
**85033V90** In a plastic box with lid

**Tangram Work Cards**

printed on plastic (17 x 14 cm)

25 cards printed on both sides. This means 50 exercises. The solution is printed smaller on the reverse side and space is left between the different parts.

**85043V90** With box

**9736V90** Without box

### Pentominoes

To develop concepts of logic, area and space.

60 pieces in 5 different colours

Warning Notice: 1 (page 271)

**9882V90** In plastic tub with lid

### Pentomino Work Cards

**Content:** 15 cards – printed both sides (14 x 17 cm)  
I.e. 30 exercises – solution is on the back side in small

**85584V90 Set 1:** Different number of tiles – from 3 up to 12

**85585V90 Set 2:** Exercises with all 12 tiles  
On 10 exercises there are 2 or more tiles indicated as a help.

**86928V90 Set 3:** Try to make the same pattern with different pieces.

**86929V90 Set 4:** 2 sets of pieces lead to the same pattern. Try to find out how.

### Make your own Tangram

Tangram for sawing and painting. Made of plywood.

Dimensions: 15 x 15 cm

**51565V90**

Minimum order: € 400,-

### Soma Cube

The Soma cube is a solid dissection puzzle. Seven pieces made out of unit cubes must be assembled into a cube. The pieces can also be used to make a variety of other interesting 3D shapes.

**89190V90** Large – 9 x 9 cm

**86410V90** Small – 6 x 6 cm

### Soma Work Cards

Based upon the info on the front side, you have to build the right construction. Afterwards you can check the job by comparing the figure on the other side with the built figure. Dimensions: 21 x 13 cm

4 sets of work cards – increasing in difficulty. Each set consists of 10 self-correcting cards.

**86300V90** Set 1

**86301V90** Set 2

**86302V90** Set 3

**86303V90** Set 4

### Wooden Geometric Solids with Shapes

#### Content:

- › 7 solids: cube, cuboid, sphere, cylinder, cone, three-sided and square-based pyramid. Height up to 7.5 cm
- › 4 base shapes. Dimensions square: 5 x 5 cm

Warning Notice: 7 (page 271)

**87267V90**

### Wooden Geometric Solids

**Content:** cones, sphere, hemisphere, cube, cylinders, different pyramids, different prisms and rectangular shapes. To explore relationships between area, volume and shape.

Height: up to 7.5 cm; diameter: up to 5 cm

Warning Notice: 7 (page 271)

**89022V90** Set with 12 models

### Interlocking Cubes, 1 cm

Ideal material for first mathematical discoveries: comparing quantities, sorting, matching, counting ...

Since these cubes have a side length of 1 cm, a weight of 1 g, they can be used to introduce linear as well as weight concepts.

**Content:** 1000 pcs., in 10 bright colours

Warning Notice: 1 (page 271)

**5953V90** In plastic storage tub

### Interlocking Cubes, 2 cm

In bags of 100 pcs.

All Warning Notice: 1 (page 271)

**87224V90** 5 different colours

**35838V90** 10 different colours

### Wooden Cubes

150 wooden cubes of 2 cm

Warning Notice: 1 (page 271)

**761794V90** In plastic storage box

### Cubo – Work Cards for the Wooden Cubes

Build a construction based on info from different angles!

On the verso side you find the right solution. Different sets use a different amount of blocks!

Dimensions: 13 x 9 cm

5 sets of work cards – increasing in difficulty.

Each set consists of 10 work cards, 2 boards, 2 blank cards

**85733V90** Set 1

**85734V90** Set 2

**85735V90** Set 3

**85736V90** Set 4

**85737V90** Set 5

**Geometric Volumes**

Height: 10 cm  
 Ideal tools to measure and compare the volume relationship (and volume formula) between various shapes. The lid enables the students to fill the shape with liquid or dry materials.  
 Includes 17 large volumes, up to 10 cm height.  
 Warning Notice: 7 (page 271)

**86295V90**

**Geometric Volumes**

Ideal tools to measure and compare the volume relationship (and volume formula) between various shapes.  
 The lid enables the students to fill the shape with liquid or dry materials. Includes 17 small volumes, up to 6 cm height.  
 Warning Notice: 7 (page 271)

**86294V90**

**Large Geometric Shapes**

Set of 17 shapes for exploring geometry. The shapes have a common 10 centimetre dimension to show the relationships between area, volume, shape, form and

size (except the small cube). The set includes all shown solids.  
 Warning Notice: 7 (page 271)  
**86272V90**

**Handy Geometric Solids**

A great deal of geometric solids. Ideal for touching, studying, sorting and comparing.  
 40 plastic solids: 10 different forms (cube, cuboid, cone, sphere, hemisphere, three- and four-sided prism, three-sided and square-based pyramid, cylinder) in 4 colours, height: 2.5 cm  
 Warning Notices: 1, 5, 7 (page 271)

**87269V90** Set of 40 pieces

SET 1

**Set 1**

198 pieces: 28 equilateral triangles, 14 right-angled triangles, 28 isosceles triangles, 84 squares, 28 rectangles, 8 pentagons, 8 hexagons  
7597V90

The children discover and investigate a variety of different mathematical areas including shape and space, patterns and colours, sorting and classifying and problem solving.

**Xeo Class-Kit**

7 geo shapes which can be fixed together, edge to edge. Each shape has a hole in the centre for easier shape-recognition, handling and tracing. The shapes are made from durable plastic material.

SET 2

**Set 2**

392 pieces: 56 equilateral triangles, 28 right-angled triangles, 56 isosceles triangles, 168 squares, 56 rectangles, 14 pentagons, 14 hexagons  
7595V90

**Set 3, transparent**

198 pieces: 28 equilateral triangles, 14 right-angled triangles, 28 isosceles triangles, 84 squares, 28 rectangles, 8 pentagons, 8 hexagons  
756134V90

### Giant Construction Kit

Simply connect the balls and sticks to giant constructions! Discover geometric solids and inspect them even from the inside!

Set with 69 pieces: 28 balls (Ø 6.5 cm) and 49 rods (40 cm) made from sturdy plastic

Age: 5+

**756663V90**

### Extended Volume Set

15 models made of plastic. Shapes measure up to 10 cm height.

Warning Notice: 42 (page 271)

**2632V90**

**NEW**

### Set of 12 Three-dimensional Translucent Shapes, 6 Colours

Ideal to get an understanding of geometry concepts from an early age.

Shape height: 5 cm

Warning Notice: 42 (page 271)

**759553V90**

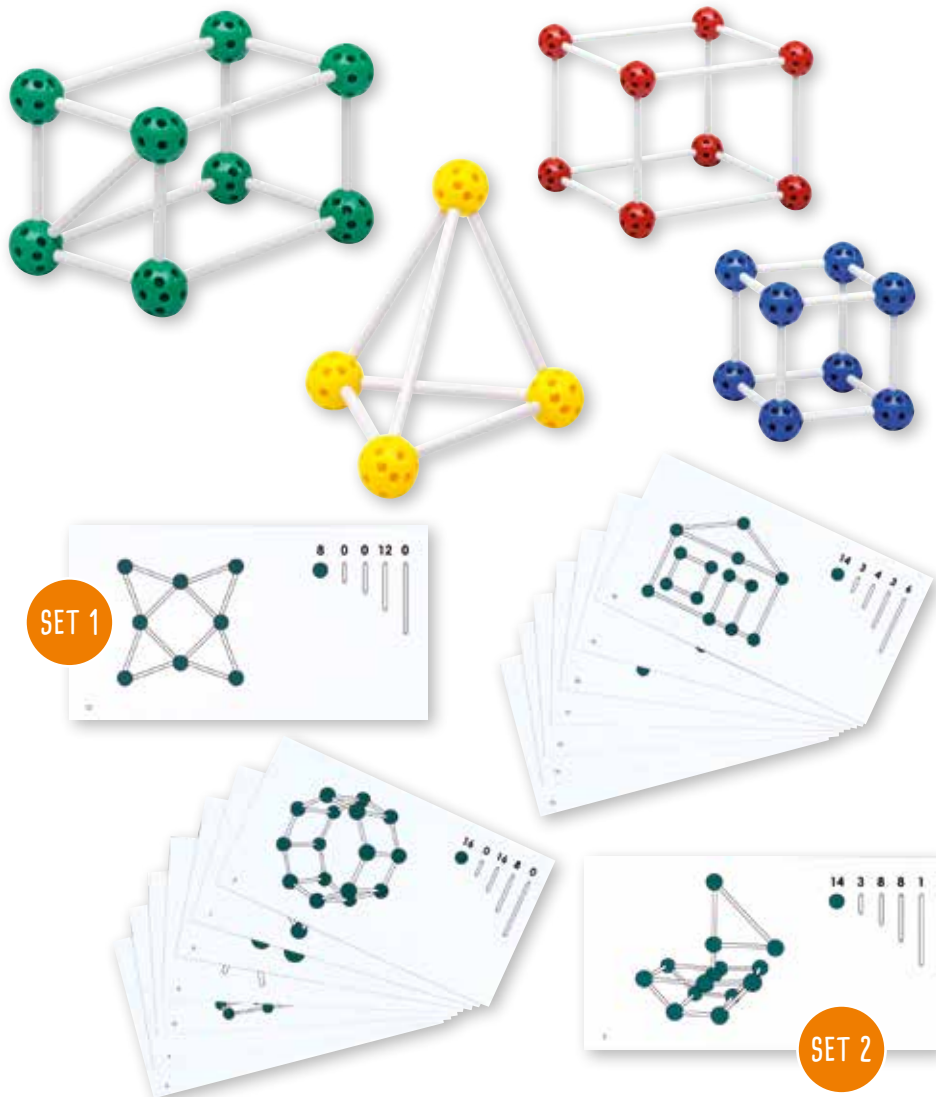

### Connecting Balls and Rods

To discover cubes, pyramids, prisms ...  
 To explain notions as angles, base, areas, sides, heights and diagonals.  
 Each ball has 26 holes.  
 It's very easy to connect the balls and rods.

180 coloured balls (Ø 1.6 cm)  
 180 rods from 1.6 to 7.5 cm  
 Made from sturdy plastic.

Warning Notices: 1, 5 (page 271)

**2182V90** Set

### Work Cards for Connecting Balls and Rods

Study the cards carefully and construct the pictured examples to improve spatial orientation and awareness. This is also important for writing letters and numbers.

#### Set 1 – Plain shapes

10 work cards, printed on both sides, full-scale pictures, self-correcting. Dimensions (W x H): 13 x 24 cm

**81951V90**

#### Set 2 – Solids

10 work cards, printed on both sides, all required pieces are stated on each card. Dimensions (W x H): 13 x 24 cm

**81952V90**

Minimum order: € 400,-

MAGNETIC

## Determining Trees

Based on roots, plant heights, stem, crown, leaf, blossom or fruit each tree can be determined exactly.

With this specially developed learning material for the school, it's even easy to do it in the classroom.

The scaled and sturdy trees can be used at any time without much preparation. The magnetic plates adhere perfectly to the tree surfaces. Ready-to-use copy sheets complete this great teaching material.

Suitable for bilingual lessons (English, French or German).

754793V90

## Solid Wood Stand-Up Display

The high-quality stand-up display for learning stations is made of solid wood. The slit in the middle is 3 mm wide. Thick carton or multiple sheets of paper fit in perfectly. The weight of 192 g ensures that bigger signs will not tip over.

Dimensions (H x W x D): 5.5 x 10.5 x 5 cm

Weight: 192 g

755330V90

## Floors of the Forest

Learning game for children that shows the layers of a forest.

Wooden box with pop-up lid (H x W x D: 7.5 x 32 x 23 cm)

**Content:** 25 parts

15 animals (fox, roe deer, badger, wild boar, woodpecker, spider, bird's nest, ant, toad, squirrel, earthworm, owl, bee, butterfly) / 6 forest layer pictures: 1 deciduous tree and 1 conifer for tree layer, 1 root for root layer, 1 picture each for shrub layer, herb layer and moss layer / 4 wooden strips (2 with 5 and 2 with 6 grooves)

Copy templates

762049V90

**MAGNETIC**

### Cherry Blossom – From Blossom to Fruit

Demonstrate directly on the blackboard, how and why a cherry blossom becomes a cherry. Each development stage can be explained with this beautifully designed illustration material.

Depending on class level and performance level you can convey knowledge specified and individually.

Show children how the bee crawls into the blossom and sucks up nectar with its trunk or explain in secondary level what a flower diagram is.

Ideal for bilingual school lessons (German/English).

#### Content:

23 magnetic pieces (largest piece: 41 x 33.5 cm); 1 bee, 1 trunk, 4 development stages of the blossom to the fruit, 2 flower diagrams, 15 magnetic name cards (front side German/backside English), 1 handout with copy sheets (German/English)

754792V90

### Cherry Blossom Model

The cherry blossom model made of plastic, placed on the base.

This will facilitate the understanding of the flower.

Well presented elements: the stamens, the ovary.

Dimensions: diameter: 23 cm, height: 22 cm

Material: plastic

86177V90

### Wooden Flower Press

Wooden flower presses in two sizes

The presses are ideal for a lot of crafty uses and suitable for use by adults and children. They are made from MDF wood and come with screws, cardboard and blotting paper.

#### Large Flower Press

**Content:** 2 MDF plates (32 x 26 cm), 8 screws with butterfly nuts, cardboard and blotting paper.

Warning Notice: 2 (page 271)

70787V90

#### Small Flower Press

**Content:** 2 MDF plates (13 x 13 cm), 4 screws with butterfly nuts, cardboard and blotting paper.

Warning Notice: 2 (page 271)

761023V90

Minimum order: € 400,-

**The Potato Plant**

The "miracle" tuber comes to life fast and extremely large on your blackboard! Demonstrate and name the individual parts of the plant. Which parts are toxic and which beetle causes damage to the plant? The colourful pictures encourage discovering the potato plant. The magnetic name plates are printed both sides (front in German/back in English) and can also be used in English lessons. In the handout you will find interesting facts of the potato plant, copy templates with questions, a guessing game and a potato recipe.

**Content (29 pieces):**

1 large magnetic poster (4 pieces, 57 x 80 cm), 4 removable magnetic plates (blossom, fruit, potato, leaf with potato beetle), 4 toxic plates, 8 magnetic name plates (front in German, back in English), 8 magnetic plates (to be labelled), 1 handout with copy templates.

84910V90

**Types of Grains**

Bring the 9 most important types of grains into the classroom. Lay them on the table or use wooden blocks (755330, not included) to erect the plants.

**Content:**

45 pcs: 9 plants (wheat, rye, barley, oats, corn, rice, buckwheat, spelt, millet), 18 magnetic word plates (English, French and German), 9 magnetic seed plates, 9 blank plates for own inscribing (markers not included). The biggest plant is 34.3 cm (corn) and the smallest is 15.3 cm (buckwheat). 1 copy sheet included

760027V90

Solid wood stand-up display see page 126

### Magnifying Glass

Small magnifier for clear bug and nature viewing that is very comfortable to hold. The big glass (Ø 5.5 cm) magnifies 2x and the small one (Ø 1.5 cm) 8x. Length: 17 cm  
Warning Notice: 2 (page 271)

**84721V90**

### Box Magnifier

Made of clear acrylic plastic. With magnifying top for viewing insects, minerals and other small specimens. Dimensions: 3.8 x 3.8 x 3.8 cm  
Warning Notice: 2 (page 271)

**89180V90**

### Two Way Viewer

Allows children to place small objects such as insects on the tray and view them from below and above.  
Warning Notice: 1 (page 271)

**6573V90**

### Nature Exploring Kit

Observe the natural world around you and draw the children's attention to the environment.

#### Content:

bug jar with magnifier, creature net with 2-piece handle, magnifier, tweezers, instruction manual  
Warning Notice: 1 (page 271)

**85801V90**

### Magnifier Stand

Steady wooden magnifier stand  
Up to 15 magnifiers can be stored properly and safe with this elegant magnifier stand made of solid wood. Magnifiers not included.

**754544V90** big, for magnifier with handle 9993

**754545V90** small, for magnifying glasses 6592, 6593, 6599

### Magnifying Glass

With this magnifier the kids can precisely view objects such as flowers and leaves. The optical polished biconvex glass lens is available in 3 different designs: choose between a 5 times, 7 times or 10 times enlargement. The colourful plastic frame is also ideal for small children hands. Delivery in assorted colours. Diameter of magnifier: 2.5 cm, Length: 7 cm  
All Warning Notice: 2 (page 271)

**6599V90** 5x Magnifying Glass

**6592V90** 7x Magnifying Glass

**6593V90** 10x Magnifying Glass

### Magnifier with handle

The large visual field and the easy handling of the 15 cm long magnifying glass enables younger children to observe flowers, leaves, buds and other objects. Diameter of magnifier: 5 cm, Length: 15 cm  
3x enlargement  
Warning Notice: 2 (page 271)

**9993V90**

Minimum order: € 400,-

**Stereo Microscope**

- See life in 3D
- › Comfortable viewing with both eyes
- › Eye distance is adjustable
- › 20x magnification
- › Built in LED light illuminates any specimen
- › Real optical glass lenses provide clear 3D image
- › Portable battery power  
(uses 2x type AA Mignon LR6 batteries – not included)
- › Reversible black & white stage plate provides contrast
- › Includes vinyl dust cover

**86486V90**

**Big Magnifier**

Perfect for magnifying insects and everything else that fascinates children.

2x magnifier, length: 23 cm, Diameter: 8 cm

Warning Notice: 2 (page 271)

**85803V90**

**Prepared Micro-Slides**

12 Slides with 36 assorted specimens (beverage samples, plastic, synthetic fibres, grasshopper, medicine, starch, micro-film, natural fibres, animal, algae, vitamin and fungi)

**85797V90**

**All-Purpose Thermometer**

This all-purpose thermometer has a temperature range of -30 °C to +110 °C.

It comes in a case that magnifies the scale to make it easier to read. The case may be hung up or positioned to keep the thermometer at an angle. Six sliders allow high and low temperatures to be recorded. The thermometer may be easily removed from the case. Made of plastic.

Dimensions: Stick thermometer Dia.

6 x 300 mm

Main body (H x W x D): 32.5 x 3.7 x 2 cm

Warning Notice: 41 (page 271)

**83304V90**

**Dissecting Kit**

Stainless steel tweezers, needle, spatula, stirring rod, scalpel, scissors and dropper. Scalpel: 14.5 cm

Warning Notice: 2 (page 271)

**6529V90**

## TRANSMITTED LIGHT

### LED Microscope for Beginners

Children learn how to use a microscope. It's a basic biological microscope to look at specimens on a slide (light shining up from under the slide and through the tissue). It can also be used as a dissecting microscope to view objects at lower power (light shining down onto the specimen to be observed). This new scope allows for both types of applications. Cordless battery power makes it portable for field study.

## ... AND INCIDENT LIGHT

### Content:

- > 5 plain slides
- > 1 concavity slide
- > 4 prepared slides
- > cover glass
- > plastic dropper
- > 2 bottles of stain
- > slide labels
- > lens paper
- > forceps
- > plastic test tube
- > plastic petri dish
- > straight teasing needle
- > instruction manual

**85908V90**

### Double Lens Bug Viewer with Screw Top

Lenses: Diameter: 4.5 and 3 cm. Magnifying size: 2x and 4x

With built-in air holes and measuring grid.

Warning Notice: 1 (page 271)

**6639V90**

### Telescope Double Lens Bug

Viewer with Screw Top

Lenses: Diameter: 4.5 and 3 cm.

Magnifying size: 2x and 4x

The lid has air holes to let bugs breathe while being examined. To get a closer look at all kind of tiny things such as bugs, flowers, coins ...

Warning Notice: 1 (page 271)

**85143V90**

### Buzzing Studio

Hear what insects have to say to each other with the bug buzzing studio. This bug viewer with earphone is intended to help students use their listening skills to make observations of their environment.

With magnifying lens 2x and earphone.

Height: 9 cm

Batteries not included.

Warning Notices: 1, 4 (page 271)

**52111V90**

**NEW**

### Jumbo Magnifiers with Stand, set of 6

Each magnifiers super-safe, plastic lens measures 20 cm long with a diameter of 11.5 cm and offers 4.5x magnification

Warning Notice: 1 (page 271)

**759546V90**

### Magnetic Lifecycles

Extensive set for the clear representation of the life cycles of chicken, butterfly, bee, snail and frog.

#### Content:

- › Magnetic board, writable and wipeable
  - › Wall mounting material
  - › Storage for whiteboard markers for fixing to the lower edge of the board
  - › 5 Magnets „From The Egg to the Chicken”
  - › 5 Magnets „From the Spawn to the Frog”
  - › 5 Magnets „From the Egg to the Snail”
  - › 5 Magnets „From the Egg to the Bee”
  - › 5 Magnets „From the Egg to the Butterfly”
  - › 5 magnets for marking or numbering the cycle steps, writable with water-soluble foil pen (not included in scope of delivery)
- Dimensions board (H x W x D): 64 x 94 x 1.3 cm  
Material: foam, magnet

**760320V90** With board

**760310V90** Without board

## LITTLE SCIENTISTS MAKE INCREDIBLE DISCOVERIES

### Class Set of 24 Box Magnifiers in Case

The sturdy case facilitates transport and protects the magnifiers from moisture and dust.

Dimensions:

Magnifier: 3.8 x 3.8 x 3.8 cm

Case: 8.1 x 27 x 24.6 cm

Warning Notice: 2 (page 271)

**86186V90**

### Plastic Vivarium

Plastic cover contains built-in lid.

Also valuable for many activities with liquids. For example floating and sinking or comparing absorbency.

Dimensions (H x W x D): 19.4 x 29.3 x 17.5 cm

**86375V90**

# EASY LEARNING WITH COLOURS

## Colour Microscope

### The microscope for colour-supported learning!

With it children learn the correct handling with microscopes. Due to the different coloured parts, the different functions are easier to distinguish. The names of the important parts of the microscope become more readily apparent to the microscopy students.

Simply switch from incident light to transmitted light: The design is modern and appeals to children.

It makes you curious and encourages young researchers to learn how to do the microscopy. When explaining and naming the individual microscope parts can be conveniently resorted to the colours.

The microscope combines professional microscopy with child-friendly design. The handling is very easy.

The learning microscope has no annoying cables and works with battery power. Required are 3 batteries type AA, Mignon LR6, not included!

### Technical specifications:

- › Magnification: 40x, 100x, 400x
- › Eyepiece: 10x wide field
- › Lens: 4x, 10x, 40x
- › Illumination: incident and transmitted light, each with one LED

**757943V90**

# BLOCKS OF LIFE

**MAGNETIC**

## GIANT MAGNETIC CELL

Easy to apply on your blackboard

The cell is the basic unit of life and all organisms are made up of cells. Let's discover all parts and the corresponding terms with this giant and appealing version. Step by step the cell can be assembled at the board.

Minimum order: € 400,-

### Giant Magnetic Plant Cell

Includes 43 parts: 26 magnetic cell parts, 13 magnetic term tags (one side English, the other side German), 4 worksheets (German/English).  
Dimensions of the cell (W x H): approx. 54 x 65 cm

**89750V90**

### Giant Magnetic Animal Cell

Includes 42 parts: 26 magnetic cell parts, 12 magnetic term tags (one side English, the other side German), 4 copy worksheets (German/English), dimensions of the cell (W x H): approx. 50 x 65 cm

**89749V90**

**NEW**

**Layer Puzzle: Pregnancy**

Four layers, 28 pieces  
 Dimensions (H x W x D): 2.2 x 30 x 18 cm  
**761586V90**

**Layer Puzzle**

Layer puzzles promote the ability to concentrate, combine and imagine. Children gain insights into different developmental stages or into the inner structure of boys or girls.

- › Attractive, lovingly detailed presentations offer opportunities for conversation. Finding the right names for the puzzles.
- › Naming the development steps
- › Discuss time schedules. How much time has passed between the individual stages?

Each puzzle consists of five development steps or four layer puzzles. The first picture (first development step) is printed in the bottom of the puzzle frame. On the puzzle frame, there is an overview of all development steps on the top right.

The individual layers of the jigsaw puzzles can also be puzzled next to each other on the table, so that a direct comparison is visible, or the differences or developmental steps become clear.

**NEW**

**Layer Puzzle: Anatomy of Girls**

Four layers, 27 pieces  
 Dimensions (H x W x D): 2.2 x 30 x 18 cm  
**761583V90**

**NEW**

**Layer Puzzle: Anatomy of Boys**

Four layers, 27 pieces  
 Dimensions (H x W x D): 2.2 x 30 x 18 cm  
**761582V90**

**NEW**

**Layer Puzzle: Lifecycle of a Girl**

Four layers, 28 pieces  
 Dimensions (H x W x D): 2.2 x 30 x 18 cm  
**761585V90**

**NEW**

**Layer Puzzle: Lifecycle of a Boy**

Four layers, 28 pieces  
 Dimensions (H x W x D): 2.2 x 30 x 18 cm  
**761584V90**

## Discovery Kit "Eyesight"

- › How does the eye function?
- › Exciting experiments
- › For station learning

Why do some people need eyeglasses? What happens when looking into the distance and why is the picture projected onto our retina upside down? Students can answer these questions with the help of different experiments and exercises. Through these experiments, every student can understand how eyesight functions. For 4th grade and higher

### Content:

7x optical lenses, 1x LED-spotlight, 4x worksheets, 1x manual  
Warning Notices: 2, 34 (page 271)

**89947V90**

## Giant Eye Model

Highly detailed eye model. Dissectible into 6 parts: top section, vitreous body, bottom section, lens, iris, cornea. Mounted on a stand. Dimensions: diameter: 16 cm, height: 21 cm

**86192V90**

## Set of 7 Optical Models

The lenses and prisms enable students to study reflection and refraction of the light. They are made of flawless acrylic glass.

### Dimensions:

smallest model: 2.3 x 3.8 cm

biggest model: 2.3 x 7.5 cm

Warning Notice: 34 (page 271)

**83332V90** In storage box

REFRACTION WITH BEAM

EXPERIMENTS FOR LIGHT REFLECTION

DIFFERENT COLOUR MIXTURE

## LED-Colour Projectors

The special flashlight produces either a light cone or a linear light beam.

Examples of use for linear light beam:

- › With optical lenses you can demonstrate the refraction of light.
- › Arc measurement of light refraction.
- › With convex or concave prisms you can demonstrate visual defects of the eyes.
- › With a hand mirror your students can divert and re-route the rays.

Examples of use for light cone:

- › Ideal for all colour mixture experiments.

- › Combined with prisms you can demonstrate the principle of light refraction.
- › Using a combination of all light cones you can show the principle of additive colour mixtures.

Each projector is magnetised. Therefore experiments can be performed on either the blackboard or working place. Presentation: 3 LED-colour projectors (each 1x red, green, blue).

The pictured mirror, prism and working sheets are not included in delivery.

Dimensions (H x W x D): 3.5 x 2 x 11.5 cm

Warning Notices: 1, 2 (page 271)

**83300V90**

### Human Reproduction

Children are curious about how life begins. Now you can demonstrate how and where life develops on the black board. Explain the terms ovulation, fertilisation, uterus, penis, sperm cells etc. objective and factual. For bilingual lessons (English/German) you can use the backside of the magnetic name cards.

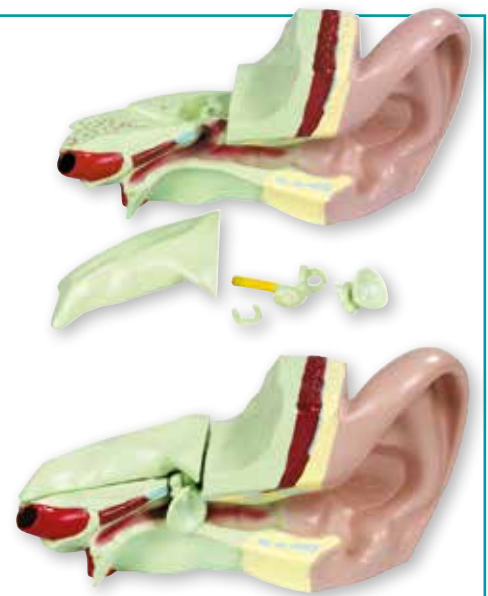

Suggestions how to organise complete school lessons can be found in the handout.

The copy templates (working and answer sheets) are designed in 3 different levels in German and in English. Contains 37 pieces: 21 magnetic pictures, 15 magnetic name cards (German/English), 1 handout with copy templates.

Dimensions of uterus: approx. 47 x 29,5 cm

89846V90

HOW DOES LIFE  
COME ABOUT?

### Giant Ear Model

A giant model of the ear, for elementary science classes. Shows all major structures related to hearing and balance. Features a removable bone section to reveal the auditory ossicles with eardrum and labyrinth.

Dimensions: 14 x 44 x 28 cm

86376V90

### Stethoscope

Children can hear their own heartbeat using a stethoscope. For classroom use.

Warning Notice: 1 (page 271)

85754V90

**The Miracle of Life – a Fascinating Journey**

Show the 9 stages of development inside the uterus. Pillow-like cloth fetuses represent the average size and weight of a fetus during pregnancy. The sachets can be filled with rice (not included). An accompanying cloth wrap can be used to 'wear' these fascinating teaching aids. The students' inhibitions to talk about pregnancy, childbirth and their own bodies can be reduced effectively while holding and feeling the pillow-like fetuses.

**Content:**

- > 10 sachets (6.5 x 4.5 cm to 33.5 x 25 cm)
- > 1 cloth wrap
- > 1 folder with master copies/worksheets (2 levels of difficulty)

Material: 100% polyester, machine washable at 30 °C, delicate cycle

**89847V90**

**Human Skin – Magnetic Materials**

Large, colourful & easy to understand! Show the different layers of the human skin and gradually build the model on the chalkboard. Depending on the grade you are teaching and the pupils' performance level you can arrange the model very simple or very demanding. The word cards, worksheets or master copies in English and German can be used for bilingual teaching. Materials come in two levels of difficulty.

**Content:**

- > 13 magnetic skin parts
- > 17 magnetic word cards (double-sided, English/German)
- > 1 folder with master copies/worksheets

Dimensions: 60 x 32 cm

**754463V90**

### The Circulatory System

How does blood flow, where are the heart valves located and what are veins, arterioles and capillaries? Explain the pulmonary and systemic circulation to your students in a relevant and memorable way. The complete circulatory system can be presented step by step on the blackboard.

For better explanation, pulmonary and systemic circulation system can be presented consecutively. Depending on grade and performance level, the circulatory system can be explained in different stages. Use the English name tags for bilingual lessons (English). The enclosed manual with copy templates is also in English. 18 piece circulatory system, 15 name tags printed on both sides (German/English), 1 tag for portal system, 1 manual with copy templates in 3 levels, for 3rd grade and up  
Model full size: approx. 77 x 35 cm

**89946V90**

### Giant Heart Model

Detailed model of the heart at approx. 4 times life size. Dissectible into 3 parts. Mounted on demonstration stand.

Dimensions: ca. 28 x 28 cm

**86178V90**

### Heart Model

Life sized heart model made of durable ABS. With detachable cover piece and valves. Realistic presentation.

Dimensions (H x W x D): 7 x 12 x 8 cm

**85796V90**

### Large DNA Model

Ideal to demonstrate the structure of the DNA. The double helix is clearly visible. The make-up of the base pairs is also shown. The hydrogen bonds between the bases are shown as links. Adenine and thymine are shown with two links, guanine and cytosine with three links. Easy disassembling to demonstrate the structure and individual parts.

Bases, desoxyribose molecules and phosphodiester bond individually dismantlable. Dismountable

Height: approx. 60 cm, diameter: approx. 20 cm

**86176V90**

# OUR BODY

**BEST  
SELLER**

## Torso

Accurate yet uncomplicating details make this model an ideal replica of the human body. Made of durable plastic. Anatomically correct. Sexless human torso.

Height: 50 cm

11 parts, allowing the study of different organs. The head can be dissected in 2 parts.

**85138V90**

## Mini Torso

How does our inside look like? How does a human body work? Children are interested in those kinds of questions and here they can find a lot of answers by examining the torso.

Detachable organs: lungs, heart, liver, stomach and intestine. Subjacent organs, brain and musculature are clearly visible. Height: 27 cm

**81895V90**

## Small Skeleton

This skeleton is great for students to learn the components and structure of the human skeleton.

Mounted on demonstration stand.

Height: 80 cm

**86188V90**

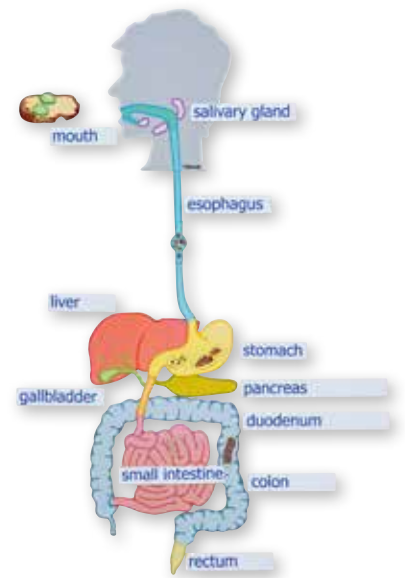

## Mitosis Model

Your students learn the process of cell division of a herbal cell and of an animal cell. One model shows the nuclear division of the herbal cell and the other model of the animal cell. The following applies to both models: All 6 stages (interphase, prophase, metaphase, anaphase and telophase) are demonstrated.

Each model consists of one base plate and 6 single individual removable parts. The herbal and animal model differentiate by different forms.

**86173V90**

### Human Digestion

The human digestion can demonstratively be explained with these magnetic digestive organs. It is clearly visible where the different organs are located in the human body and how they work. Moreover, the set includes some magnetic pictures of food. Therefore, the children can follow a piece of bread with butter, cheese or cucumber on their way through the human body. Additionally, the set includes an adequate tale (for reading or as cloze in 2 different levels of difficulty).

#### Content:

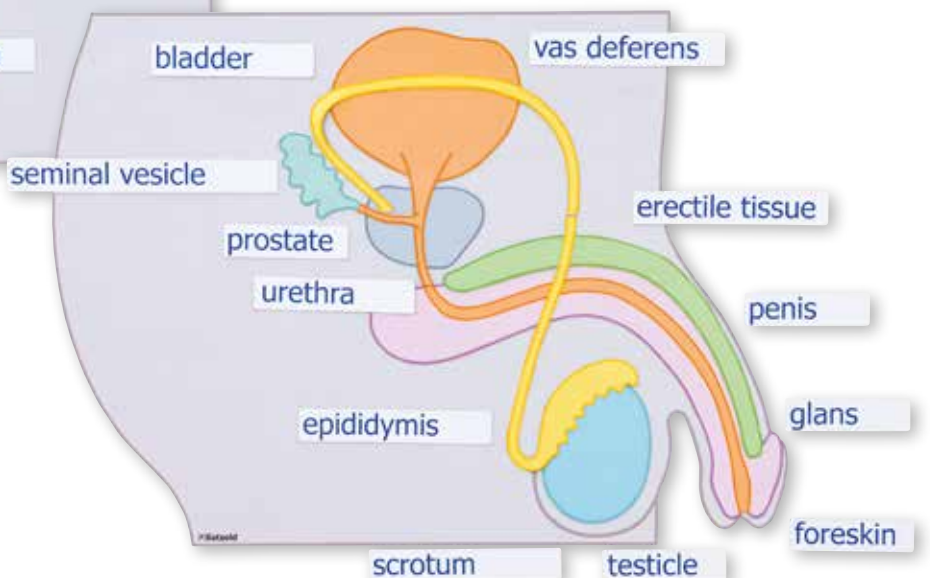

- > 18 magnetic pictures (size of the head: ca. 23 x 18 cm)
  - > 11 two-sided printed name badges (German/English)
  - > 1 supplement with copy templates
- Height: 80.5 cm  
Width: 22.5 cm

**757882V90**

# GENDER ORGANS

**MAGNETIC**

### The Genital Organs, magnetic board material

This item enables to teach and show this sensitive subject in an objective but interesting way. Fix the parts step by step on the board and tell children about the sexual parts and their function.

8 magnetic female parts (grey body part: 39 x 55 cm),  
9 magnetic male parts (grey body part 42 x 57 cm),  
38 magnetic word plates (English, French and German),  
1 manual with copy sheets (2 levels) included

**758182V90**

### Toothbrush Demonstration Kit

To teach children proper oral care. Teeth are connected to large flexible wire allowing the giant toothbrush to access the hard-to-reach areas.

Toothbrush: 36 cm long, Dimensions: Dental Model: 10.5 x 23 x 16.5 cm

**2038V90**

### Dental Model

Realistic shapes and details

Dimensions (H x W x D): 9 x 7 x 11 cm

**85456V90**

### Colour Mixing Strips

Transparent strips in 6 different colours. Help children understand the basic colour theory.

Warning Notice: 1 (page 271)

**81840V90**

### Mortar and Pestle, 320 ml

Great for pupils to grind and study different food items

Diameter: 13 cm, filling capacity: 320 ml

**754510V90**

### Mortar and Pestle, 50 ml

Diameter: 6 cm, filling capacity: 50 ml

**74727V90**

### Dental X-Rays

Brushing and flossing teeth is important, but our x-ray set goes beyond the basics. Give students an exclusive look at the consequences of tooth injuries and infections of all kinds. Explore the development of healthy teeth and the intricacies of correcting growing teeth with braces.

**Content:** 10x-rays and guide

**757316V90**

### Human X-Rays

These genuine images of the human skeletal system can be placed on light panels, or held up to a lamp or overhead light, to see bones as only x-ray technology can allow. Arrange the pieces to create a complete skeleton.

**Content:** 18 x-rays, reproducible worksheets and guide

**50928V90**

### Life-sized Skeleton Model

Life-sized skeleton model with detailed bone structure to help demonstrate the nuances of the human skeletal system. Great for students to learn the components and structure of the human skeleton. Height: 170 cm

**86924V90**

CAN BE INDIVIDUALLY PAINTED,  
PASTED AND DESIGNED.

### Personalised Apron with Organ Motive

The apron is made of high-quality and durable paper which can be individually painted, pasted and designed. After the apron has been designed, it can be tied together with the included laces and given holes and worn by the children. By painting and designing the apron, the children get to know the makeup of the human body. All important organs like lungs, heart, gullet, liver, stomach, spleen, gall bladder and large and small intestine are printed on the apron.

**Content:** 12 aprons, dimensions (L x W): 67 x 47 cm  
Warning Notice: 4 (page 271)  
**757309V90**

### Personalised Apron with Skeleton Motive

The apron is made of high-quality and durable paper which can be individually painted, pasted and designed. After the apron has been designed, it can be tied together with the included laces and given holes and worn by the children. By painting and designing the apron, the children get to know the anatomical bone structure of humans and interesting functions of the body.

**Content:** 12 aprons, dimensions (L x W): 67 x 47 cm  
Warning Notice: 4 (page 271)  
**757310V90**

### Magnetic Pictures to Create a Food Pyramid

A balanced diet is very important for the children in today's hectic schedule. But what is healthy and what is unhealthy? There is much to find out about our food. The magnetic pictures help to sort and visualise what we should eat and what we should avoid.

Size: up to 9 cm, in sturdy cardboard box  
**88614V90** Set of 50 pieces

### Magnetic Food Pyramid

This pyramid consists of 9 pieces. Can be used together with magnetic food pictures.

Dimensions: 90 x 90 cm  
**88107V90**

**SET: Magnetic Food Pyramid + 50 Magnetic Pictures**

**70825V90**

**Climate Change – Magnetic Board Material**

CO<sub>2</sub>-caused climate change, board material  
 This set contains magnetic board material that helps to explain the climate change in a comprehensible way.

**Content:**

38 magnetic parts for the board (with word cards in German, English and French)  
 Measurements (H x W x D): 1.9 x 38.5 x 57.9 cm

**759818V90**

**I'm planning my experiment – Magnetic Board Material**

This item allows to develop an experiment's process directly on the board. Students learn how to express the question and make a supposition. They find out how to plan an experiment, watch, describe and evaluate. And last but not least the magnetic table signs remind them to tidy up and dispose the waste.

**Content:**

29 table plates (9 coloured illustration signs – 20 x 16 cm each. 20 word plates: English, French and German – 20 x 5.5 cm each), 1 worksheet to copy

**760405V90**

**NEW**

## AROUND THE WORLD

### **Carpet "The animals of our world"**

Made from 100% nylon, bottom made from 100% latex  
With pictures of cities, continents, climate zones and  
animal's habitats.

Size (H x W x D): 1.5 x 300 x 200 cm

**761207V90**

### **Writeable Globe, only borders**

The white surface shows the outlined countries. Colour  
them with erase markers and write the names of conti-  
nents or countries on the globe.

#### **Content:**

Globe: diameter: ca. 28 cm

4 dry wipe markers, 12 reusable animal stickers

**86777V90**

### **Solar System**

With an illuminated sun, 9 planets including  
Mercury, Venus, Earth, Mars, Jupiter, Saturn, Uranus,  
Neptune and Pluto as a dwarf planet. It rotates automa-  
tically and has an interactive voice (English).

Batteries are not included.

Warning Notices: 1, 5 (page 271)

**85800V90**

### Magnetic Water Cycle

Large magnetic water cycle for black or white boards with key words related to the water cycle. Great for explaining what the water cycle is and how it works. The children identify major stages of the water cycle and use the model to demonstrate their knowledge. Furthermore, they develop scientific vocabulary.

**Content:** 6 symbols (land, water, sun, 3 clouds, rain and snow), 5 arrows, 14 term tags  
Made out of magnetic foil

**89853V90**

**MAGNETIC**

### Water Cycle Simulator

Where does the rain come from? Why do rivers flow? Demonstrate nature's water cycle: Fill water into the sea and put some ice cubes into the cloud. Use a desk lamp as sun – and see what happens. The sun evaporates the seawater. The ascending vapour condenses at the cold cloud. It starts to rain. The rivers collect the rain water and transport it back into the sea. The cycle is closed.

**Content:** relief basin, lid, cover for the cloud, stand (lamp is not included)

Dimensions (H x W x D): 12 x 51 x 31 cm

**86618V90**

### Weather Stamp Set

Stamp the real weather on a given day or what the children would like it to be! Learn about the changing weather patterns. Great for use on weather charts and calendars.

Diameter: 7.5 cm

Warning Notice: 1 (page 271)

**54020V90** Set of 12 stamps

Minimum order: € 400,-

WITH SOLAR MODUL!

### Construction Kit Electric Current

The electric current kit for primary schools helps children to learn about electricity. They build simple electrical circuits, simple switches, investigate the electrical conductivity of materials and so on.

56 construction parts, detailed manual with lots of sample applications. Dimensions (H x W x D): 4 x 47 x 34 cm  
Warning Notices: 1, 2 (page 271)

81937V90

### Lime Clock

In this science project children learn the functionality of batteries with the lime clock. Simply add a lemon, a potato, lemon juice or even cola to generate enough electricity to run a digital clock.

#### Content:

5x wire contact plates, 1x clock module, 1x large base, 1x small base, 1x clock module base, 2x water columns with lids, 2x zinc electrodes, 2x copper electrodes  
Warning Notice: 2 (page 271)

83673V90

### Box with Electrical Materials

#### Content:

10 solar cells SM330, 10 solar motors RF-300, 48 cables with alligator clip, 1 m each, 10 electronic sounder, 30 bulbs 2,5 Volt, 0,3 Ampere, 10 bulb holders, 10 flat square batteries (3R12), 1 transparent storage box  
Warning Notice: 2 (page 271)

83728V90

### Electricity-Kit 1

31 pieces

An ideal introduction to electrical circuits. All basic parts are in plug-in style, easy, safe and quick for practicing electricity skills.

Contains basic electricity parts:

2 bulb holders with bulbs, 2 switches, 1 power pack, 10 wire connectors, 2 battery holders, 4 base plates with 5 connectors, 4 cube connectors, 1 EVA fan, 1 instructions

Warning Notice: 1 (page 271)

85479V90

### Discovery Kit Electricity and Circuits

- › Active learning
- › Can be used without grat preparation
- › 7 Fully developed learning stations
- › 48 experiments

Station learning is effective and all children are busy at the same time!

The station box is always ready for use and saves you preparation time! Benefit from the completely elaborated stations and experiments described for children! The entire experimental material is already included.

Your pupils discover the topic of electricity in an action-oriented way. They deal with 48 station cards with the following orders: How do I plan my experiment?

Why is electricity dangerous? Types of switches, series connection, parallel connection, gaps in the circuit, what causes electricity? What does electricity have to do with

magnetism? On the worksheets (copy templates) the children can enter their observations and test results. Detailed explanations, solution sheets and further information are included in the 55-page guideline.

**Content:** Station box with 7 small station boxes  
 41 bulbs, 38 sockets, 96 crocodile hooks, 25 flat batteries, 4 switches, 3m electrical tape, 200 paper clips, 4 propellers, 3 motors, 6 sample clips, 10 sheets of clay drawing paper A4, 30m aluminum foil, 4 clothespins, 1 thermometer made of glass, 1 roll of enameled copper wire, 2 screws, 2 buzzer, 1 manual, 48 station cards, 2 cards 7 mini storage boxes.

Warning Notices: 1, 2, 41 (page 271)

**757790V90**

### Electronic Construction Kit

Build over 350 electronic experiments with this snap circuits kit containing 42 parts. Just snap components together to build one of many projects. Learn about electronics while having fun.

Warning Notices: 1, 2, 32 (page 271)

**89211V90**

42 pieces in sorting box

### Research Case Acoustic

Sounds are created by vibrations. How can sounds be heard? How does sound spread? How can you make sound visible? What is the difference between high and low notes?

**For this purpose, experiments are carried out in these areas:**

- › Experiments on the formation of sound
- › Experiments on how sound travels
- › Experiments on the transmission of tones and sound
- › Experiments on the development of sound and keys

#### Content:

- 30 balloons
- 6 aluminum rulers, 30 cm
- 1 net with 100 marbles
- 2 plastic funnels
- 2 transparent hoses, 12 mm, 1 m long
- 1 roll of cord, 250 g, natural
- 6 teaspoons made of stainless steel
- 10 pipettes
- 1 watercolour box
- 1 brush
- 1 bag of drinking straws, pack of 135, black, 8 mm
- 2 C plastic recorders
- 1 crepe tape, 50 m, 25 mm wide
- 1 comfort seat pad
- 3 tennis balls, approx. 60 g, 60 mm diameter
- 6 plastic bottles, 200 ml
- 1 pressure-sealing bag, 120 x 170 mm
- 1 bag of 150 rubber rings
- 1 instruction/handout

Warning Notices: 4, 5, 6, 9 (page 271)

**83539V90**

### Research Case Mechanics

What is force? Which forces work on us? Can they be measured? How are bridges or buildings built stable? We find out how to save power, how a pulley works and why the Leaning Tower of Pisa does not fall over. Mechanics are also about movement: Why do I fly forward when braking and what causes the stopping at all? Simple and yet smart experiments show what happens in the carousel and how the gearshift works on the bike.

**For this purpose, experiments are carried out in these areas:**

- › Experiments on force and motion
- › Experiments on balance and center of gravity
- › Experiments on dynamics
- › Experiments on friction
- › Power transmission experiments

#### Content:

- 6 dynamometer (spring balance)
- 16 pulleys
- 500 g plasticine, green
- 1 nylon cord on a roll, 50 g
- 25 balloons
- 6 cork plates
- 10 sheets craft felt, 150 g/m<sup>2</sup>
- 6 sheets of sandpaper grit 120
- 10 table tennis balls
- 6 gear translation sets
- 50 giant straws
- 2 balloon pumps
- 1 manual mechanics
- 2 ziplock bags 200 x 300 mm
- 1 zippered bag
- 50 g Alco rubber bands, 150 mm long, 4 mm wide
- 1 comfort seat pad, 320 x 380 x 10 mm
- 1 instruction/handout

Warning Notices: 1, 2, 6 (page 271)

**83543V90**

### Research Case Optics

Light spreads in a straight line. But what happens if it hits surface like a mirror, a white wall, or on water? How do lenses change the paths of light? The most important lens is the one in our eye, how does it work? Where do the colours of the sky come from? Why is there summer and winter? How does day and night come about?

**For this purpose, experiments are carried out in these areas:**

- › Experiments on sunlight
- › Experiments on light absorption
- › Experiments for light reflection
- › Experiments on refraction
- › Experiments on light scattering
- › Experiments on the functioning of the eye

#### Content:

- 50 wooden sticks
- 50 sheets photo cardboard, A4, black 300/m<sup>2</sup>
- 6 mirrors
- 6 double mirrors, 20 x 7 cm
- 1 set crystal hangers, full cut, 18 pieces
- 1 pipette
- 50 microscope slides, unpolished
- 6 magnifiers
- 12 LED lights (red, green, blue)
- 1 set with 7 acrylic prisms
- 1 eye modell
- 2 softball globes
- 1 polystyrene can, 200 x 100 x 85 mm
- 1 pressure-seal bag, 200 x 300 mm
- 3 zip-loc bags
- 1 comfort seat cushion, 320 x 380 x 10 mm
- 6 flashlights with lightbulbs for students
- 1 instruction/handout

Warning Notices: 1, 2, 34 (page 271)

**83540V90**

## Electricity & Electric Circuits

With this set your students perform exciting experiments. They build electric circuits and insert switches in these. They experience how light and heat are generated with electricity. The conductivity of different testing materials are examined by the children. Over 540 parts!

Working material for 16 working groups:

- › 16 electric motors
- › 16 propellers for engines
- › 16 electronic buzzer
- › 16 switches
- › 16 flat batteries 4.5 V (3R12)
- › 16 lock screws
- › 16 thermometers (-10 to + 110 °C)
- › 64 extra-long crocodile cables (1 metre)
- › 32 sockets for bulbs
- › 40 light bulbs
- › 100 paper clips 50 mm
- › 1 coil of copper wire
- › 2 rolls of electrical tape
- › 16 sets of 12 conductivity test materials each, consisting of:
  - metal
  - graphite
  - coal
  - wire
  - plastic
  - wood
  - material
  - glass
- › 1 teacher's handbook with copy templates

Warning Notices: 1, 2 (page 271)

**83675V90**

## MATERIAL FOR 16 WORKGROUPS

SERIES AND PARALLEL CIRCUIT

CONDUCTIVITY EXPERIMENTS

## Van-de-Graaff-Generator

This machine produces large static electric sparks for a terrific classroom demonstration. Turning the crank will spin the disks and charge them to a very high voltage. This will be noticeable in several ways including the noise of small sparks between the foil sectors, an ozone smell, and the tingling in your hand caused by the electric field. The cylindrical capacitors aid in producing stronger sparks. No assembly required

Dimensions:  
Platform (W x D): 28 x 18 cm  
Height: 34 cm

**48002V90**

Minimum order: € 400,-

## Alternative Sources of Energy

Children have to learn and know how alternative sources of energy are won and used.

With the contents of this case your students can build small power stations and then operate motor appliances and light sources with it. They understand how these technologies function. They learn the production respectively transformation of energy by means of:

- › water power
- › solar energy
- › motion
- › wind energy
- › electrochemical reaction

Each group studies these different technologies.

The included handout contains copy sheets and background information to this topic.

Working material for 8 working groups with 3–4 pupils each:

8 water turbines, 8 syringes + hoses for the turbines, 8 dynamos / motors, 8 dynamo cranks, 8 wind turbines, 8 solar cells, 8 solar engines, 8 propellers, 8 LEDs, 8 LCD watches, 36 connection cables mounting material, 1 transport case with 3 foam inserts, 1 teacher's handbook with copy templates

A total of 560 parts

Warning Notice: 2 (page 271)

**83674V90**

### Wind Power

This kit includes 2 styles of wind turbine blades and a gear box with 3 different gear ratios to fit all wind conditions. The wind turbine blades are adjustable by angle and quantity to make best use of wind in order to make the LED shine bright and charge the battery as fast as possible. The kit helps children to explore the power of wind and stored energy to activate the models they build up.

Includes a 40-page coloured manual with illustrations of 2 wind turbines, 6 model vehicles and various experiments.

Warning Notice: 1 (page 271)

**83931V90** Set of 133 pieces

# GENERATE GREEN ELECTRICITY BY WIND POWER

Pretend Play

Montessori

Language

Mathematics

### Remote-Controlled Robots

Patented "Capacitive Touch Sense" is a novelty for remote control with sound and light effects. 3 different motions can be built with the model at the same time. Comes with 30-times motor, receiver, battery holder and some cool blocks. Develops children's mechanical concepts, independent thinking and eye-hand coordination. This kit includes a 48-page coloured manual and illustrates various amazing models with different mechanical motions to help children learn by having fun.

Warning Notice: 1 (page 271)

**83932V90** Set of 182 pieces

### Senior Solar

With this kit children can explore the applications of solar technology and develop problem solving capacities and creativity. With the multicoloured parts made of plastic, a large double solar cell and an electric motor, stationary and mobile models are created in no time at all.

Includes a coloured manual with detailed instructions for 22 models.

Warning Notice: 1 (page 271)

**83933V90** Set of 265 pieces

**Pulley Set**

For mechanical tests and demonstrations.

**Content:**

- 4x pulley single
- 4x pulley double parallel
- 4x pulley triple parallel
- 6 spring scales (250 g, 500 g, 1000 g, 2000 g, 3000 g, 5000 g)

**83935V90**

**Weight Set with Brass Hooks**

Set of 7 cylindrical masses with hooks.

Set includes the following sizes:

- 1x 10 g, 2x 20 g, 2x 50 g, 2x 200 g (one with hooks on both sides)

**756658V90**

**Vacuum Chamber**

Pump the air out of an airtight container using a hand pump and create a real vacuum.

A variety of experiments can be performed:

- > compare the size of a balloon
- > study the impact on food by placing half an apple inside
- > compare the sound of a ringing mobile phone
- > demonstrate the principle of air resistance by using down feathers

Dimensions of the container: diameter: 12 cm, height: 7 cm

**84731V90**

**ROBOTICS AND HYDRAULICS:  
PHYSICS TO TOUCH - FOR TEACHING AND PROJECT WORK**

**Hydraulic Robotic Arm ▲**

Build this hydraulic machine and use the force of water to grab, lift, turn, push and so on.

Dimensions Cardboard Box (H x W x D):

19 x 25.5 x 5.5 cm

All parts included to build the machines. Detailed manual included.

Warning Notices: 1, 2 (page 271)

**758041V90**

**Hydraulic Machines ▼**

Build this hydraulic machine and use the force of water to grab, lift, turn, push and so on.

Dimensions Cardboard Box (H x W x D): 25 x 31.5 x 7 cm

All parts included to build the 4 machines. Detailed manual included

Warning Notices: 1, 2 (page 271)

Warning Notices: 1, 2 (page 271)

**758039V90**

**Exploring Kit Magnetism**

Observe how magnets influence different materials and other magnets. Learn to set up a configuration following the scheme on the instruction card and discover the basic concepts of magnetism.

**Content:**

- > 5 horseshoe magnets
  - > 4 bar magnets
  - > 6 compasses
  - > 1 set of floating magnets
  - > 1 box with iron filings
  - > 1 weather vane
  - > 10 instruction cards with the assignment on the front and the solution on the back
- Warning Notices: 1, 2, 32 (page 271)

**88416V90**

# COMPASS

**Magnetic Needle on Stand**

Great for studying magnetic phenomena such as the operation of a compass, testing of magnetic poles and finding the direction of electric current. Magnetised steel needle about 7.5 cm long on a non-magnetic metal stand. The north pole is marked in red. Comes with a worksheet.

**86078V90**

**Compass Case**

**Content:**

- 27x mini compasses with compass points (diameter: 2.7 cm)
- 27x mini compasses without compass points (diameter: 2.7 cm)
- 2x magnet needles on stand, (height: 7.5 cm)
- 1x copy sheet wind rose

**81906V90**

**Compass in Metal Case**

Diameter: 5 cm  
 Graduations: 360°  
 Needle is liquid damped to settle quickly.  
 Magnifying lens.

**9982V90**

**Map Compass**

Diameter: 5.5 cm  
 Dimensions (D x W): 90 x 65 mm

**9997V90**

**Compass**

Diameter: 4.8 cm  
 Made of durable plastic. Transparent bottom with lines

**9996V90**

## Discovery Case Magnetism and Compass

The case includes experimentation material on the topics of magnetism and compass. Overall your students are able to perform 28 different experiments. The set includes adequate material for all experiments to be performed at the same time. Therefore, a whole class can work and explore simultaneously.

The enclosed handout for teachers (44 pages) contains interesting information, master copies of each experiment and many solution sheets. The material is stored safely in a robust carrying case with foam inlays and can be easily transported.

Experiments on:

- › Magnets attract, reject or influence each other
- › Magnetic or not
- › Forms, force, effects, patterns, fields, formation of magnets
- › Construction and use of a water- or yarn-compass
- › Big magnet "earth"
- › Electromagnet

### Content:

6 removable big and small storage boxes filled with different big bar- and horseshoe magnets, ring magnets with stands and one electromagnet, metal pads, different magnetic and non-magnetic materials, boxing cars, boxes of iron powder, compasses, jumper wire, magnetic needle with stands and copy templates of a wind rose, sensory perception bag, twine, set square, plastic can. Moreover a ruler and a handout.

Attention: batteries are not included. You need 2 batteries of the type AA.

Warning Notices: 1, 2, 32 (page 271)

**757383V90**

# EXPLORING MAGNETISM

## Magnetism Kit

Fantastic colourful selection of magnetic material for magnetism discovery work.

### Content:

- 1 giant horse shoe magnet
  - 4 magnetic wands
  - 14 magnetic marbles
  - 40 transparent counters with magnet ring
  - 1 horseshoe magnet
- Warning Notices: 1, 5 (page 271)

**87608V90**

## Large Experimental Set Magnets

Children are fascinated by the "invisible force" of magnets.

This kit offers endless possibilities for all kind of magnetic experiments. Ideal for group projects.

Warning Notices: 1, 2, 5 (page 271)

**59323V90**

Minimum order: € 400,-

### Magnetic Attraction Kit

Find out about the first principles of magnetism.

**Content:**

8 ring-shaped magnets (bicoloured), 2 magnetic men (8 cm tall), 2 cars (length: 10 cm), 1 stand, 2 magnetic wands, 1 ruler, 1 sorting tray, 1 manual

Children learn about magnetic forces and how they repel or attract and about 'floating' magnets. They design patterns with the iron filings and the wands.

Warning Notice: 1 (page 271)

**85141V90** Set

### Swimming compass

Gives children a first impression of the principles of magnetism and helps to determine the cardinal points. Incl. plastic bowl that can be filled with water.

Magnet size (w x h): 8 x 3 cm, diameter bowl: 13.5 cm

**760791V90**

### Magnetic Marbles

Set of 20 magnetic marbles in 10 colours  
Diameter: 1.5 cm

Warning Notice: 5 (page 271)

**87621V90**

### Magnet Wands

Set of 7 magnetic wands in 7 colours  
Engage students in hands-on magnetism activities.  
Great for physical science centers.

Height: 20 cm

**85589V90**

### Horseshoe Magnet

**85594V90** Small, 12 x 12 x 2 cm

**85593V90** Large, 20 x 20 x 2.5 cm

### Iron Powder

Iron powder in a sealed plastic case. See how iron powders react with magnets and show magnetic fields without the mess. Dimensions (H x W x D): 1 x 9.7 x 7 cm

Warning Notices: 1, 2 (page 271)

**754594V90**

### Set of Magnets

15 magnets in different shapes. Height horseshoe: 4.5 cm. To introduce the concept of polarity.

Warning Notice: 1 (page 271)

**85139V90** Set

### Floating Magnets

Children learn that magnets have 2 poles and how same poles repel and opposite poles attract each other.

**Content:**

base with magnet (height: 10 cm)

4 ring magnets in different colours (3.2 cm)

Warning Notice: 32 (page 271)

**85591V90**

STATION 1  
MAGNETS ATTRACT, MAGNETIC OR NOT, MAGNET SHAPES

STATION 2  
EXPERIMENTS WITH MAGNETIC FORCES OF VARYING STRENGTH

STATION 3  
MAGNETS ATTRACT OR REPEL EACH OTHER

STATION 4  
THROUGH WHICH MATERIALS MAGNETS ARE EFFECTIVE

STATION 5  
MAGNETIC FIELDS

STATION 6  
WE BUILD DIFFERENT COMPASSES

STATION 7  
WE BUILD ELECTROMAGNETS

## DISCOVERY KIT MAGNETISM AND COMPASS

- > ACTIVE LEARNING
- > CAN BE USED WITHOUT MUCH PREPARATION
- > 7 FULLY DEVELOPED LEARNING STATIONS
- > 27 EXPERIMENTS

### Discovery Kit Magnetism and Compass

The station set allows you to perform effective lessons with different stations without great preparations. All stations and experiments are already prepared and explained in detail. All materials needed for the experiments (except batteries) are already included. The whole class can experiment and observe on 7 different stations.

27 cards with the following tasks: What is magnetic and what is not? What kind of magnets are there? How do they react to each other? How far do they reach? How does a magnet form? What does a magnet consist of? What are magnetic fields? How is a compass set up? How does it work? How do you build a string compass or a water compass and how do you build an electromagnet?

The observations can be written down on the working sheets (copy sheets). Detailed explanations, solutions and further information are included in the handout.

The electromagnet requires 2 batteries type AA Mignon and 1 flat battery 4.5 V (3R12), not included.

Warning Notices: 1, 2, 5, 32 (page 271)

**754632V90** German Version

### Tray for Experiments

Plastic tray, Dimensions (H x W x D): 1 x 33 x 24 cm  
Very useful to transport the results of the experiment  
**81892V90**

### Dropper Bottle

For a correct filling. Capacity: 50 ml.  
Made of polyethylene.  
**86029V90**

### Thermometer

-10 °C to +110 °C, 30 cm. Made of glass.  
In a sturdy plastic tube.  
Warning Notice: 41 (page 271)  
**85753V90**

### Sorting Trays

Set of 5 white trays  
Dimensions (H x W x D): 3 x 18 x 12 cm  
**70883V90** Set of 5

### Transparent Sorting Tray

Made of food-safe plastic, dishwasher safe  
Dimensions (H x W x D): 5 x 23 x 15 cm  
**850106V90** Set of 5

# GREAT LABORATORY EQUIPMENT

### 14 Test Tubes

In a rack  
**Content:** 14 test tubes in a rack, diameter: 2.4 cm, height: 10.5 cm.  
All test tubes are to be closed with a plastic cork.  
Warning Notice: 1 (page 271)  
**52102V90**

### Goggles

Clear flexible plastic goggles. Elastic strap on the back.  
Sized to fit a child's face.  
Warning Notices: 1, 8 (page 271)  
**86034V90**

### Mobile Laboratory for Students

The large material wagon contains everything you need to perform exciting experiments with your children. Up to 16 children explore in groups natural science phenomena.

**Flexible usability:** The practical material wagon can be moved easily to every place of action. The wheels can be dismantled.

**Practical ordering system:** The materials are sorted in 8 removable drawers.

#### Content for 16 children:

- 16 goggles
- 16 bug viewers
- 32 measuring cups
- 24 colour powders for colour experiments
- 32 test tubes
- 8 test tube racks
- 8 pipettes
- 24 powder bottles
- 8 measuring spoons
- 24 petri dishes with three partitions
- 8 thermometers
- 8 dropper bottles
- 8 spray bottles
- 24 boxes with lid
- 8 magnifiers with 7x magnification
- 1 roll container with 8 drawers

Dimensions of the cart (H x W x D): 86 x 30 x 38 cm

Warning Notices: 1, 2, 8, 41 (page 271)

**83979V90**

## MOBILE EXPERIMENT LAB WITH 249 PARTS

### Plastic Funnels

Perfect to fill test tubes and other small containers.  
Diameter: 4 cm

**52109V90** Set of 5

### Droppers

14.5 cm, 3 ml

**900609V90** Set of 6

### Wash Bottle

Plastic  
Flexible-walled bottle, with screw cap and bent tube  
Capacity: 500 ml

**86030V90**

### Petri Dishes

With three partitions and cover.  
Diameter: 9 cm, height: 1.5 cm

**52106V90** Set of 3

### Petri Dishes

Transparent plastics with cover for different kinds of experiments.

Diameter: 9 cm, height: 1.5 cm

**52105V90** Set of 3

**MAGNETIC**

### The Roadworthy Bicycle

This teaching aid demonstrates which vital parts are necessary to make a bicycle roadworthy: lights, a bell, and reflectors ... A large magnetic poster can be placed on the blackboard. Using the detailed magnetic bicycle parts students will be able to build a bike safe for traffic. The word cards in English and German can be used for bilingual teaching.

- > 1 bicycle poster / magnet (2 panel set), 66 x 48 cm
- > 8 bicycle parts / magnet, diameter: 13 cm
- > 8 word cards (double-sided, English/German)

**754488V90**

### Exploring Kit Gears

Discover the principles of gears transmitting motion. Learn to set up a configuration following the scheme on the instruction card and discover how a gear train is formed. A variety of experiments can be performed using different types and sizes of gears, observing differences in direction and in speed ...

#### Content:

4x base grids, 5x rods, 2x short frames, 2x rubber bands, 4x pulley blue (2x small, 2x large), 3x chain gear yellow (1x small, 2x large), 4x L gear yellow, 7x M gear blue, 7x S gear red, 28x S axle red, 5x M axle black, 1x unit chain (41 units), 1x peg/axle remover, 10x cam connector red, 10x work cards with the assignment on the front and the solution on the back

Warning Notice: 1 (page 271)

**88415V90**

### Wooden Construction Slats

Construct freely or try to build self-supporting buildings like Leonardo bridges or domes without glue or nails. Wooden Construction Slats, small

**Content:** 99 pcs, Dimensions (L x W x D): 18 x 2 x 0.3 cm, birch, construction manual included  
**760464V90**

### Wooden Construction Slats, large

**Content:** 45 pcs, Dimensions (L x W x D): 36 x 4 x 0.5 cm, birch, construction manual included  
**760465V90**

### Water Purification Kit

Learn two different techniques of water filtration with this water purification kit! Three experiments take kids through the steps of purifying water through filtration with gravel, sand, activated carbon and filter paper. One distillation experiment illustrates the concept of evaporation, the water cycle, and states of matter. This kit for making clean water contains gravel, sand, carbon, filter paper, and a multi-level filter device. You supply a few common household items like soil, cooking oil, clear plastic cups, tape, and coffee.

Note: Performing the experiments in this kit produces filtered and distilled water, but it is not safe for human consumption. Drinking water must also be disinfected. However, you can use your cleaned water for plants, if you wish.

#### Content:

1 evaporating dish, 1 evaporating dish cover, 2 cups with 2 holes, 2 cups with 4 holes, 1 cup holder, 1 non-perforated cup, 1 pack activated carbon, 1 pack gravel, 1 pack sand, 10 filter papers, instructions  
Warning Notices: 1, 2 (page 271)

84738V90

## WATER PURIFICATION KIT

### Experiment Box: Swimming and Sinking

Can a cork float? Which weight drops the fastest? The children can answer these questions independently by experimenting with this set. The set offers many opportunities to teach children about swimming and sinking objects and materials.

#### Content:

- › 5 polystyrene balls (Ø 30 mm)
- › 5 polystyrene balls (Ø 60 mm)
- › 5 corks
- › 5 foam cubes
- › 5 wooden cubes
- › metal weight set  
(2x 1 g, 2x 2 g, 2x 5 g, 2x 10 g, 2x 20 g, 1x 50 g)
- › 2x clay (red, 65 g)
- › 5 measuring cups  
(50 ml, 100 ml, 250 ml, 500 ml, 1000 ml)
- › storage box

Warning Notices: 1, 2, 5 (page 271)

59322V90

Minimum order: € 400,-

# MUSIC

## Rhythm Set in Bag with 19 Instruments and 4 Beaters

Very stable bag with different compartments to store the instruments. Can be hung opened.

In the 6 compartments you find all kind of instruments with all kind of sounds. Ideal for music activities.

**Content:** 2 tambourines (diameter: 20 cm and 15 cm), 5 triangles (10–20 cm), 2 wooden maracas, 1 giant guiro with scraper, 2 tone blocks, 1 wood block, 2 colourful castanets, 1 handled castanet, 1 wooden tone block, 1 pair of claves, 1 metal shaker. Dimensions of the closed bag (H x W x D): 10 x 39 x 42 cm

**8319V90**

As long as available

## Extended Rhythm Set in Bag with 26 Instruments and 4 Beaters

Next to the instruments from the left side there are following instruments:

3 handbells with 10 jingles, 1 jingle stick, 1 maracas stick, 2 pair wooden claves

**8320V90** Set

As long as available

## Box with 26 Shakers

4 large wooden maracas  
6 egg shakers  
4 mini maracas, plastic  
2 wooden mini maracas  
2 calabash shakers  
2 skin maracas  
6 fruit shakers

Warning Notice: 43 (page 271)

**84214V90**

## Class Kit Rhythm Instruments

Instruments made of wood, metal or plastic for every child.

**Content:**

1 tulip block red, 1 tambourine (diameter: 20 cm)  
1 handbells (diameter: 20 cm), 4 egg shakers  
4 pair claves, 1 tone woodblock  
1 wooden guiro, 1 four tone woodblock  
1 pair mini-maracas, 2 jingle bells  
2 handled bells, 1 wooden handled castanet  
4 castanets  
1 headless wooden tambourine  
1 headless plastic tambourine, 2 pairs of finger cymbals  
1 triangle (15 cm), 1 triangle (10 cm)

All 30 instruments: in storage box (20 x 48 x 38 cm)  
Warning Notice: 43 (page 271)

**81950V90**

# THE NEW RHYTHM BAGS ARE AVAILABLE!

## Rhythm Bag

Very stable rhythm bag with adjustable shoulder strap and 2 plastic wall hanger. Inside are 6 pockets and 1 loop for sticks. 4 of the pockets have pocket flaps.

### Content of both:

- 1x guiro with scraper
- 2x castanets
- 1x handled castanet
- 4x egg shaker
- 1x tone block
- 1x wooden tone block
- 1 pair of finger cymbals
- 2x wood blocks
- 3x triangles
- 1 pair of claves
- 1x tambourine
- 1x big handbell with 12 jingles

### Additional content of bag with 26 instruments:

- 3x small handbells with 10 jingles
- 1x jingle stick
- 1x maracas stick
- 2 pairs of wooden claves

Dimension of closed bag: 42 x 39 x 10 cm

Material: 100% polyester

All Warning Notice: 43 (page 271)

**758325V90** Rhythm bag with 19 instruments

**758326V90** Rhythm bag with 26 instruments

**Big Two Tone Block**

Quality hardwood block with a handle. Loud and resonant. Dimensions: Width: 20 cm, diameter: 4.5 cm  
**5207V90** With mallet

**Two Tone Block**

Produces two different tones. Dimensions: Width: 19 cm, diameter: 3 cm  
**5276V90** With mallet

**Wooden Tone Block**

Dimensions: Width: 18 cm, diameter: 4.5 cm  
**5206V90** With mallet

**Wooden Guiro with Beater**

Dimensions: length: 20 cm, diameter: 3.5 cm  
**5208V90** With mallet

**Two Tone Guiro**

Dimensions: length: 25 cm, diameter: 4 cm  
**5209V90** With mallet

**Tone Wood Block**

Can be played while holding in the hand or put on a stand. Slotted one side, sharp sound, natural wood. Supplied with a mallet.  
 Dimensions (H x W x D): 3 x 18 x 7 cm  
**4149V90**

KEEP THEM  
 MOVING!

**Mini Cabasa**

For small hands. Ideal for special effects. Dimensions: diameter: 6 cm  
**4972V90**

**Afuche Cabasa**

Rest the flat of your hand on the beads and move the beads around the cylinder rhythmically using long and short strokes. Easy to play. Dimensions: diameter: 10.5 cm  
**4971V90**

**Fish Guiro**

Fish-shape, length: 31.5 cm. Easy to handle.  
**4088V90** With scraper

**Large Mexican Guiro**

Fish-like shape, with scraper, length: 40 cm  
**4380V90** With scraper

**Tulip Block**

Red block with a handle. Produces a loud clear tone. Length: 25 cm  
**4844V90** With beater

**Fruit-Shaker-Set & Corn-Guiro**

Orange, banana, lemon, kiwi fruit, mango or corn. A set of shakers, each with its very own sound. And the best of all: Additionally the corn can be used as a guiro.  
**84029V90** Set of 6 instruments

### Mini Maracas (wood)

Made from quality wood. Length: 12 cm  
**9960V90**

### Mini Maracas (plastic)

Made of durable plastic  
Length: 12 cm  
**9961V90**

### Wooden Maracas

Colourful with carved and painted design  
Small – ideal for children's hands.  
Oval, length: 15 cm  
**8862V90** Pair

### Wooden Maracas

Oval, length: 25 cm  
**5028V90** Pair

### Egg Shaker Maracas

Egg shakers with handles. Supplied in packs of 2 – in different colours. Two different sounds.  
Length: 12 cm  
**5396V90** Pair

### Egg Shakers

Mini-maracas in the form and the size of an egg with a subtle difference in sound between each colour. The pitch level declines from yellow to pink, green and blue.  
Set includes 4 eggs (yellow, pink, green, blue);  
Length: 5 cm  
Warning Notice: 43 (page 271)  
**4955V90** Set of 4

### Big Egg Shakers

Sound is warmer and deeper than the sound of the smaller chicken shakes. Made from quality wood, very nice finish. Dimensions: 8 cm  
**8852V90** Pair

### Claves – Laurel

Length: 20 cm  
**9796V90** Pair

### Beech Wood Claves

Producing a big sound.  
Dimensions: length: 21 cm, diameter: 2.4 cm  
**5266V90** Pair

# GET THE RHYTHM!

### Triangles

With mallets and holders. Diameter: 8 mm

- 5320V90** 10 cm
- 5321V90** 15 cm
- 5322V90** 20 cm
- 5323V90** 25 cm

### Hand Held Jingles

With 10 bells  
 Very nice design – grip is made of sturdy plastic.  
 The jingles are sure to be a big hit with children.  
 Clear sound.

Size: 10 cm  
**8310V90**

### Wrist Jingles

On a sturdy strap, 22 cm long, Velcro® fastening.  
**4408V90** 4 bells

The same as 4408V90 but with 5 bells. 22 cm long  
**8858V90** 5 bells

### Hand Held Jingles

Bells on a plastic band. Screwed onto a wooden handle.  
 Impressive sound.  
 Size: 15 cm

**8872V90** 5 bells  
**8871V90** 7 bells

### Body Jingles

With 10 large bells  
 Attached with Velcro®. Deeper sound.  
 Length: 83 cm

**8857V90**

### Castanets

Diameter: 5.5 cm  
**4155V90** Pair

### Finger Cymbals

With elastic straps. Pair – brass – diameter: 6.4 cm  
**4897V90**

### Brass Cymbals on Wooden Handles

Set of two small brass finger cymbals with wooden handles. Classroom music standard, easy to play. They add a fun sound element to the classroom ensemble.  
 Pair, diameter: 5.4 cm

**84144V90**

### Stick Castanet

Quality wood, length: 21 cm  
**4157V90**

### Cymbals

These brass cymbals have good tonal quality. Give a bright clear sound. With leather straps. Pair

**5327V90** Diameter: 15 cm  
**5329V90** Diameter: 20 cm  
**5331V90** Diameter: 25 cm

### Set of 3 Hand Drums

For Latin American and other Rhythms

Tunable heads (the same way as Bongos). Can be played with the hand or with a mallet. Can also be put on the floor or on the table while playing.

Sizes: 20 cm, 25 cm and 30 cm, 1 stable bag, 3 mallets

**4670V90**

### Stick Jingle

25 bells on a stick. Reminds you of the sleigh bells.

Dimensions (W x H): 30 x 6 cm

**5804V90**

### Wooden Jingle Stick

With 6 pairs of tambourine jingles.

Length: 30 cm

**5799V90**

### Headless Tambourines

**5260V90** Diameter: 20 cm, 6 pairs of jingles

**5261V90** Diameter: 25 cm, 8 pairs of jingles

### Slit Drum

This 4 tone slit drum has a beautiful tone.

Comes with a felt beater.

Dimensions (H x W x D): 11 x 32 x 12 cm

**89230V90**

### Hand Drums

With nylon skin. Can be played with the hand or a mallet.

**84197V90** Diameter: 20 cm, with mallet

**84198V90** Diameter: 25 cm, with mallet

**84200V90** Diameter: 35 cm, with mallet

**BEST  
SELLER**

**Tambourines**

Tunable, with tension rods.

**4143V90** Diameter: 20 cm + mallet

**4144V90** Diameter: 26 cm + mallet

**4145V90** Diameter: 28 cm + mallet

# TAMBOURINES

**Hand Drums**

Tunable

Plastic heads. Tunable with tension rods.

Plastic heads have a constant tuning. No need to retune them because of a change in temperature or humidity.

**8904V90** Diameter: 20 cm + mallet

**8903V90** Diameter: 25 cm + mallet

**8902V90** Diameter: 30 cm + mallet

**Tambourines**

Without tension rods, not tunable.

**4180V90** Diameter: 20 cm + mallet

**4181V90** Diameter: 25 cm + mallet

**Small Conga with Removable Strap**

High sound. Height: 28 cm, diameter: 20 cm. Made of wood. Natural skin. Tunable with 4 tension rods.

**8446V90**

**Maple Bongos**

1 pair of tunable bongo drums with diameter: 19 x 16 cm heads.

**4956V90**

### Kazoos

Easy to play as a special effect instrument for your school lessons. Reading notes is not necessarily required. By speaking or humming the membrane inside the Kazoo is set into vibrations, and out comes the typical buzz sound. Effectiv way for children to overcome their inhibitions of singing in front of others

- > jar with 40 Kazoos, assorted colours
- > instruments are washable
- > length: 12 cm

**754575V90**

### Ocean Drum

Recreate the sound of the crashing waves of the sea. This two-headed drum has a clear head on one side and a head printed with a sea design on the other. It has steel beads inside and a robust fabric on the bottom. Create wonderful sound effects simply by shaking or tilting the drum. Diameter: 35 cm

**84401V90**

### Percussion Chimes

Solid percussion chimes of polished aluminum and free floating in a wooden base create an outstanding pure and bright tone. The rods are ideally tuned to one another. Well-suited for special effects or as a signal during playtime and independent work.

**Trio percussion rods, c<sup>1</sup>, e<sup>1</sup>, g<sup>1</sup> chord** (wooden base 20 cm), wooden striking mallet included

**89216V90**

### C-Recorder

Made of high quality plastic. Easy to clean.

**5134V90**

### Lotus Flute, wood

Different sounds are produced by shifting back and forth a bar inside the tube, thus shortening or lengthening the column of air. Length: 18 cm

**89283V90**

### Rainmaker

**4272V90** Diameter: 4–6 cm, 50 cm

**4273V90** Diameter: 6–8 cm, 50 cm

**4274V90** Diameter: 6–8 cm, 100 cm

### Rainmaker

Plastic rainmaker, with colourful plastic beads to create the sound of a downpour. The combination of sound and colour makes this product a delight for children.

Length: 30 cm

Warning Notice: 1 (page 271)

**9984V90**

### Howling Tube

Hardly any other toy turns bodily movement more directly into sound than the colourful howling tubes. These plastic tubes are very easy to play: Hold one end of the tube tightly with one hand and start spinning it around. By changing the speed of spinning you can create lower and higher notes.

Length: 74 cm

**42129V90**

SELLER**

# BOOMWHACKERS

Perfectly tuned percussion tubes

Made of high quality plastic. The tubes are perfectly tuned to different musical notes which are clearly marked on their labels.

Hundreds of songs can be played on the various sets listed below. Whack almost anything to produce sounds – table, chair, floor, hand ...

Different surfaces produce different sounds, but always the same musical pitch. You can also play chords by combining the tones.

Increase the tonal range by also ordering the octavator caps. Fit a cap to the end of the tubes and the tone is dropped by one octave – making a full 2 octave range of tubes available.

Easy to play and to learn about rhythm, melody and harmony in a fun way.

## Storage Box for Boomwhackers

Holds ca. 40 Boomwhackers, cardboard  
Dimensions (H x W x D): 21 x 46 x 30 cm

**86935V89**

As long as available

## Octavator Tube Caps

Set of 8 Tube Caps  
Lower the pitch by one octave.

**6890V90**

### Boomwhackers, diatonic

Diatonic Set with 8 tubes  
 $c^1 - c^2$  range (upper octave)

**6936V90**

### Boomwhackers, chromatic

5 Note Chromatic Set with 5 tubes (upper octave)  
 $c\sharp^1, d\sharp^1, f\sharp^1, g\sharp^1, b\flat^1$

**6937V90**

### Boomwhackers, pentatonic

6 Note Pentatonic Set  
With 6 tubes:  $c^1, d^1, e^1, g^1, a^1, c^1$

**6935V90**

### Boomwhackers Soprano Set

Treble Extension Set  
With high  $c\sharp^2, d^2, d\sharp^2, e^2, f^2, f\sharp^2$ , and  $g^2$

**6893V90**

### Boomwhackers Bass Set

7 Notes  
Diatonic set (lower octave)  $c, d, e, f, g, a, b$

**6965V90** Set of 7 tubes

### Boomwhackers Bass Set

5 Notes  
Chromatic set (lower octave)  $c\sharp, d\sharp, f\sharp, g\sharp, b\sharp$

**6966V90** Set of 5 tubes

### Boomwhackers Dice

Dimensions: 10 x 10 x 10 cm  
Features the same colours as the pentatonic boomwhackers set (6935V90)

Warning Notice: 1 (page 271)

**88812V90**

### Chroma-Notes™ Stick-Ons

Chroma-Notes™ Stick-Ons are removable stickers coloured according to the boomwhackers colour scheme for colour-coding other instruments such as glockenspiel, sound tubes ... to make it easier for children to learn and to play notes. The stickers are removable and reusable. Some writeable blank stickers are included as well.

The set contains 500 stickers, consisting of:  
300 pcs. diatonic with letters,  
100 pcs. diatonic without letters,  
75 pcs. chromatic with sharp/flat spelling,  
25 pcs. chromatic without sharp/flat spelling

**84475V90**

### Boomwhackers Glockenspiel

The colours and the tones of the notebars match those of a diatonic set boomwhackers (6936V90). This makes it easier for the children to start playing on glockenspiel.  $c^2-c^3$ , Length: 24 cm

**88810V90**

### Chromatic Set

Set of 5 notebars (colours matching 6937V90)

**88811V90**

### Wooden Stand

Dimensions: 45.5 x 13.5 x 4.5 cm  
Ideal way to store the boomwhackers.

**8935V90**

### Boomwhackers Xylo Tote Tube Holder

A whole new way to play your boomwhackers like a xylophone! Used as a carrier, it accommodates 8 Boomwhackers and a pair of mallets. Two or more can be combined end-to-end for a wider range of play. Made of cotton, elastic and hook-and-loop fasteners.

**900573V90**

## MAGNETIC

### Rhythm & Beat Cards a Whole-Class Experience, 86 Pieces

Introduce Boomwhackers to your class with colourful magnetic board materials. Students will play the Boomwhackers without any knowledge about music notation. Endless preparations and uncountable copies belong to the past: Place the cards on the board and count the beat aloud in front of the class. Children will know their cue by looking at the board.

Age: 5+

#### Content:

- › 64 dry-erase magnets (16 red & orange, yellow, pink, purple, light green, dark green – 8 each), 8 x 8 cm
- › 10 beat card magnets with numbers (2 of each: 1, 2, 3 and 4; 1x 5, 1x 6)
- › 12 blank card magnets
- › 1 folder with master copies & instructions

84662V90

### Boomwhackers Rhythm and Tact Cards, Chromatic Addition

Set with rhythm and tactcards in the colours of the chromatic addition of the Boomwhackers tubes. Magnetic board material.

**Content:** 40 cards (each 8x in the colours light red, light orange, dark green, blue, violet).

Card dimensions (W x H): 8 x 8 cm

760281V90

### Rainbow Sound Tubes

The chimes of these instruments are mounted on round plastic tubes (in the boomwhackers colours) for a better resonance and an excellent sound. Delivered in a sturdy carrying bag.

**88960V90** Set of 8 chime bars  $c^1$ – $c^2$  and 8 mallets

### Rainbow Sound Tubes, Chromatic Addition

Expand the application spectrum of the rainbow sound tubes (88960V90) by adding  $c^\sharp$ ,  $d^\sharp$ ,  $f^\sharp$ ,  $g^\sharp$  and  $b^b$ . Delivered in a carrying bag, 5 mallets included.

**84015V90** Set of 5

### 10 Note Handbell Set

Top quality construction and accurate intonation. Each metal bell is colour coded with the proper note to help children learn the musical scale.  $f^\sharp$  and  $b^b$  have black handles.

Every child gets his own bell to play in the hand or on the table. The colours correspond to the colours of the boomwhackers. Height: 13.5 cm

### Set of 10 Bells

with a handle (diatonic set with  $f^\sharp$  and  $b^b$ )

**8535V90**

### Set of 10 Bells

with handle (diatonic set with  $f^\sharp$  and  $b^b$ )

Height: 13.5 cm

In a sturdy carrying bag

**88905V90**

### Chromatic Additional Notes

Set of 3 hand bells,  $c^\sharp$   $d^\sharp$ ,  $g^\sharp$

Height: 14 cm, diameter: 7.5 cm

**84566V90**

### Set of 10 Desk Bells with Push-Knobs

Top quality construction and accurate intonation. Colour coded with the proper note to help children to learn the musical scale.  $f^\sharp$  and  $b^b$  have black knobs.

Diatonic set with  $f^\sharp$  and  $b^b$ , diameter: 7 cm

**8528V90**

**88912V90** In a sturdy carrying bag

#### 1) Soprano Glockenspiel Diatonic

32 cm long, diatonic  $c^3-g^4$  (with  $f\#^3$ ,  $b^b3$ ,  $f\#^4$ ) 15 notebars, 20 x 2 mm, 1 pair of mallets. Notebars are red.  $f\#^3$ ,  $b^b3$ ,  $f\#^4$  are blue.

88600V90

#### 2) Alto Glockenspiel Diatonic

34 cm long, diatonic  $c^2-a^3$  (with  $f\#^2$ ,  $b^b2$ ,  $f\#^3$ ) 16 notebars, 20 x 2 mm, 1 pair of mallets. Notebars are red.  $f\#^2$ ,  $b^b2$ ,  $f\#^3$  are blue.

88638V90

#### 3) Soprano Glockenspiel

37 cm long, diatonic  $g^2-g^4$  (with  $b^b2$ ,  $f\#^3$ ,  $b^b3$ ,  $f\#^4$ ) 19 notebars, 20 x 2 mm, 1 pair of mallets. Notebars are red.  $b^b2$ ,  $f\#^3$ ,  $b^b3$ ,  $f\#^4$  are blue.

88601V90

#### 4) Soprano Glockenspiel Chromatic

41 cm long, 24 cm wide 27 notebars (chromatic scale from  $g^2-a^4$ ). All tonalities can be played without changing the notebars. It looks like the keyboard of a piano

88602V90

#### 5) Alto Glockenspiel Chromatic

41 cm long, 30 cm wide 27 notebars (chromatic scale from  $c^2-d^4$ ). All tonalities can be played without changing the notebars. It looks like the keyboard of a piano.

88639V90

#### 6) Carrying Bag

For Soprano Glockenspiel Chromatic  
Dimensions (H x W x D): 6 x 46 x 28.5 cm  
Material: 100% nylon

84665V90

#### 7) Coloured Rhythm Building Blocks, magnetic

For first rhythm experiences without knowing notes. The coloured blocks have 4 different lengths. The increasing length of the blocks are twice length of the smaller

block. Children clap their hands intuitively faster the shorter the rhythm block length is.

758497V90 54 parts

**NEW**

### Music Rainbow Glockenspiel

**Content:** 8 metal bars on felt mats, wooden frame, 2 wooden sticks

Frame size (H x W x D): 5 x 24.5 x 16.5

**759634V90**

### Chromatic Addition to Music Rainbow Glockenspiel

**Content:** 5 metal bars, tones: cis<sup>2</sup>, dis<sup>2</sup>, f#<sup>2</sup>, gis<sup>2</sup>, b<sup>b2</sup>

**759636V90**

### Classical Guitar Concert Guitar 39" Valenzia AL 2339

Fir wood top, wooden body and neck, hardwood fingerboard, high gloss finish, bone nut 50 mm, diapason 65 cm

**88685V90**

**89512V90** Set of 6 Replacement Strings 39"

### Acoustic Guitar 1/4 (Size 30")

Body material: Basswood, glossy finish, bone nut 48 cm

**84670V90**

**Desktop Metal Music Stand**

Folds compactly, carrying bag included  
 Dimensions (W x H): 46 x 23 cm  
**84181V90**

**Rhythm Dice, 3 cm**

 Warning Notice: 1 (page 271)  
**5007V90** Set with 4 dice

**Penta Dice, 3 cm**

Wooden dice with notes (c, d, f, g, a, c') in a pentatonic scale. It doesn't matter in which sequence the notes are thrown, played or written, the result is always a very nice melody.  
 Warning Notice: 1 (page 271)  
**5178V90** Set of 5 dice

**Note Values Game**

Good visual aid for explaining/comparing note values. Completes the Magnetic Music Whiteboard. Consists of 34 magnetic note cards. Without Music Whiteboard  
**84681V90**

**Magnetic Music Whiteboard**

Great for improving music reading skills. Children instantly recognise musical notes, rests, accidentals and time signature. The magnetic notes make it very easy to compose scales, intervals, rhythm, triads and own music. The surface is a dry erase board and can also be written

on with whiteboard markers for free composing. 1x whiteboard with 2 music staves (treble and bass clef), 23 x 31 cm, 33 colourful magnetic elements (music notes, sharps ...)  
**84145V90**

FOR LITTLE MUSICIANS

**Folding Music Stands**

Folds compactly for easy transport. Maximum height: 145 cm. Desk: 43 x 23 cm. Folds down to 37 cm. Weight: 1.1 kg  
**4819V90** Black  
**4855V90** Silver

**Guitar Stand**

Ideal for school band concerts. The guitar is securely placed during breaks or when switching instruments. Folds flat for easy storage and travel.  
**84159V90**

### Magnetic Grading System

No music room available and you have no music board? No problem! With this mobile magnetic grading system you can teach music theory on any black board. Just attach the stripe on the inner side of the black board (can be cut to size if needed) and lessons can start right away. The grading system is magnetic as well as magnet adhering, meaning you can also work with magnetic music notation sets. Can also be written on with white-board markers.

Dimensions (W x H): 195 x 27 cm

Line distance: 2.5 cm

Scope of delivery does not include notes.

84631V90

MAGNETIC

MAGNETIC

# SPORTS & GAMES

## Football Set

Specially for your needs

### Content:

8x school football (34276V90)

2x match football (34277V90)

1x soft-indoor football (34279V90)

1x mesh bag (3469V90)

**33118V90** Set

## School Football

Best school quality, carefully hand-stitched.

Low-priced training football in official size and weight.

Blue

**34276V90** Size 5

## Training Football

Excellent training football for a good price value.

Shape-retaining with an abrasion-proof, water-repellent surface. Official size and weight.

Red

**34275V90** Size 5

## Match Football

Great match football for all kinds of games and matches regardless of weather conditions or tournament locations. Size and weight according to FIFA guidelines.

32 panels, carefully hand-stitched, grey

**34277V90** Size 5

### School Basketball

Perfect ball for training with an excellent price-performance-ratio. Good bouncing characteristic with handy surface.

Size 5, circumference 69–71 cm, weight: 470–500 g  
**754873V90**

### Basketball

Training ball – very easy to grasp. Nylon cover. Very good bounce.

**754445V90** Size 5  
**756207V90** Size 7

### Basketball Junior

Very handy thanks to its burred surface. Lightweight (only 290 g)

Material: plastic, diameter: 20 cm, perimeter: 66 cm  
**760879V90** Size 4

### Coated foam Football

Balls can be used for any activity. Use indoors and outdoors. A great substitute to harder rubber or synthetic footballs. Made of polyurethane

**33200V90** Size 4, Ø 20 cm, 400 g, Age: 24 M+  
**33915V90** Ø 15 cm, 130 g

### Schoolyard Football

Perfect for playing indoors and outdoors. The football is high quality and made of resistant rubber.

Diameter: 22 cm  
**757112V90** Size 5

### Football, Rubber

Unique sturdy football. Ideal for all surfaces and all weather conditions. Vulcanised rubber with grained surface.

Size 5  
 Diameter: 22 cm  
 Weight: 470 g

**34170V90** Yellow/red  
**756128V90** Blue/red

### Football Softball

An ideal football for children and young students. Regular size football, but its weight is reduced to 200 g.

Green  
**34274V90** Size 5

### Soft-Indoor Football

Suede-like material cover, especially durable bladder and carefully manufactured to suit tight conditions of indoor football. For indoor football only!

Yellow/grey  
**34279V90** Size 5

### Indoor Football

This football is made of high-quality felt and is perfect for playing conditions of indoor football. Thanks to excellent quality this ball meets the highest standards.

Yellow  
**34280V90** Size 5

### Soft Ball Bounce

An exciting alternative to hockey!  
Soft bats and soft ball are made of foam skin.

**Content:** 6 sticks – 3x red and 3x blue, length: 80 cm  
1 ball – diameter: 13 cm

**33189V90**

**33915V90** Replacement ball

### Ball-Bounce

Ball-Bounce, set with 6 rackets and one ball

A new way for familiar games to be played. This fast game for nimble students can be played on the floor and in the air – possible due to the soft head of the racket and the small plastic ball. The rackets offer different versions of the game, e.g. hockey, tennis or badminton in a new way. All of the games stimulate the reaction, the coordination, the hand-eye-coordination and the movements of your students.

**Content:**

- › 6 rackets (3x blue, 3x red)
- › ball

**3949V90**

### Easy Grip Balls

Set of four colourful balls with a ribbed effect surface that helps the children catch and throw. The balls are sturdy and have a perfect size for kids.  
In the colours red, green, blue and yellow.

Set of 4: diameter: 9 cm, 12 cm, 16 cm, 20 cm

**758159V90**

### Unihockey Set

Sturdy hockey sticks made of particularly unbreakable plastic – ideal for use both indoors and outdoors (on grass). The rackets have a shaft length of 80 cm and are suitable for children and adolescents up to a height of 160 cm.

The set includes 12 sticks and 12 balls, so each player can practice with his own ball.

**Content:**

- › 6 sticks with a red shovel
- › 6 sticks with yellow shovel
- › 12 balls (diameter: 7.2 cm)

**3570V90**

### Set of 10 Soft Volleyballs

Great for younger children. Soft enough to be tossed or thrown without the fear of painful impact, these yellow volleyballs are made of high-density foam, and feature a soft coating for durability. Diameter: 20 cm, Weight: 32 g Set of 10. Comes in a ball net

**100612V90** Set of 10

### Foam Balls

Very good quality with a strong skin. Good bouncing characteristic. Easy to grip

- 3283V90** Ø 9 cm, 22 g, yellow
- 33173V90** Ø 9 cm, 22 g, green
- 3291V90** Ø 16 cm, 100 g, red
- 33174V90** Ø 16 cm, 100 g, blue
- 3284V90** Ø 18 cm, 140 g, blue
- 33175V90** Ø 18 cm, 140 g, red
- 3285V90** Ø 21 cm, 200 g, white
- 33176V90** Ø 21 cm, 200 g, violet

Minimum order: € 400,-

### Lightweight Volleyball

Exercise ball with a clearly reduced weight (200–220 g) in official size. Slower floating, and easier to volley – perfect for beginners. With hand sewn soft polyurethane-cover.

**34282V90** Size 5

### Beach Volleyball Sport

Durable ball for a good price value. The special synthetic leather cover offers a soft touch and excellent grip and is therefore ideal for beginners. For all weather conditions, shape retention and durable. 18-panel hand sewn construction. Official size and weight.

**34281V90** Size 5

### Training Handballs

Specially designed and extremely popular with schools! The ball is extremely smooth but sturdy and super to grip.

- 3849V90** Mini Size 0
- 3848V90** School Size 1

## Foam Balls

Very good quality with a strong skin. Light bouncing, easy to grasp. For indoor and outdoor use.

Diameter: 15 cm, weight: 65 g

- 33195V90 Red
- 33196V90 Blue
- 33197V90 Yellow
- 33198V90 Green
- 33199V90 Purple
- 33993V90 Orange
- 33992V90 Pink

## Football Billiard Set Size 4

Football Billiard is a combination of billiard and football – it's fun because you get to kick the balls into pockets instead of using a cue stick. This game demands a mix of feel for the ball and provides a lot of fun. It is perfect for warm-ups or team games.

A set consists as real billiard from seven "half", seven "solid" and the black "8". The white "ball" is in difference to the numbered balls with reduced bounce. As sidelines you can use any existing gymnastic bench, outdoor bench etc.

**Content:**  
15 coloured balls, 14 white ball, 1 net  
**34382V90**

### Tennis Ball

Diameter: 6 cm,  
weight: 60 g  
**33211V90**

### Soft Football

Suitable for gym and lawn  
Diameter: 20 cm,  
weight: 320 g  
**35451V90**

### Soft Volleyball

Suitable for gym and lawn  
Diameter: 20 cm,  
weight: 320 g  
**35452V90**

### Soft Tennis Ball, coated

Diameter: 9 cm, weight: 45 g  
**33357V90**

### Safe-Keeping Ball Net

Perfect for transport and storage.

- 3468V90** Net for 6 balls
- 3469V90** Net for 9–12 balls

### Ball Net with Collecting Ring

Up to 20 balls (size 5) can be stored in this sturdy net. The handy ring ensures a quick and easy collecting.

**36285V90**

### Bouncing Balls

These fantastic rubber bouncing balls are perfect for jugglers. They feel great in your hands. Easy to clean with soap and water.

Set of 6 balls in 6 colours. Diameter: 6 cm

**754465V90** Set of 6

### Fun Ball

Excellent bouncing ball, but never in the direction you expect it to!

Particularly good for circle and group games.

With needle valve for inflation.

Diameter: ca. 20 cm, weight: 190 g

**36236V90**

# GET ORGANISED - USE THE MOBILE STORAGE TOWER

- > STURDY
- > SHOCK-RESISTANT
- > CAN BE RINSED OUT
- > EXTENDABLE

## Mobile Storage Tower

Use this tower as the perfect extension for cabinets and shelves or as the super flexible mobile organiser. The plastic storage drawers can be easily stacked together and combined in an array to suit your needs. They are extremely sturdy and shock-resistant. The tower includes castors for mobility. It is up to you to create a freestanding tower, a cabinet storage or a roller container.

### 1> Storage Tower with 4 Large Drawers

## DISPLAY BOARD AT CHILDREN'S HEIGHT

### Children's Board Display Panel

Display board at children's height  
 These panels can be set up individually and can be used at both sides. The light weight material and the easy click assembly make it very simple to install and dismantle the panels. The boards can be plugged-in in 2 directions – landscape or portrait. One landscape – one portrait, one red – one blue ...

Both sides have textile covered surfaces for fixating objects with Velcro® tape or attaching papers with pins.

Dimensions (W x H): 120 x 75 cm  
 Please order the stand separately.

### Display Board, 1 pc.

- 76923V90 Blue
- 76922V90 Red
- 76924V90 Grey

### Stand at children's height

To be used with the display boards  
 Solid tubular frame, light grey, with T-foot, height: 150 cm, 1 pc.

76925V90

## GREENBOARDS

- › Especially developed for schools.
- › The surface is very similar to conventional schoolboards.
- › Robust aluminium frame with consolidated angles.
- › Very comfortable to write on.
- › Cleaning as usual: wet or dry.
- › Magnetic because of the steel back sheet.
- › With clipboard for chalk.

Wall fastening material included

**74957V90** 90 x 60 cm

**74958V90** 120 x 90 cm

## WHITEBOARDS

- › Robust aluminium frame with consolidated angles.
- › Magnetic because of the steel back sheet.
- › Scratch-resistant surface made of coated steel.
- › Easily dry cleaning.
- › Writable with whiteboard markers.
- › With clipboard.

Wall fastening material included

**74951V90** 90 x 60 cm

**74952V90** 120 x 90 cm

## PINBOARDS

### Fabric Covered Pinboard with Aluminium Frame

Use push pins for prompt sharing of information and announcements on this softboard. No lasting pin holes thanks to the robust velour, not even in case of frequent use. Aluminium frame with rounded plastic corners. The pinboard can be used horizontally and vertically. Includes installation set for wall mounting. Thickness: 1.6 cm

**73862V90** Blue: 90 x 60 cm

**73863V90** Blue: 120 x 90 cm

**73864V90** Blue: 150 x 100 cm

## CORKBOARDS

### With Aluminium Frame

Use push pins for prompt sharing of information and announcements on this corkboard. No lasting pin holes thanks to the self-healing cork material, not even in case of frequent use. Aluminium frame with rounded plastic corners. The pinboard can be used horizontally and vertically. Includes installation set for wall mounting. Thickness: 1.6 cm

**73859V90** 90 x 60 cm

**73860V90** 120 x 90 cm

**73861V90** 150 x 100 cm

### Portable Magnetic Screen

The most simple and easy way of installing a projection screen. In between classes there is not much time to set up the classroom for the use of multimedia. Often there is no time left to get and assemble a portable projection screen. The solution is to unroll the magnetic screen and apply it on the blackboard surface. Instantly you can start projecting with the beamer or the overhead projector. The material of the magnetic screen surface resembles the usual whiteboards. It is matt white and reflects the light optimally without blinding. This generates bright and intensive colours. The extraordinary strong material facilitates an installation of the screen in no time and without any wrinkles. Dimensions (W x H): 90 x 125 cm

**73458V90**

### Whiteboard Marker

The Whiteboard Marker is available in a set with 4 colours: red, blue, black, green.  
 › round tip, diameter: 1.5 cm  
 › dry wipeable  
 › suitable for all whiteboards and flipcharts

**754794V90**

### Whiteboard Wiper

The form of the wiper guarantees an excellent wiping result. The wiper lies good in the hand and slides across your whiteboard without difficulty due to the exchangeable cleaning felt.  
 Dimensions (H x W x D): 3.8 x 14.5 x 4.3 cm  
 Cleaning surface: 4.3 x 14.5 cm

**756414V90**

### Whiteboard Cleaning Wipes, 100 pieces

The wet wipes clean your whiteboard spotlessly clean and tidy. The practical dispenser enables to take out one cleaning tissue at a time. The dispenser offers 100 cleaning wipes.

**756269V90**

### 6 Little Whiteboards

Children like interactive learning by writing or drawing on their own individual little whiteboard, and then holding it up to show the teacher and the rest of the class. The whiteboards can be written on with standard dry wipe whiteboard markers, and then easily wiped clean for re-use over and over again.

**756964V90** Set of 6, 12.5 x 14 cm

**759012V90** Set of 3, A4

**759013V90** Set of 3, A3

# SPACE SAVING

## Desk Privacy Panel

Quickly arrange the privacy panels on the desk to avoid cheating during exams or tests. Due to the roundness in the front the teachers have a free view on the exercise sheets of their students. The back end of the panel is very thin. This prevents students from slipping cheat sheets underneath the panel, as they can easily be spotted by the teacher.

The privacy panels can be removed quickly and they require very little storage space in the classroom. The table positioner blinds are available in 3 variations: white or with motifs "ABC" or "123". Once set on the desk, they have a size of 37 x 52 x 9 cm (H x W x D).

**756743V90** Desk privacy panel "language"

**755878V90** Desk privacy panel "math"

**755872V90** Desk privacy panel "white"

SET-UP 1

SET-UP 2

SET-UP 3

## Multipurpose Utility Cart

Made of shock-resistant plastic. Guaranteed mobility! Everything stays in place due to roughened and non-skid trays with slightly raised edges. Equipment is moved from one classroom to the other quick and safely. Dual lockable castor wheels provide a firm stand. The stack system allows various modes of set-ups. In a few simple steps, the cart can be enlarged or reduced. Tools are not required for assembly.

Scratch-resistant and shockproof trays keep this cart looking like new. Tripping hazards can be avoided by simply using the lateral fixture clips for cables.

Loadable up to 80 kg. With silent castor wheels. Dimensions (H x W x D):  
 Large: 108 x 69 x 46 cm  
 Medium: 87 x 69 x 46 cm  
 Small: 61.5 x 69 x 46 cm

**77674V90** Black

### Magnetic Traffic Light – Behaviour Management

Implement classroom rules and illustrate misbehaviour with the traffic light system. The traffic light is magnetic and can be mounted to any magnetic surface (can also be fixed to walls).

- › 1x magnetic traffic light – behaviour management (26 x 40,5 cm)
- › 40x magnetic dry-erase name tags (6 x 2 cm)
- › 2x magnetic covers (Ø 13 cm)

74593V90

### Presentation Cards

Special whiteboard coating allows for use with board marker pens and dry wiping. The cards stick to all magnetic surfaces, for example white or green boards.

#### Content:

6x rectangle (20 x 10 cm), 6x circle (Ø 14 cm), 6x oval (20 x 11 cm), 4x cloud (28.3 x 17.6 cm)

754655V90 22 pcs.

### Magnetic Behaviour-Weather

The magnetic behaviour-weather is perfect to censure students during the lesson. Connected with the magnetic name badges it is possible to illustrate the current status on the scale of admonition. It is possible to write on the badges with whiteboard-markers and to wipe it off again.

Dimensions of the magnets (W x H):

sun: ca. 20 x 20 cm, rain cloud: ca. 27.5 x 20 cm, thundercloud: ca. 27 x 20.5 cm, name badge: 14.7 x 3.5 cm

#### Content:

- › 3 big magnetic weather-symbols (sun, rain cloud, thundercloud)
- › 36 magnetic name badges

757111V90

### Smiley Magnet Set

These happy smiley magnets create a cheerful atmosphere in class.

Use them to hold up papers or pictures or simply to inspire. There are plenty of options.

They can hold up to 4 sheets of paper, diameter: 3 cm.

**79513V90** Set of 6

### Magnetic Clips

Simply place the clip on metallic surfaces like a board to hang up posters, pictures and presentations.

**900376V90** Set of 6

### Strong Magnetic Clip

Use big metal clips to present posters or conference papers in just a second! They stick to the board or to any other magnetic surface and have a protective foil on the bottom of the magnet to prevent marks and scratches.

Dimension: 9.5 cm, clamp opening: 2.5 cm.

**73869V90** Set of 2

### Magnetic Tape

Flexible magnetic tape is perfect for making objects magnetic. Self adhesive. Can be cut with scissors.

0.7 mm thick for paper, cardboard etc.

**98V90** 2 cm wide, 1 m

**99V90** 2.5 cm wide, 1 m

1.7 mm thick for heavier objects.

**100V90** 2 cm wide, 1 m

**101V90** 2.5 cm wide, 1 m

Magnetic Tape, 10 metres  
Flexible magnetic tape in different sizes.

0.7 mm thick

**24V90** 2 cm wide

**25V90** 2.5 cm wide

1.7 mm thick

**26V90** 2 cm wide

**27V90** 2.5 cm wide

### Magnetic Squares Tape – in a Practical Dispenser

Magnetic on one side only, reverse side is self-adhesive, can be used to furnish paper, photographs, cards etc. with magnetic backing. Instructions are included on how to turn the packaging into a dispenser.

**79785V90**

### Magnetical Adhesive Tape with Handy Dispenser

Whether paper or other materials, just stick the tape on and make them magnetic.

This practical aid should not be missed on your desk. 8 metre, 1.9 cm wide, 0.3 mm thick

**78566V90**

### Magnet Stickers

Self-adhesive magnet-squares

**7788V90** 1 x 1 cm

**86605V90** 2 x 2 cm

### Self-adhesive Steel Tape

Attach steel tape to the surface. The strip is now ready to accept magnetic items such as magnetic tape and memo magnets etc.

**74229V90** 5 m

**73950V90** 25 m

**Chair Bag**

The practical school chair bag fits all common chair backs. The large pocket can be filled with books, atlases or even material for art lessons. Thanks to the practical carrying handle, transporting from one classroom to the next is no problem. All seams are processed safely and stably. Dimensions (W x H): 40 x 35 cm  
Material: 100% polyester  
**755818V90**

**Magnet Set**

The thin magnetic discs are 1 mm thick and have a diameter of 3.5 cm. They adhere to magnetic surfaces without any problems. The set consists of 42 magnetic discs in 33 different motives. Scope of delivery: 42 magnet discs in 33 different motives  
**760296V90**

**Colourful Magnetic Discs**

The thin magnetic discs are 1 mm thick and have a diameter of 3.5 cm. They adhere to magnetic surfaces without any problems. The set consists of 42 magnetic discs in 7 different bright colours: yellow, orange, red, purple, pink, blue and green. They are perfect for lessons, e.g. as numeration dots, markers of groups or for computing operations. Scope of delivery: 42 magnet discs in 7 colours, 1 plastic storage-box  
**757518V90**

**Sorting Trays**

**Set of 6 Small Sorting Trays in 6 Colours**  
**850111V90** 2.6 x 18 x 12 cm  
**Set of 6 Large Sorting Trays in 6 Colours**  
**850112V90** 4.7 x 23 x 14.7 cm

### Overhead Marker with Blotting Felt and Magnet – black

Can be used on nearly all writable surfaces and is easily wiped off. The integrated magnet allows for easy attaching to any magnetic surface such as a white- or blackboard. The marker is also usable for overhead transparencies or laminated working sheets which can be reused due to the blotting felt.

**758073V90**

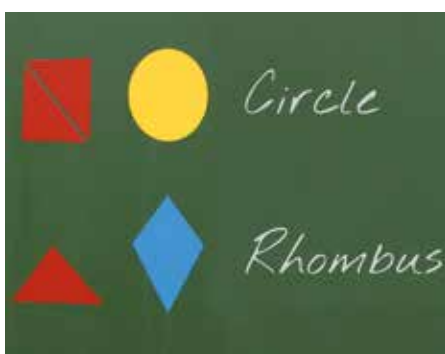

### Magnetic Paper

Realise your own teaching aids. This magnetic paper is writable and printable (with most inkjet printers). It is water and UV resistant and can easily be cut to desired size.

Set of 5 white sheets, A4, thickness 0.3 mm

**73499V90**

### Colourful Magnetic Sheets

Create your own magnetic material. Draw the artwork directly on the film and simply cut it out.

7 sheets, A4, thickness 0.7 mm, 7 colours

**73488V90**

**NEW**

**MAGNETIC**

**Chalk holder, magnetic, set of 4**

Keeps chalk dust away from hands and clothes. Integrated magnet enables to attach the holder to magnetic surfaces while not in use. Suitable for right- and left-handers.

Possible chalk diameter: 8 - 11 mm, 4 colours (red, green, yellow, blue), length: 9.5 cm, diameter: 2.2 cm, made from durable plastic

**761682V90**

**MAGNETIC**

**Classroom Jobs: Helpful Fox Magnets**

Students can easily copy their assignments from the board. The helpful fox magnets are ideal for use on a magnetic whiteboard but they can also be used on any other magnetic surface. Chores can be assigned in front of the class and the children learn to manage their tasks self-reliantly.

**Content:**

- 20 fox magnets (10 x 10 cm)
- 30 blank magnets with dry erase surface (3 x 10 cm)
- Set of instructions

**41330V90**

	Monday	Tuesday	Wednesday	Thursday	Friday
rubbish picker	Julia	Paul	Lenny	Mick	Simon
board cleaner	Susan	Kathy	Ella	Agnes	Luke

SELLER**

### Kid's Noise-Reduction Ear Muffs

In addition to minimizing noise, the headset also helps with concentration during silent work. Even during music lessons the headphones may protect against hearing damage, as well as in the free time, for example when visiting a concert.

Adapts to any head shape, for children with smaller heads and children or teenager with a slightly larger head. The lateral height adjustment can be adjusted quickly and easily. In addition, the earmuffs can be folded to save space and are so easy to stow. The headband is made of plastic and the ear protection cushion is made of imitation leather. Helps children to not be distracted by disturbing noises.

**758491V90** Pink

**MAGNETIC**

### Magnetic Bookmarks, 5 pieces

These colourful bookmarks can easily be opened and clipped on the pages of a book or timetable. Due to its magnetic characteristics, the bookmarks won't get out of place. Moreover, they are extremely hard-wearing in contrast to normal paper bookmarks.

Tip: The bookmarks do not only mark pages, they can also be clipped on the vertical border to mark a line.

#### Content:

Set of 5 magnetic bookmarks (Dimensions: 2 x 6 cm in closed form)

**757005V90**

**MAGNETIC**

### Magnetic Picture Frames, 12 pieces in 6 colours

The picture frames resemble the design of polaroid-photos. Pin a photo to a magnetic wall by placing the frame over it. Useful tip: Inscribe the frames with whiteboard markers with names, information etc. Each picture frame additionally is equipped with 9 small magnets which can fix pictures in the frame or they can separately be used as small elements for decoration.

Dimensions (W x H):

› picture frame (outside): 11 x 13.2 cm

› inner cutting: 9.5 x 9.5 cm

› small magnet-motives: ca. 2.7 x 2.7 cm

Warning Notice: 43 (page 271)

**757332V90**

## Screen Printing Stamps

Screen printing stamps exclusively designed for teachers. Different motives. Red ink, no ink pad required. Non-refillable.

Diameter: 2.2 cm

# YOUR ADVANTAGES

**1** Innovative, new products for your market every year.

**2** Customer-focused team for your support.

**3** Very fast delivery and large stock of products to guarantee a high availability.

**4** Benefit from our longtime catalogue experience for your catalogue design.

**5** Individual product and logistic solutions complying to your needs.

**6** High-quality pictures for your marketing activities through our own photo studio.

**7** A loyal and reliable team for your support.

**8** Safe products for your customers guaranteed.

#### SPINLEY Turnable Disk

Turnable disk with 8 symbols to motivate and reward children and students. Usable for different occasions thanks to neutral symbols. Magnetic backside.

**Content:** 1 turnable disk  
Diameter: 15 cm

**759300V90**

#### SPINLEY Set of 660 Symbol Stickers/ Reward Stickers

Symbol stickers for rewarding children and students. Usable with or without the SPINLEY turnable disk.

**Content:** 660 stickers

**760213V90**

#### SPINLEY Set of 55 Blank Reward Cards

Blank cards for individual rewards for children and students. Symbol of the SPINLEY turnable disk on the front side, 3 lines for any inscription on the back side. Including case for easy storage.

**Content:** 55 cards, 1 transparent case  
Dimensions (H x W): 9 x 6 cm

**760215V90**

#### Quiver Case "Design"

Can be used as a pencil case or with the upper half turned over as a quiver. Sturdy material, with inner lining and firm base.

Dimensions (W x H): 13 x 19 cm

Material: 100% polyester

**760500V90**

#### Etui with Elastic Band

Practical sloppy folder with flexible elastic band for attachment to planners and notebooks. Suitable for A5, A4 and A4 plus. With zipper.

Dimensions (W x H): 7 x 22 cm

Material: 100% polyester

**760497V90** Design

**760498V90** Stripes

**Laminator Vision**

Our new Laminator Vision is an improved version of the Laminator AL3601.

Details:

- › Laminator for documents up to A3
- › For laminating foils up to 500 mic (total thickness)
- › Automatic adjustment to foil strength
- › Cold laminating is possible
- › 6 rollers
- › Short warm up time (approx. 60 sec.)

- › Laminating speed: 1200 mm/min (75 mic)
- › Automatic paper jam detection
- › Reverse function for safe use
- › Automatic standby mode
- › Power: 1200 W

**760915V90**

**Self-adhesive Pockets**

For the labelling of items, boxes or wardrobe compartments. Size per pocket:

- 758954V90** 18 pieces: 2.5 x 7.5 cm
- 758955V90** 9 pieces: 5.5 x 10.2 cm

**Protective Book Corners**

Additional protection for the corners of calendars, planners and notebooks. 2 colours available. Set with 40 pieces. Material: metal

- 758911V90** Silver
- 758913V90** Rose-gold

**Triangle Pockets**

10 Self-adhesive triangle pockets, transparent. Ideal for notes, pictures and many more. Size per pocket: 17 x 17 cm

**758953V90**

**Laminating Pouches**

Super quality laminating pouches

Pack with 100 pouches	150 micron thickness (2 sides each 75 microns)	250 micron thickness (2 sides each 125 microns)

### Learning Box

If you need to memorise things, a learning box is a great way to do repetition. Using index cards and the box with 5 compartments you repeat only those things you do not know.

The box is completely open on the desk – the cover disappears on the underside of the box. The cards are sorted and stabilised by four variable, interlocking dividers. The learning box is small and compact. Dimensions (H x W x D): 6.6 x 20.5 x 9.6 cm

## Plastic with that 'Certain Something'

Our brand new Betzold treeNside material trays are filled with nature – you can see and even smell it! Test it out! They are produced in our own manufacture. We use organic plastic granulate made from wood fibres for their production. The materials are biobased. The robust treeNside material trays can be used in schools, kindergartens, in the office or at home. They are made for organising, storing and sorting or as a container for liquids, such as flourishing water or paste. We recommend the cleaning by hand with water and detergent.

### Sorting Trays, small, Set of 5

Dimensions (H x W x D): 2.6 x 18 x 12 cm  
**Content:** 5 material trays each per colour

- 758887V90 Nature
- 758888V90 Yellow
- 758889V90 Orange
- 758890V90 Red
- 758891V90 Pink
- 758892V90 Purple
- 758893V90 Blue
- 758894V90 Green

### Sorting Trays, large, Set of 5

Dimensions (H x W x D): 4.7 x 23 x 14.7 cm  
**Content:** 5 material trays each per colour

- 758897V90 Nature
- 758898V90 Yellow
- 758899V90 Orange
- 758900V90 Red
- 758901V90 Pink
- 758902V90 Purple
- 758903V90 Blue
- 758904V90 Green

With their wonderfully **harmonious colour combinations** the Betzold treeNside material trays draw everyone's attention. An organic plastic granulate made of wood fibre was processed here. Each bowl has **visible wood fibres** and also exudes a **soft, pleasant wood smell**.

### Sorting Trays

#### Set of 6 Small Sorting Trays in 6 Colours

850111V90 2.6 x 18 x 12 cm

#### Set of 6 Large Sorting Trays in 6 Colours

850112V90 4.7 x 23 x 14.7 cm

### Sorting Trays, small, Set of 6

Dimensions (H x W x D): 2.6 x 18 x 12 cm  
**Content:** 1x yellow, 1x orange, 1x red, 1x blue, 1x green and 1x yellow one of three colours of choice:

- 850255V90 Set with Nature
- 850272V90 Set with Pink
- 850274V90 Set with Purple

### Sorting Trays, large, Set of 6

Dimensions (H x W x D): 4.7 x 23 x 14.7 cm  
**Content:** 1x yellow, 1x orange, 1x red, 1x blue, 1x green and 1x yellow one of three colours of choice:

- 850253V90 Set with Nature
- 850273V90 Set with Pink
- 850275V90 Set with Purple

## Trays – Set of 5

These sturdy trays help to keep everything in perfect order when students work in groups. The trays are manufactured in Germany. They are made from food grade plastics and are also dishwasher-safe.

Dimensions (H x W x D): 2.6 x 18 x 12 cm  
**70883V90**

### Noise Control PRO

Enables selection of acceptable noise levels within classrooms, using the traffic light system. As noise levels increase, lights change from green to yellow then red with or without sound. Noise becomes visible for all children.

An adjustable sound level metre controls the decibel level. Table mount or wall brackets included.

Due to the rechargeable battery pack you are independent from cabling. The LED signal lights with a durability of about 100,000 power-on hours are ready for use at any place and any time. Thanks to rechargeable batteries (included) a continuous operation of 6 hours is possible.

Dimensions (H x W x D): 14.5 x 47 x 6.5 cm

**Content:** noise control, power supply, integrated charger and battery pack

**74747V90**

### Noise Control PRO without battery pack

**Content:** noise control, power adaptor

**74446V90**

### Battery pack for Noise Control PRO

**74748V90**

### Set of 4 Magnets

4 strong magnets enable to attach the noise control system to any metal surface.

**756744V90**

### Magnetic Emoticons & Discussion Icons

Use magnetic icons and emoticons to emphasise statements or keywords on whiteboards or other magnetic surfaces during discussions, pro-con-arguments or presentations.

The green check mark can help to tag a statement as correct. Highlight important issues with the magnetic index finger. Larger emoticons help to organise discussion panels or seatwork. The clock (writeable with dry erase marker) can be used to visualise the remaining time during seatwork or exams.

**Content:**

12x green check mark, 1x clock, 1x seatwork emoticon, 1x group work / discussion group emoticon, 4x thumb, 5x question mark, 5x exclamation mark, 5x star, 6x index finger, 7x flash, 8x neutral emoticon, 8x sad emoticon, 8x laughing emoticon, 8x blue arrow, 12x red cross

**74594V90**

### Multimedia HDMI Wall Plate

Simplify multimedia teaching! Projector, laptop computer and speakers can be used without complicated wiring. The wall plate can be installed without cutting expensive cable slots into the wall: All you need is a wall socket. An HDMI port provides high quality interconnection between all components. The plug & play front saves time during installation.  
 Connections: video, audio L & R (phono), VGA, power outlet  
 Cable length: each cable is approx. 10 m long  
 Power line: approx. 2.8 m  
 Dimensions (H x W x D): 15 x 20 x 6 cm  
**79490V90**

### The Gooseneck Visualiser

The Gooseneck Visualiser is the ideal tool for presentations, image capturing and video recording. With USB, VGA, HDMI multi-interface, not only works with any VGA, HDMI interface projector or monitor but also works with computer to capture real-time images of 3D objects, magazines, books, documents, pictures and business cards. Along with all these great features, the equipped software offers image editing capabilities and whiteboard tools.

**Max Scan Size:** A3 (420 x 297 mm)  
**Image Sensor:** 5.0 Megapixels CMOS  
**Resolution:** 2592 x 1944  
**Focus:** Auto focus  
**Microphone:** Built-in

### Board Compass "Power"

with magnetic clamps

The innovation among drawing appliances for blackboards: This compass has a magnetic foot with 3 strongly adhering magnets, which fix the compass to every magnetic blackboard.

Finally perfect circles and arcs are guaranteed!

Chalk can be clamped easily through a safe spring mechanism. Hence, slipping of the chalk is avoided.

Additionally the compass is equipped with a cm- and degree-scale. On one blade there is a turning handle installed that eases usage.

**420V90**

**GEOLINER**

### Board Compass "Classic"

with vacuum cups

The totally revised Geoliner blackboard compass will convince you by its superior quality and handling! With a super easy and safe mechanism you clamp the chalk into the compass. The vacuum cups are made out of extra soft synthetics, that easily adapt to rough blackboard surfaces. That way the compass adheres perfectly!

It also has a cm- and degree-scale, that enables you to draw perfect arcs and radiuses. On one of the 2 blades there is a turning handle installed that additionally eases usage.

## High quality and absolute reliability

TLS and its model series M100 stands for absolute reliability and maximum quality. The models M100 Blue, M100 Funk and the top-of-the-line model M100 Combi impress by perfect sound and high-quality finishing. Solide wooden bodies guarantee an absolute top-class sound experience. The sound boxes offer

different options to play your sound files: CD, MP3, SD card, USB, AUX and Bluetooth. This enables you to use your smartphone or tablet, which provides the highest possible flexibility. The boxes offer a safe with a lock so you can store your devices securely while not in use. The models differ in the following equipment: The M100

Blue has Bluetooth and a CD drive. In addition, the M100 Funk has a built-in radio receiver for the enclosed radio microphone. The M100 Combi also has a cassette drive with pitch function and counter.

The flap provides a secure stand for tablets (not included).

including AUX-IN and charging station in the device safe

sturdy lock and metal flap for safe storage

# TLS® M200 – series with battery model

## Lockable storage compartment

Store your valuable devices safely. You will find the remote control in the compartment on delivery.

## USB + AUX-IN

The USB port ensures the battery of your mobile device to be fully charged at any time. A fast and satisfactory music performance is possible due to the AUX jack.

## Bluetooth

For all models of your TLS®-Box, Bluetooth function counts to is part of the basic configuration. (Smart-phones and tablet computers)

With second built-in receiver modul for an additional wireless microphone (page 270)

## Battery

The battery provides full power for up to 4 hours.

## Trolley with rollers

Movable for flexible use:

- > gymnasium
- > hall
- > schoolyard

## M200 Blue/Radio/Combi

### Technical details:

**Amplifier:** 120 watt music

**Speakers:** 2-way-system, woofer and tweeter

Many connections for external devices such as loudspeakers

### SoundBox 9995 Funk

The ideal device for schools!

With the different connection possibilities, for example USB and SD as well as battery operating function the SoundBox is a real multi-talent! Thanks to battery operation you can use the box without power-sockets, for example at outdoor events or on sports fields.

The SoundBox has 100 Watt performance and is suitable for classrooms as well as halls.

The radio microphone receiver is built into the plastic housing. The microphone volume is regulated separately. A third microphone can be additionally connected.

Cable, microphone and additional accessories can be stored in the practical compartment above the CD-Player. This way nothing is lost.

#### Technical data:

**Amplifier:** 100 Watt music

**CD-Player:** CD/MP3, CD-RW

**Input/Output:** 6.3 mm jack for microphone, 2x 6.3 mm jack for external loudspeakers, AUX in and out, video-cinch, USB, SD card slot

**Microphones:** 2x UHF radio microphone (registration- and charge-free)

Dimensions (H x W x D): 60 x 30 x 29 cm

**Weight:** approx. 17.6 kg

**Others:** USB-jack, SD card slot, remote control, instruction manual, battery operated with charger indicator

**79790V90**

### Acoustic Speaker System 9995

The Compra® Acoustic Speaker System 9995 is an all-in-one package for your event.

The Compra® Soundbox 9995 is equipped with many different connections for playback sources such as Bluetooth, USB or CD. The additional loudspeaker can easily and quickly be connected to the main box via a 6.3 mm jack speaker cable. The included microphone allows for lectures or even music to be played to a larger audience. By using the tripods, the sound can be transported over longer distances to the very end of the hall.

#### Technical data:

**761027V90**

**Professional Headset Microphone incl. Pocket Transmitter**

Compatible with the TLS® amplifier box M100/200  
**761028V90**

# About Toy Safety:

For us toy safety is more than only providing an EN 71 certificate – we believe in responsibility for our products. Our QC team with three colleagues is checking all of our products and not only the toys. One of these colleagues is an approved “specialist for toy safety” and another one is our technician and quality inspector.

We use the Toy-Checker technology for a permanent screening of our products. The Toy-Checker can identify toxic elements which are banned for example by EN 71 part 3.

For all our toys we can provide an EC-Declaration of Conformity on demand. For non-toy products we can provide statements which explain why these products are not considered as toys and which other regulations they comply to.

Also for all our toy products you will find the appropriate toy warning notices in our catalogue.

## Warning Notices

- 1 WARNING! Not suitable for children under 3 years of age due to small parts. Danger of suffocation!

# PREMIUM QUALITY - MANUFACTURED IN GERMANY

Our parent company **Betzold** manufactures high end plastic products, toys and furniture in **own factories** in Germany.

Production in Germany helps us to comply with the **highest Toy-Safety standards**. To guarantee quality we only use Toy-certified plastic granules as raw material.

Intensive quality inspection complying with high German standards is done during the manufacturing process.

Also production in Europe is sustainable. We avoid long transports and strengthen our local economy.

Due to savings for transport and highly automated production we also can offer these products for a very reasonable price.

Identify these products by looking out for:

**Bright and stable colours guaranteed**

**Premium raw material**

**High level quality inspection**

## Useful Plastic Storage Organiser Boxes – made in Germany

The colourful storage boxes are small, measuring 4 x 10.5 x 7.7 cm (H x W x D), or 6 x 10.5 x 7.7 cm (H x W x D) but can hold a lot of different bits and pieces. As they are stackable, you could have them stacked in a drawer or kitchen cupboard. As they come in 9 different colours, you can even colour code them!  
Heavy duty: The boxes feature lock clips on the front and back of the box to keep the small pieces inside safe. Even if they are tipped upside down, the clips will hold the box closed. As the boxes are sturdy and strong, they will last you years to come.  
Bright colours, different sizes: The boxes come in 6 different colours and 2 different sizes

## PRODUCTS MADE IN GERMANY
